Publication 438 (11-79)

This report annually contains data by industry on receipts, cost of sales and operations, deductions, and net income or deficit of sole proprietorships and partnerships. Classifications are also by State, size of business receipts and for partnerships by size of total assets. The report also contains every other year detailed balance sheet data for partnerships.

Statistics of Income publications are for sale by the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402

Stock No. 048–004–01701–6

Library of Congress Card No. 72-603340

This report was prepared under the direction of E. J. DiPaolo, Chief, Business and Tax Exempt Statistics Section, Statistics of Income Branch.

Other branches of the Statistics Division assisted in development of the sample design, the preparation of processing procedures, and the review of the tables. The data were abstracted by the service centers at Andover, Massachusetts; Austin, Texas; Chamblee, Georgia; Covington, Kentucky; Fresno, California; Holtsville, New York; Kansas City, Missouri; Memphis, Tennessee; Philadelphia, Pennsylvania; and Ogden, Utah; and the Data Center in Detroit, Michigan, which also developed the computer systems design and conducted computer processing of the data.

COMMISSIONER OF INTERNAL REVENUE

Washington, DC 20224

October 24, 1979

The Honorable G. William Miller
Secretary of the Treasury
Washington, DC 20220

Dear Mr. Secretary:

As required by section 6108 of the Internal Revenue Code, we have prepared for publication the complete report, Statistics of Income--1976, Business Income Tax Returns. This report presents income and financial data based on samples of returns of sole proprietorships and partnerships with accounting periods ended July 1976 through June 1977.

Classification of the data by industry and measures of business size are regular features of this annual report. Included this year are data on the detailed sources of income of individuals with sole proprietorship businesses. Also, for partnerships, information on depreciation computed under the Class Life Asset Depreciation Range (CLADR) System and on the number of limited partnerships is provided for the first time.

With kind regards,

Sincerely,

Department of the Treasury Internal Revenue Service

1.5 Receipts and net income by State and selected industries, 101
1.6 Individuals with sole proprietorship businesses: Adjusted gross income, net income, and income tax, by industry and size of adjusted gross income, 154
1.7 Farm proprietorships: Selected items by farm industry and size of receipts, 226
1.8 Sources of income by industry, 229

The statistics in the sole proprietorship section of this report are estimates derived from a stratified sample, selected before audit, of individual income tax returns filed for the 1976 Income Year. For nearly all taxpayers, the 1976 Income Year corresponded with the calendar year. A small number, however, reported for noncalendar years which ended during 1976 and 1977.

This section presents statistics for the single-owner businesses whose activities were reported to the Internal Revenue Service on the returns of individuals. These activities encompassed virtually the entire range of unincorporated, one-owner businesses, farms, and professional practices, from large enterprises with many employees and hired managers to the part-time operations in which the owner was the only person involved. For example, the owner of a fleet of taxicabs who conducted a business with the help of a large staff and the person who owned a cab and drove it during spare time to supplement the family income might both be included in the "sole proprietorship" statistics. Similarly, the barber who owned a shop and the barber who was the lessor of one of the chairs in the same shop were each also includible in the statistics. Excluded were sole proprietorship businesses reported on the returns of the fiduciary agents of estates and trusts; however, very little business activity was involved. For 1974, the most recent prior year for which data were published, there were estimated to be 33 thousand fiduciary income tax returns with sole proprietorship data showing a gross profit (business receipts less cost of sales and operations) of $0.6 billion. In contrast, the estimates for sole proprietorships reported on individual tax returns for 1976 were 11.4 million businesses showing gross profit of $170.3 billion.

The basis for inclusion in these statistics was that the sole proprietor must have filed an Individual Income Tax Return (Form 1040) including a business or farm schedule (Schedule C or F) or Form 4835 (Farm Rental Income and Expenses) covering a farm, business, or professional practice. Form 4835 provided Schedule F detail on income and expenses which were included in the farm statistics. In table 1.1, farms are subdivided into "farm operators" and "farm landlords." This latter classification reflected a common method of renting farm land, the "crop share" arrangement. In this arrangement, one person supplied the land and perhaps some operating capital and another person operated the farm, paying rent in shares of the resulting crop. For tax purposes, each reported a share of receipts from the sale of the crop and, if such was the arrangement, a share of expenses. The operator always reported his or her share of the receipts and expenses on the farm schedule, Schedule F. Likewise, if the landlord "materially participated" in the operation or management of the farm, the landlord used Schedule F to report his or her share of receipts and expenses. On the other hand, if the landlord did not materially participate in the operation or management of the farm, the landlord reported his or her share of receipts and expenses on Form 4835 and submitted Form 4835 with the rent schedule, Schedule E, of the individual income tax return.

For 1976, a return had to be filed by:

(a) a single person (other than a surviving spouse) under age 65 with gross income of at least $2,450 (as compared to a $2,350 filing requirement for 1975);

(b) a single person (other than a surviving spouse) age 65 or over with gross income of at least $3,200 ($3,100 for 1975);

(c) a surviving spouse under age 65 with gross income of at least $2,850 ($2,650 for 1975);

(d) a surviving spouse age 65 or over with gross income of at least $3,600 ($3,400 for 1975);

(e) a married couple, neither of whom filed a separate return, with both spouses under age 65 and a combined gross income of at least $3,600 ($3,400 for 1975);

(f) a married couple with one spouse age 65 or over and with a combined gross income of at least $4,350 ($4,150 for 1975);

(g) a married couple with both spouses age 65 or over and with a combined gross income of at least $5,100 ($4,900 for 1975);

(h) a married person (regardless of age) whose spouse was filing a separate return (e.g., to obtain a refund of income tax

withheld), if that married person had a gross income of $750 or more (no change from 1975).

There were two major exceptions to the above filing requirements:

(1) children claimed as dependents on their parents' return had to file if they had $750 or more unearned income (for example, dividends, interest, capital gains) and

(2) sole proprietors not meeting the gross income requirements were still required to file if they had $400 or more income from self-employment (generally, this meant $400 in trade or business profits).

In addition, some sole proprietors filed returns even though not otherwise required, because they elected to pay self-employment tax on farm gross profit, 1/ because they were receiving a refund of income taxes previously paid, or because they were claiming an earned income credit.

Most taxpayers had to file tax returns within 3—1/2 months after the close of their accounting periods. Since the accounting period for nearly all individuals, for purposes of this report, was Calendar Year 1976, this meant that returns were due by April 15, 1977. However, each taxpayer could be granted upon request one automatic 2-month extension of time to file if he or she paid any estimated tax due by the original due date when the request for an extension was made. In addition, U.S. citizens residing or traveling outside the United States and Puerto Rico were automatically granted (without requesting) the 2-month extension.

Generally, a sole proprietor corresponded to a "self-employed" person, although some persons considered self-employed under the Internal Revenue Code were excluded from the statistics, notably business partners and persons not actually engaged in a trade or business such as public officials and clergymen. The statistics also exclude persons engaged in a profession and craftsmen, neither of whom were required to file a Schedule C; for example, physicians on the staff of a medical school and not engaged in an outside practice, or electricians employed by a manufacturing corporation who did not have a part-time business utilizing their skills as electricians.

The identification of a sole proprietorship from tax returns was not always exact. The taxpayer sometimes used Schedule C to report employee business expenses or partnership activity, and, conversely, sometimes used other parts of the return to report sole proprietorship activity. Such errors were corrected during statistical processing whenever possible; however, not all of them were identifiable, resulting in the incorrect inclusion of a small amount of non-sole proprietorship activity and the exclusion of some legitimate sole proprietorship activity. These taxpayer reporting errors particularly affected the industry "Direct selling establishments" which included door-to-door selling and selling merchandise at parties in private homes.

Chart 1A shows net income (less deficit) for the 10-year period, 1967 through 1976. Chart 1B shows a summary of some of the detail from table 1.6 for sole proprietors in some of the larger or more profitable industries. Chart 1C shows the distribution of the sources of income of nonfarm sole proprietors while Chart 1D illustrates the distribution of farmers' sources of income. Selected characteristics of the returns filed by sole proprietors for 1976 compared to 1975 are summarized in table 1A.

In general, the sole proprietorship reporting unit was the "business" or "firm," based on ownership. Separate Schedules C (or F) were filed for each busi-

Source: Table 1.6

ness owned by the sole proprietor taxpayer; although if the taxpayer owned more than one business (especially if each was engaged in the same line of activity), a single Schedule C was sometimes filed depending on how the proprietor kept his or her books of account. Typically, taxpayers filed separate Schedules C (or F) if they were engaged in more than one business especially if the businesses involved different lines of activity. Thus, an individual who owned both a grocery store and a hardware store usually filed a separate Schedule C for each.

Often the "business" unit coincided with the "establishment" (the reporting unit used in most Bureau of the Census publications), especially in the case of smaller-size businesses, but with several exceptions. If ownership changed during the year, the same business was counted more than once for Statistics of Income, since it had different proprietors each of whom filed a Schedule C (or F) covering that portion of the year they owned the business. Other exceptions are illustrated best by the examples previously given of the barber shop which was two different "businesses," although a single "establishment," and the taxicab driver who had a "business," but no "establishment" or fixed place of business.

The definition of the sole proprietorship reporting unit was complicated in the case of multiple businesses reported on a joint return of husband and wife, depending on whether the businesses were owned by one or both spouses so that the possibility existed of separate Schedules C, for example, being filed for two businesses, in the same line of activity, because the husband owned one and the wife the other.

In any case, throughout the statistics, the reporting unit was the number of Schedules C (or F) filed with the return. No attempt was made during statistical processing to cope with taxpayer reporting variations in accounting for multiple businesses reported on a given return. Therefore, if a taxpayer filed a Schedule C for each "establishment" rather than for the business as a whole, this fact is reflected in the statistics.

INDUSTRIAL ACTIVITY BY STATE

Tables 1.4 and 1.5 show sole proprietorship data classified by the State shown in the mailing address of the proprietor's return. This was usually the State where the proprietor lived, though a few proprietors used other addresses, such as business offices, the office of the practitioners who prepared their returns, or post office boxes. With the limitation that a few proprietorship businesses were not located in the State the proprietor gave as the mailing address or were operated in more than one State, the data in tables 1.4 and 1.5 represent estimates of sole proprietorship business activity in each State.

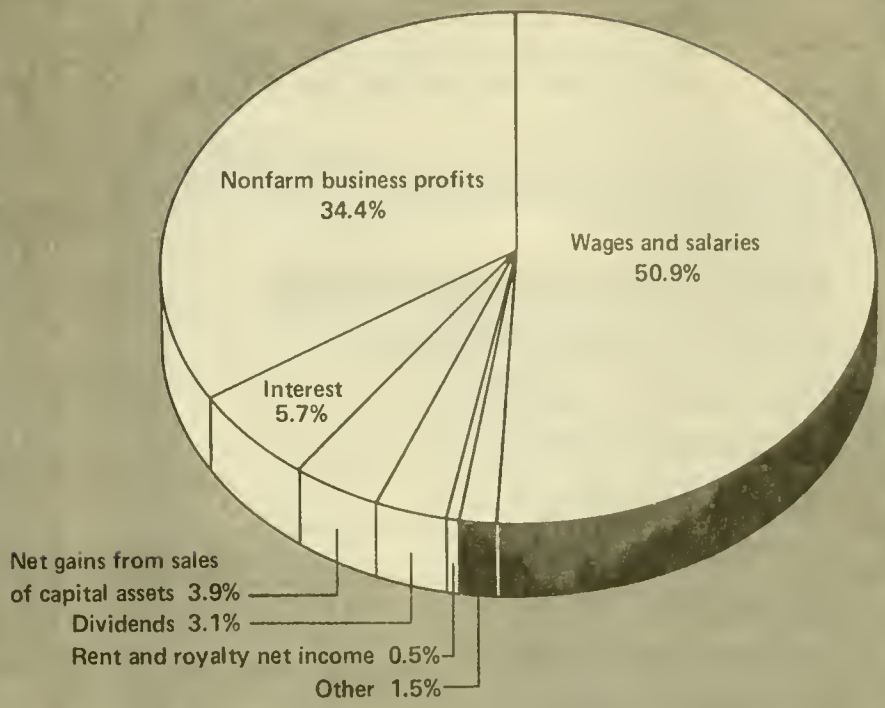
Table 1.4 provides data classified by detailed industry groups for the more populous States. Estimates for all States are presented in table 1.5. In order to achieve greater statistical reliability for the small- and medium-size States, industries were combined so that there are fewer industry groups in table 1.5 than in table 1.4.

BUSINESS AND NONBUSINESS INCOME

Table 1.6 shows data from proprietors' Form 1040 individual income tax returns and their related business and farm Schedules C or F or Form 4835, cross-classified by size of the adjusted

Chart 1C

Nonfarm sole proprietors' sources of income



Source:
Table 1.8

gross income from the Form 1040 and the industrial activity shown on the Schedules C and F or Form 4835.

Table 1.8 shows sources of income (including wages and salaries, dividends, interest, and net capital gain or loss) as reported on the Form 1040 and related schedules classified by the industrial activity shown on the Schedules C and F or Form 4835.

Some proprietors owned two or more businesses in different industries, and this complicates the presentation of the data in tables 1.6 and 1.8. Adjusted gross income and the other data from Form 1040 for these proprietors were included in each industry in which they had a business, thus duplicating the return data. However, the return data are unduplicated for:

(a) "All industries," total,

(b) The industrial divisions when the businesses were in the same division,

(c) "Farms," and

(d) Subgroupings when the businesses were in the same subgroup (for example, in the case where there was a joint return of a physician-wife and a dentist-husband, the adjusted gross income and the other return data shown in the subgroup "medical and health services" were not duplicated).

An "all industries" total containing no duplication of return data is given, but the components of adjusted gross income have a different meaning from the same figures in a particular industry. For an industry or an industrial division, "Other income" (as shown in table 1.6) means all income included in adjusted gross income except income from businesses in that industry. For example, if a proprietor owned both a field crop farm and a grocery store, the return, adjusted gross income, and tax would be included in the table three times. Under field crop farms and total farms, "Other income" would include the income (or deficit) from the grocery store, and under grocery stores, "Other income" would include the income (or deficit) from the field crop farm. In the "all industries" total, however, the return data are included only once; "Net income (less deficit)" includes the income (or deficit) from both businesses, and "Other income" includes only nonbusiness income such as from investments or salaries.

There are many joint returns in tables 1.6 and 1.8 which also creates difficulties in analyzing the data. If, for example, a joint return were filed by a husband who was the proprietor of a business and by a wife who worked on a salaried basis, the return would be included in the data with the husband's business income and the couple's combined adjusted gross income. On the other hand, if the same couple had filed separate returns, only the husband's adjusted gross income would have been included.

FARM PROPRIETORSHIPS

Schedule F, Farm Income and Expenses, and Form 4835, Farm Rental Income and Expenses, provided detailed types of farm income (summarized as "business receipts" in this report). Again, for 1976 (as for 1975), two of these detailed sources are shown in the Business Income Tax Returns report.

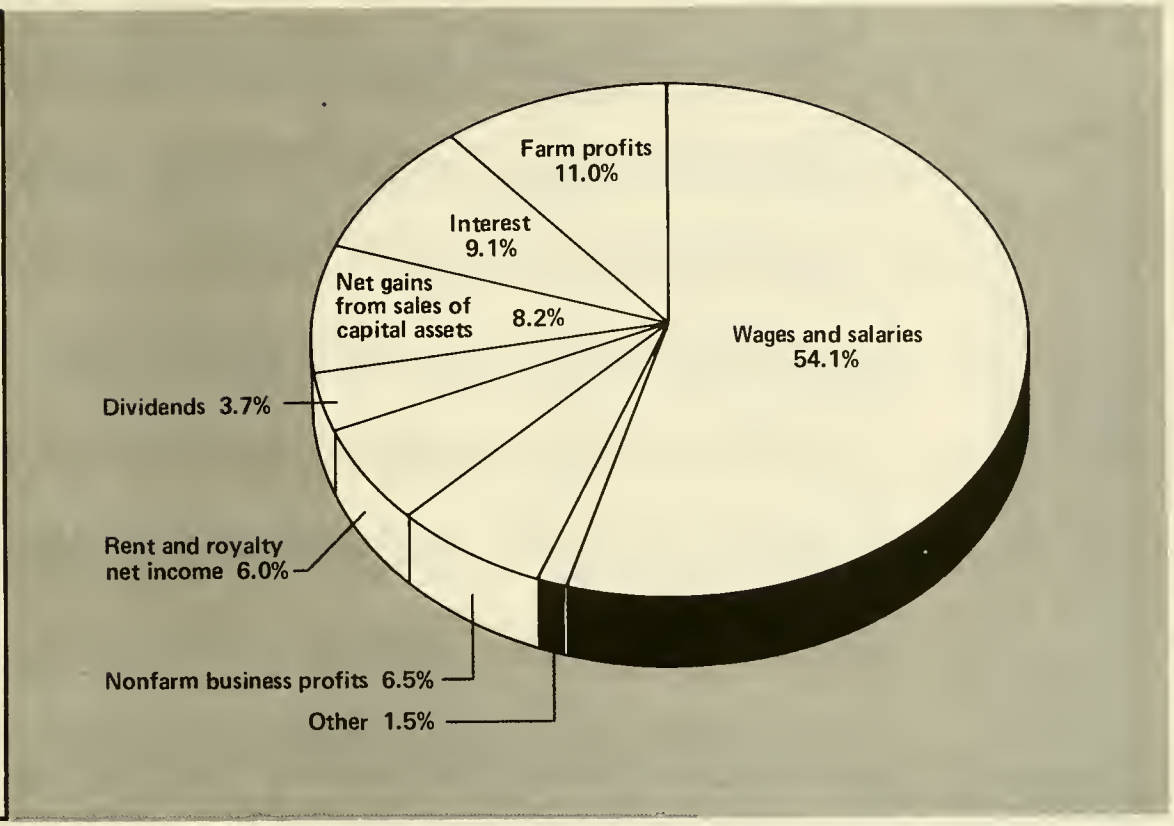
Table 1.7 shows two sources of farm income and two expense items from Schedule F, Farm Income and Expenses, or Form 4835, Farm Rental Income and Expenses:

(a) agricultural program payments; (b) commodity credit loans; (c) conservation expenses, and (d) land clearing expenses.

Agricultural program payments were comprised of all Government payments, whether received in cash, materials, or services. Government payments included those for approved conservation practices, improvements such as for pollution control, approved forestry practices (such as the planting of trees), and disaster

Chart 1D

Farmers' sources of income



Source: Table 1.8

payments. Commodity credit loans represented loans from the Commodity Credit Corporation on commodities which were pledged as collateral. Taxpayers could elect to include the loan as income either in the year the proceeds of the loan were actually received or in the year the commodity was finally sold. In contrast, in statistics prepared by the U.S. Department of Agriculture, the loans were included for the year the amounts were actually received. Agricultural program payments and commodity credit loans are included in the statistics for "business receipts."

Conservation expenses included expenditures for the leveling and terracing of earth; construction of drainage and irrigation ditches, earthen dams, and ponds; eradication of brush; and planting of windbreaks. The deduction for conservation expenses was limited to 25 percent of gross income from farming. Besides conservation expenses, amounts spent for clearing land to make it suitable for farming were also deductible. This deduction was limited to the lesser of 25 percent of taxable income from farming, or $5,000. In the income statement statistics (table 1.2), conservation expenses and land clearing expenses are included in "other business deductions."

Table 1A.--Selected Items for Sole Proprietorships, 1975 and 1976

[All figures are estimates based on samples--money amounts are in billions of dollars]

Item	1975	1976	Change, 1975 to 1976

*This estimate should be used with caution because of the small number of sample returns on which it was based

[1]This is the standard deviation of the estimate expressed as a percentage of the estimate. These percentages, when added to and subtracted from the estimates in columns 1 through 7 and 16 through 22 to which they refer, give the range within which approximately two out of three such estimates from similar samples would be expected to fall

Table 1.1——Receipts, Selected Deductions, and Net Income, by Industry—Continued

[All figures are estimates based on samples——money amounts are in thousands of dollars]

Industry	Businesses with and without net income							Coefficient of variation (Percent)[1]							
	Number of businesses	Business receipts	Depreciation	Taxes paid deduction	Interest paid	Payroll	Net income (less deficit)	Number of businesses	Business receipts	Depreciation	Taxes paid deduction	Interest paid	Payroll	Net income	Deficit

*This estimate should be used with caution because of the small number of sample returns on which it was based.

[1]This is the standard deviation of the estimate expressed as a percentage of the estimate. These percentages, when added to and subtracted from the estimates in columns 1 through 7 and 16 through 22 to which they refer, give the range within which approximately two out of th[illegible]ch estimates from similar samples would be expected to fall.

Table 1.1——Receipts, Selected Deductions, and Net Income, by Industry—Continued

[All figures are estimates based on samples——money amounts are in thousands of dollars]

Industry	Businesses with and without net income							Coefficient of variation (Percent)[1]							
	Number of businesses	Business receipts	Depreciation	Taxes paid deduction	Interest paid	Payroll	Net income (less deficit)	Number of businesses	Business receipts	Depreciation	Taxes paid deduction	Interest paid	Payroll	Net income	Deficit
	(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)	(11)	(12)	(13)	(14)	(15)

*This estimate should be used with caution because of the small number of sample returns on which it was based.

[1]This is the standard deviation of the estimate expressed as a percentage of the estimate. These percentages, when added to and subtracted from the estimates in columns 1 through 7 and 16 through 22 to which they refer, give the range within which approximately two out of three such estimates from similar samples would be expected to fall.

Table 1.1——Receipts, Selected Deductions, and Net Income, by Industry——Continued

*This estimate should be used with caution because of the small number of sample returns on which it was based.

[1]This is the standard deviation of the estimate expressed as a percentage of the estimate. These percentages, when added to and subtracted from the estimates in columns 1 through 7 and 16 through 22 to which they refer, give the range within which approximately two out of three such estimates from similar samples would be expected to fall.

Table 1.1——Receipts, Selected Deductions, and Net Income, by Industry——Continued

[All figures are estimates based on samples——money amounts are in thousands of dollars]

Industry	Businesses with net income							Coefficient of variation (Percent)[1]						
	Number of businesses	Business receipts	Depreciation	Taxes paid deduction	Interest paid	Payroll	Net income	Number of businesses	Business receipts	Depreciation	Taxes paid deduction	Interest paid	Payroll	Net income

*This estimate should be used with caution because of the small number of sample returns on which it was based.

[1]This is the standard deviation of the estimate expressed as a percentage of the estimate. These percentages when added to and subtracted from the estimates in columns 1 through 7 and 16 through 22 to which they refer, give the range within which approximately two out of three such estimates from similar samples would be expected to fall.

Table 1.2——Income Statement for Selected Industries

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. Instead the data for all rows marked ** in this column have been combined. The resulting combined figures is shown in the uppermost cell marked ** .

[1]This is the standard deviation of the estimate expressed as a percent of the estimate. The standard deviation when added to and subtracted from the estimate in columns 1 through 10 to which it refers gives the range within which approximately two out of three such estimates from similar samples would be expected to fall.

Table 1.3——Receipts, Selected Deductions, and Net Income, by Selected Industries and Size of Business Receipts—Continued

[All figures are estimates based on samples——money amounts are in thousands of dollars]

Selected industry, size of business receipts	Number of businesses	Business receipts	Cost of sales and operations	Depreciation	Payroll	Net income (less deficit)	Net income		Deficit		Coefficient of variation (Percent)[1]			
							Number of businesses	Amount	Number of businesses	Amount	Number of businesses	Business receipts	Net income	Deficit
	(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)	(11)	(12)	(13)	(14)

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. Instead the data for all rows marked ** in this column have been combined. The resulting combined figures is shown in the uppermost cell marked **.

[1]This is the standard deviation of the estimate expressed as a percent of the estimate. The standard deviation when added to and subtracted from the estimate in columns 1 through 10 to which it refers gives the range within which approximately two out of three such estimates from similar samples would be expected to fall.

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. Instead the data for all rows marked ** in this column have been combined. The resulting combined figures is shown in the uppermost cell marked **.

[1]This is the standard deviation of the estimate expressed as a percent of the estimate. The standard deviation when added to and subtracted from the estimate in columns 1 through 10 to which it refers gives the range within which approximately two out of three such estimates from similar samples would be expected to fall.

Table 1.3——Receipts, Selected Deductions, and Net Income, by Selected Industries and Size of Business Receipts—Continued

[All figures are estimates based on samples——money amounts are in thousands of dollars]

Selected industry, size of business receipts	Number of businesses	Business receipts	Cost of sales and operations	Depreciation	Payroll	Net income (less deficit)	Net income		Deficit		Coefficient of variation (Percent)[1]			
							Number of businesses	Amount	Number of businesses	Amount	Number of businesses	Business receipts	Net income	Deficit
	(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)	(11)	(12)	(13)	(14)

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. Instead the data for all rows marked ** in this column have been combined. The resulting combined figures is shown in the uppermost cell marked **.

[1]This is the standard deviation of the estimate expressed as a percent of the estimate. The standard deviation when added to and subtracted from the estimate in columns 1 through 10 to which it refers gives the range within which approximately two out of three such estimates from similar samples would be expected to fall.

Table 1.3——Receipts, Selected Deductions, and Net Income, by Selected Industries and Size of Business Receipts—Continued

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. Instead the data for all rows marked ** in this column have been combined. The resulting combined figures is shown in the uppermost cell marked **.

[1]This is the standard deviation of the estimate expressed as a percent of the estimate. The standard deviation when added to and subtracted from the estimate in columns 1 through 10 to which it refers gives the range within which approximately two out of three such estimates from similar samples would be expected to fall.

Table 1.3——Receipts, Selected Deductions, and Net Income, by Selected Industries and Size of Business Receipts—Continued

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. Instead the data for all rows marked ** in this column have been combined. The resulting combined figures is shown in the uppermost cell marked **.

[1]This is the standard deviation of the estimate expressed as a percent of the estimate. The standard deviation when added to and subtracted from the estimate in columns 1 through 10 to which it refers gives the range within which approximately two out of three such estimates from similar samples would be expected to fall.

*This estimate should be used with caution because of the small number of sample returns on which it was based

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. Instead the data for all rows marked ** in this column have been combined. The resulting combined figures is shown in the uppermost cell marked **.

[1]This is the standard deviation of the estimate expressed as a percent of the estimate. The standard deviation when added to and subtracted from the estimate in columns 1 through 10 to which it refers gives the range within which approximately two out of three such estimates from similar samples would be expected to fall.

Table 1.3——Receipts, Selected Deductions, and Net Income, by Selected Industries and Size of Business Receipts—Continued

[All figures are estimates based on samples——money amounts are in thousands of dollars]

Selected industry, size of business receipts	Number of businesses	Business receipts	Cost of sales and operations	Depreciation	Payroll	Net income (less deficit)	Net income		Deficit		Coefficient of variation (Percent)[1]			
							Number of businesses	Amount	Number of businesses	Amount	Number of businesses	Business receipts	Net income	Deficit
	(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)	(11)	(12)	(13)	(14)

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. Instead the data for all rows marked ** in this column have been combined. The resulting combined figures is shown in the uppermost cell marked ** .

[1]This is the standard deviation of the estimate expressed as a percent of the estimate. The standard deviation when added to and subtracted from the estimate in columns 1 through 10 to which it refers gives the range within which approximately two out of three such estimates from similar samples would be expected to fall.

Table 1.3——Receipts, Selected Deductions, and Net Income, by Selected Industries and Size of Business Receipts—Continued

[All figures are estimates based on samples——money amounts are in thousands of dollars]

Selected industry, size of business receipts	Number of businesses	Business receipts	Cost of sales and operations	Depreciation	Payroll	Net income (less deficit)	Net income		Deficit		Coefficient of variation (Percent)[1]			
							Number of businesses	Amount	Number of businesses	Amount	Number of businesses	Business receipts	Net income	Deficit

*This estimate should be used with caution because of the small number of sample returns on which it was based

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. Instead the data for all rows marked ** in this column have been combined. The resulting combined figures is shown in the uppermost cell marked **.

[1]This is the standard deviation of the estimate expressed as a percent of the estimate. The standard deviation when added to and subtracted from the estimate in columns 1 through 10 to which it refers gives the range within which approximately two out of three such estimates from similar samples would be expected to fall.

Table 1.3——Receipts, Selected Deductions, and Net Income, by Selected Industries and Size of Business Receipts—Continued

[All figures are estimates based on samples——money amounts are in thousands of dollars]

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. Instead the data for all rows marked ** in this column have been combined. The resulting combined figures is shown in the uppermost cell marked **.

[1]This is the standard deviation of the estimate expressed as a percent of the estimate. The standard deviation when added to and subtracted from the estimate in columns 1 through 10 to which it refers gives the range within which approximately two out of three such estimates from similar samples would be expected to fall.

Table 1.3——Receipts, Selected Deductions, and Net Income, by Selected Industries and Size of Business Receipts—Continued

*This estimate should be used with caution because of the small number of sample returns on which it was based

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based Instead the data for all rows marked ** in this column have been combined The resulting combined figures is shown in the uppermost cell marked **.

[1]This is the standard deviation of the estimate expressed as a percent of the estimate. The standard deviation when added to and subtracted from the estimate in columns 1 through 10 to which it refers gives the range within which approximately two out of three such estimates from similar samples would be expected to fall.

Table 1.3——Receipts, Selected Deductions, and Net Income, by Selected Industries and Size of Business Receipts—Continued

[All figures are estimates based on samples——money amounts are in thousands of dollars]

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown seperately because of the smell number of semple returns on which it was based. Insteed the date for all rows marked ** in this column have been combined. The resulting combined figures is shown in the uppermost cell marked ** .

[1]This is the standard deviation of the estimate expressed as a percent of the estimate. The standard deviation when added to end subtracted from the estimate in columns 1 through 10 to which it refers gives the range within which approximately two out of three such estimates from similar samples would be expected to fall.

Table 1.3——Receipts, Selected Deductions, and Net Income, by Selected Industries and Size of Business Receipts—Continued

[All figures are estimates based on samples——money amounts are in thousands of dollars]

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. Instead the data for all rows marked ** in this column have been combined. The resulting combined figures is shown in the uppermost cell marked ** .

[1]This is the standard deviation of the estimate expressed as a percent of the estimate. The standard deviation when added to and subtracted from the estimate in columns 1 through 10 to which it refers gives the range within which approximately two out of three such estimates from similar samples would be expected to fall.

Table 1.3——Receipts, Selected Deductions, and Net Income, by Selected Industries and Size of Business Receipts—Continued

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. Instead the data for all rows marked ** in this column have been combined. The resulting combined figures is shown in the uppermost cell marked **.

[1]This is the standard deviation of the estimate expressed as a percent of the estimate. The standard deviation when added to and subtracted from the estimate in columns 1 through 10 to which it refers gives the range within which approximately two out of three such estimates from similar samples would be expected to fall.

Table 1.3——Receipts, Selected Deductions, and Net Income, by Selected Industries and Size of Business Receipts—Continued

[All figures are estimates based on samples——money amounts are in thousands of dollars]

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. Instead the data for all rows marked ** in this column have been combined. The resulting combined figures is shown in the uppermost cell marked **.

[1]This is the standard deviation of the estimate expressed as a percent of the estimate. The standard deviation when added to and subtracted from the estimate in columns 1 through 10 to which it refers gives the range within which approximately two out of three such estimates from similar samples would be expected to fall.

Table 1.3——Receipts, Selected Deductions, and Net Income, by Selected Industries and Size of Business Receipts—Continued

[All figures are estimates based on samples——money amounts are in thousands of dollars]

Selected industry, size of business receipts	Number of businesses	Business receipts	Cost of sales and operations	Depreciation	Payroll	Net income (less deficit)	Net income		Deficit		Coefficient of variation (Percent)[1]

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals

[1]United States total includes returns with Puerto Rico and foreign addresses

[2]Less than $500.

Table 1.4——Receipts, Payroll, Depreciation, and Net Income for Selected States and Selected Industries—Continued

[All figures are estimates based on samples——money amounts are in thousands of dollars]

State and industry	Number of businesses	Business receipts	Payroll: Number of businesses	Payroll: Amount	Depreciation: Number of businesses	Depreciation: Amount	Net income (less deficit)	Number of businesses	Business receipts	Payroll: Number of businesses	Payroll: Amount	Depreciation: Number of businesses	Depreciation: Amount	Net income (less deficit)

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals.

[1]United States total includes returns with Puerto Rico and foreign addresses.

*Less than $500.

Table 1.4——Receipts, Payroll, Depreciation, and Net Income for Selected States and Selected Industries—Continued

[All figures are estimates based on samples——money amounts are in thousands of dollars]

State and industry	Number of businesses	Business receipts	Payroll		Depreciation		Net income (less deficit)	Number of businesses	Business receipts	Payroll		Depreciation		Net income (less deficit)
			Number of businesses	Amount	Number of businesses	Amount				Number of businesses	Amount	Number of businesses	Amount

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals.

[1]United States total includes returns with Puerto Rico and foreign addresses.

[2]Less than $500.

Table 1.4——Receipts, Payroll, Depreciation, and Net Income for Selected States and Selected Industries—Continued

[All figures are estimates based on samples——money amounts are in thousands of dollars]

State and industry	Number of businesses	Business receipts	Payroll: Number of businesses	Payroll: Amount	Depreciation: Number of businesses	Depreciation: Amount	Net income (less deficit)	Number of businesses	Business receipts	Payroll: Number of businesses	Payroll: Amount	Depreciation: Number of businesses	Depreciation: Amount	Net income (less deficit)

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals.

[1]This is the standard deviation of the estimate expressed as a percentage of the estimate. These percentages, when added to and subtracted from the estimates in columns 1 through 9 to which they refer, give the range within which approximately two out of three such estimates from similar samples would be expected to fall.

[2]United States, total includes returns with Puerto Rico and foreign addresses.

[3]Less than $500.

Table 1.5——Receipts and Net Income by State and Selected Industries—Continued

*This estimate should be used with caution because of the small number of sample returns on which it was based

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals.

[1]This is the standard deviation of the estimate expressed as a percentage of the estimate. These percentages, when added to and subtracted from the estimates in columns 1 through 9 to which they refer, give the range within which approximately two out of three such estimates from similar samples would be expected to fall.

[2]United States, total includes returns with Puerto Rico and foreign addresses.

[3]Less than $500.

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals.

[1]This is the standard deviation of the estimate expressed as a percentage of the estimate. These percentages, when added to and subtracted from the estimates in columns 1 through 9 to which they refer, give the range within which approximately two out of three such estimates from similar samples would be expected to fall.

[2]United States, total includes returns with Puerto Rico and foreign addresses.

[3]Less than $500.

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals.

[1]This is the standard deviation of the estimate expressed as a percentage of the estimate. These percentages, when added to and subtracted from the estimates in columns 1 through 9 to which they refer, give the range within which approximately two out of three such estimates from similar samples would be expected to fall.

[2]United States, total includes returns with Puerto Rico and foreign addresses.

[3]Less than $500

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals.

[1]This is the standard deviation of the estimate expressed as a percentage of the estimate. These percentages, when added to and subtracted from the estimates in columns 1 through 9 to which they refer, give the range within which approximately two out of three such estimates from similar samples would be expected to fall.

[2]United States, total includes returns with Puerto Rico and foreign addresses.

[3]Less than $500.

Table 1.5——Receipts and Net Income by State and Selected Industries—Continued

[All figures are estimates based on samples——money amounts are in thousands of dollars]

Industry	Number of businesses	Business receipts	Depreciation		Payroll		Net income less deficit	Net income		Coefficient of variation (Percent)[1]					
			Number of businesses	Amount	Number of businesses	Amount		Number of businesses	Amount	Number of businesses	Business receipts	Depreciation	Payroll	Net income	Deficit

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals.

[1]This is the standard deviation of the estimate expressed as a percentage of the estimate. These percentages, when added to and subtracted from the estimates in columns 1 through 9 to which they refer, give the range within which approximately two out of three such estimates from similar samples would be expected to fall.

[2]United States, total includes returns with Puerto Rico and foreign addresses.

[3]Less than $500.

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals.

[1]This is the standard deviation of the estimate expressed as a percentage of the estimate. These percentages, when added to and subtracted from the estimates in columns 1 through 9 to which they refer, give the range within which approximately two out of three such estimates from similar samples would be expected to fall.

[2]United States, total includes returns with Puerto Rico and foreign addresses.

[3]Less than $500.

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals.

[1]This is the standard deviation of the estimate expressed as a percentage of the estimate. These percentages, when added to and subtracted from the estimates in columns 1 through 9 to which they refer, give the range within which approximately two out of three such estimates from similar samples would be expected to fall.

[2]United States, total includes returns with Puerto Rico and foreign addresses.

[3]Less than $500.

Table 1.5——Receipts and Net Income by State and Selected Industries—Continued

[All figures are estimates based on samples——money amounts are in thousands of dollars]

Industry	Number of businesses	Business receipts	Depreciation		Payroll		Net income less deficit	Net income		Coefficient of variation (Percent)[1]					
			Number of businesses	Amount	Number of businesses	Amount		Number of businesses	Amount	Number of businesses	Business receipts	Depreciation	Payroll	Net income	Deficit

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals.

[1]This is the standard deviation of the estimate expressed as a percentage of the estimate. These percentages, when added to and subtracted from the estimates in columns 1 through 9 to which they refer, give the range within which approximately two out of three such estimates from similar samples would be expected to fall.

[2]United States, total includes returns with Puerto Rico and foreign addresses.

[3]Less than $500

Table 1.5——Receipts and Net Income by State and Selected Industries—Continued

[All figures are estimates based on samples——money amounts are in thousands of dollars]

*This estimate should be used with caution because of the small number of sample returns on which it was based

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals.

[1]This is the standard deviation of the estimate expressed as a percentage of the estimate. These percentages, when added to and subtracted from the estimates in columns 1 through 9 to which they refer, give the range within which approximately two out of three such estimates from similar samples would be expected to fall.

[2]United States, total includes returns with Puerto Rico and foreign addresses

[3]Less than $500.

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals.

[1]This is the standard deviation of the estimate expressed as a percentage of the estimate. These percentages, when added to and subtracted from the estimates in columns 1 through 9 to which they refer, give the range within which approximately two out of three such estimates from similar samples would be expected to fall.

[2]United States, total includes returns with Puerto Rico and foreign addresses.

[3]Less than $500.

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals.

[1]This is the standard deviation of the estimate expressed as a percentage of the estimate. These percentages, when added to and subtracted from the estimates in columns 1 through 9 to which they refer, give the range within which approximately two out of three such estimates from similar samples would be expected to fall.

[2]United States, total includes returns with Puerto Rico and foreign addresses.

[3]Less than $500.

Table 1.5——Receipts and Net Income by State and Selected Industries—Continued

[All figures are estimates based on samples——money amounts are in thousands of dollars]

Industry	Number of businesses	Business receipts	Depreciation		Payroll		Net income less deficit	Net income		Coefficient of variation (Percent)[1]					
			Number of businesses	Amount	Number of businesses	Amount		Number of businesses	Amount	Number of businesses	Business receipts	Depreciation	Payroll	Net income	Deficit

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals.

[1]This is the standard deviation of the estimate expressed as a percentage of the estimate. These percentages, when added to and subtracted from the estimates in columns 1 through 9 to which they refer, give the range within which approximately two out of three such estimates from similar samples would be expected to fall.

[2]United States, total includes returns with Puerto Rico and foreign addresses.

[3]Less than $500

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown seperately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals.

[1]This is the standard deviation of the estimate expressed as a percentage of the estimate. These percentages, when added to and subtracted from the estimates in columns 1 through 9 to which they refer, give the range within which approximately two out of three such estimates from similar samples would be expected to fall.

[2]United States, total includes returns with Puerto Rico and foreign addresses.

[3]Less than $500.

Table 1.5——Receipts and Net Income by State and Selected Industries—Continued

[All figures are estimates based on samples——money amounts are in thousands of dollars]

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals.

[1]This is the standard deviation of the estimate expressed as a percentage of the estimate. These percentages, when added to and subtracted from the estimates in columns 1 through 8 to which they refer, give the range within which approximately two out of three such estimates from similar samples would be expected to fall.

[2]United States, total includes returns with Puerto Rico and foreign addresses.

[3]Less than $500.

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals.

[1]This is the standard deviation of the estimate expressed as a percentage of the estimate. These percentages, when added to and subtracted from the estimates in columns 1 through 8 to which they refer, give the range within which approximately two out of three such estimates from similar samples would be expected to fall.

[2]United States, total includes returns with Puerto Rico and foreign addresses.

[3]Less than $500.

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals.

[1]This is the standard deviation of the estimate expressed as a percentage of the estimate. These percentages, when added to and subtracted from the estimates in columns 1 through 9 to which they refer, give the range within which approximately two out of three such estimates from similar samples would be expected to fall.

[2]United States, total includes returns with Puerto Rico and foreign addresses.

[3]Less than $500.

Table 1.5——Receipts and Net Income by State and Selected Industries—Continued

[All figures are estimates based on samples——money amounts are in thousands of dollars]

Industry	Number of businesses	Business receipts	Depreciation		Payroll		Net income less deficit	Net income		Coefficient of variation (Percent)[1]

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals.

[1]This is the standard deviation of the estimate expressed as a percentage of the estimate. These percentages, when added to and subtracted from the estimates in columns 1 through 9 to which they refer, give the range within which approximately two out of three such estimates from similar samples would be expected to fall.

[2]United States, total includes returns with Puerto Rico and foreign addresses.

[3]Less than $500.

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals.

[1]This is the standard deviation of the estimate expressed as a percentage of the estimate. These percentages, when added to and subtracted from the estimates in columns 1 through 9 to which they refer, give the range within which approximately two out of three such estimates from similar samples would be expected to fall.

[2]United States, total includes returns with Puerto Rico and foreign addresses.

[3]Less than $500.

*This estimate should be used with caution because of the small number of sample returns on which it was based

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals

[1]This is the standard deviation of the estimate expressed as a percentage of the estimate. These percentages, when added to and subtracted from the estimates in columns 1 through 9 to which they refer, give the range within which approximately two out of three such estimates from similar samples would be expected to fall.

[2]United States, total includes returns with Puerto Rico and foreign addresses

[3]Less than $500.

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals.

[1]Excludes a small number of businesses with neither net income nor deficit.

Table 1.8—Individuals With Sole Proprietorship Businesses: Sources of Income by Industry—Continued

[All figures are estimates based on samples—money amounts are in thousands of dollars]

Industry	Number of returns	Adjusted gross income less deficit	Net income (less deficit)		Net income (less deficit) from sole proprietorships in other industries		Partnership and small business corporation net income (less loss)		Wages and salaries		Dividends in adjusted gross income		Interest received	
			Number of businesses[1]	Amount	Number of businesses	Amount	Number of returns	Amount	Number of returns	Amount	Number of returns	Amount	Number of returns	Amount

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals.

[1]Excludes a small number of businesses with neither net income nor deficit.

Table 1.8—Individuals With Sole Proprietorship Businesses: Sources of Income by Industry—Continued

[All figures are estimates based on samples—money amounts are in thousands of dollars]

Industry	Net gain (less loss) from sales of capital assets		Pensions and annuities in adjusted gross income		Rents received (net income less loss)		Royalties (net income less loss)		Other income less losses and statutory adjustments		Adjustments to income, total		Positive sources of income	
	Number of returns	Amount	Number of returns	Amount	Number of returns	Amount	Number of returns	Amount	Number of returns	Amount	Number of returns	Amount	Number of returns	Amount

.11 Class life (asset depreciation range) depreciation and total depreciation, by industrial division and size of business receipts, 407
.12 Number of partnerships claiming to be limited partnerships, by industrial division and size of business receipts, 408

The statistics in the partnership section of this report are estimates derived from a stratified sample, selected before audit, of partnership returns of income filed for the 1976 Income Year. The 1976 income year was defined to include accounting periods which ended July 1976 through July 1977. About 1.1 million partnership returns were filed for this period, over 93 percent of which were for the calendar year accounting period ended December 1976.

The statistics in this section cover partnerships, joint ventures, syndicates, groups, pools, and most other associations of two or more persons organized for profit that were not specifically classified by the Internal Revenue Code as corporations. Partnerships were not taxable as such; the partners, who could be individuals, estates, trusts, partnerships, or corporations, reported their share of the partnership's taxable income (or loss) on their individual (corporation or other type) income tax return.

Not all partnership business activity is represented in these statistics. If there were special agreements among the partners to allocate certain of the income or expenses in ways not proportionate to their share interests, these income or expenses items were not reported as a part of the partnership's income statement. They were reportable only on the partners' returns (although not always identifiable as such) and thus are not included here. This category included capital gains and losses; gains and losses on sales of certain property used in the trade or business and on "involuntary conversions" of property (Code section 1231); charitable contributions; most dividends received from "domestic" corporations; and depletion on oil and gas properties.

In addition, the parties involved in joint production, extraction, investment, or use agreements that did not involve selling services or property produced or extracted could elect, under Code section 761, not to be considered as partnerships. The partners in such an agreement reported their share of the business income and deductions on their own returns, and no return was filed for the group. The actual extent of these business activities is not known; however, for petroleum exploration and production it is believed to be significant.

The partnership profit data in this report are not comparable to the income from partnerships in Statistics of Income--Individual Income Tax Returns principally because (1) the income year of the partnership does not always coincide with the income year of the partners, (2) not all partners are individuals, and (3) the partnership income reported on Form 1040 can include salaries and interest paid to partners in addition to net profit.

Chart 2A shows net income (less deficit) for the 10-year period, 1967 through 1976. Selected characteristics of the returns filed for 1976 compared to 1975 are summarized in table 2A.

INDUSTRIAL ACTIVITY BY STATE

Tables 2.4 and 2.5 present selected data classified by industry and by the State shown in the mailing address of the partnership's return. In general, these data serve as estimates of partnership business activity within a State. The mailing address usually included the State where the partnership conducted its business. However, a few partnerships used other addresses, such as business offices or private residences of the partners, the office of the practitioners who prepared their returns, or post office boxes. The geographic data are subject to limitations to the extent these addresses were not located in the same State as the business. They may be especially subject to limitations if, in addition to the discrepancy caused by the State of the address, they were engaged in business operations in more than one State. This was characteristic

[1]Includes amended and duplicate returns.

of some of the larger partnerships, or those engaged in particular industrial activities (such as security dealers), or those (including joint ventures) whose mailing address represented merely the location of the office where their books of accounts were maintained.

The sample of partnership returns was designed to yield national rather than State statistics, so reliable State estimates were not possible for many industry classes. For the less populated States shown in table 2.5, it was possible to show only a few broad industry groupings. To increase the reliability of the State estimates, separate weighting factors were computed for each Internal Revenue district (Internal Revenue district boundaries were usually coterminous were those of States, although some of the larger States, contained more than one district). However, use of these separate rates resulted in U.S. totals in the State tables that differ slightly from the "all industries" totals in other tables.

CLASS LIFE ASSET DEPRECIATION RANGE

Table 2.11 presents the first statistics on use of the Class Life Asset Depreciation Range (CLADR) system by partnerships. The CLADR system under the Revenue Act of 1971 was an outgrowth of the ADR (Asset Depreciation Range) system introduced by the Treasury Department in June 1971, as well as the earlier Depreciation Guideline system first contained in Revenue Procedure 62-21 issued by the Treasury in 1962. Use of the CLADR system increased depreciation deductions over what they otherwise would have been.

All of these systems, including the 1962 Guidelines, had in common the grouping of assets, regardless of type, according to the broadly-defined industrial activity in which the assets were used, with each grouping given a depreciation "class life." Assets which cut across industry lines, such as buildings, also had lives associated with them. In the overall, the CLADR system provided for generally shorter than average lives and each was elective as an alternative to depreciating assets, item by item, based chiefly on the partnership's own experience. For additional information, see the Explanation of Terms in section 3.

LIMITED PARTNERSHIPS

Table 2.12 provides information on the number of partnerships which checked the "limited partnership" box on page 1 of the Tax Year 1976 partnership return, Form 1065. This was the first year that this question appeared on the form.

The Uniform Limited Partnership Act defines a limited partnership as: one "... formed by two or more persons ... having as members one or more general partners and one or more limited partners. The limited partners as such shall not be bound by the obligations of the partnership."

A limited partner is one who may not be held responsible for partnership debts, and whose potential personal liability is confined to the amount of money or other property that the partner contributed or is required to contribute to the partnership.

The number of limited partnerships may be understated because of first-time usage on the form of a limited partnership question.

Table 2.1——Partners, Receipts, Selected Deductions, and Net Income, by Industry

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals.

[1]This is the standard deviation of the estimate expressed as a percentage of the estimate. These percentages, when added to and subtracted from the estimates in columns 1 through 9 to which they refer, give the range within which approximately two out of three such estimates from similar samples would be expected to fall.

[2]Total receipts for industries in Finance, insurance, and real estate, and Business receipts for all other industries.

*Less than 0.05 percent.

(All figures are estimates based on samples—money amounts are in thousands of dollars)

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals.

[1]This is the standard deviation of the estimate expressed as a percentage of the estimate. These percentages, when added to and subtracted from the estimates in columns 1 through 9 to which they refer, give the range within which approximately two out of three such estimates from similar samples would be expected to fall.

[2]Total receipts for industries in Finance, insurance, and real estate, and Business receipts for all other industries.

[3]Less than 0.05 percent.

Table 2.1——Partners, Receipts, Selected Deductions, and Net Income, by Industry—Continued

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals.

[1]This is the standard deviation of the estimate expressed as a percentage of the estimate. These percentages, when added to and subtracted from the estimates in columns 1 through 9 to which they refer, give the range within which approximately two out of three such estimates from similar samples would be expected to fall.

[2]Total receipts for industries in Finance, insurance, and real estate, and Business receipts for all other industries.

[3]Less than 0.05 percent.

Table 2.1——Partners, Receipts, Selected Deductions, and Net Income, by Industry—Continued

[All figures are estimates based on samples——money amounts are in thousands of dollars]

Industry	Partnerships with and without net income: Number of— Partnerships	Partners	Business receipts[3]	Depreciation	Taxes paid deduction	Interest paid	Payroll	Payments to partners	Net income (less deficit)	Coefficient of variation (Percent)[1]: Number of— Partnerships	Partners	Business receipts[3]	Depreciation	Taxes paid deduction	Interest paid	Payroll	Payments to partners	Deficit

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals.

[1]This is the standard deviation of the estimate expressed as a percentage of the estimate. These percentages, when added to and subtracted from the estimates in columns 1 through 9 to which they refer, give the range within which approximately two out of three such estimates from similar samples would be expected to fall.

[2]Total receipts for industries in Finance, insurance, and real estate, and Business receipts for all other industries.

[3]Less than 0.05 percent.

[All figures are estimates based on samples——money amounts are in thousands of dollars]

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals.

[1]This is the standard deviation of the estimate expressed as a percentage of the estimate. These percentages, when added to and subtracted from the estimates in columns 1 through 9 to which they refer, give the range within which approximately two out of three such estimates from similar samples would be expected to fall.

[2]Total receipts for industries in Finance, insurance, and real estate, and Business receipts for all other industries.

[3]Less than 0.05 percent.

Table 2.1——Partners, Receipts, Selected Deductions, and Net Income, by Industry——Continued

[All figures are estimates based on samples——money amounts are in thousands of dollars]

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this call is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals.

[1]This is the standard deviation of the estimate expressed as a percentage of the estimate. These percentages, when added to and subtracted from the estimates in columns 1 through 8 to which they refer, give the range within which approximately two out of three such estimates from similar samples would be expected to fall.

[2]Total receipts for industries in Finance, insurance, and real estate, and Business receipts for all other industries.

[3]Less than 0.05 percent.

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals.

[1]This is the standard deviation of the estimate expressed as a percentage of the estimate. These percentages, when added to and subtracted from the estimates in columns 1 through 9 to which they refer, give the range within which approximately two out of three such estimates from similar samples would be expected to fall.

[2]Total receipts for industries in Finance, insurance, and real estate, and Business receipts for all other industries.

[3]Less than 0.05 percent.

Table 2.2——Income Statement for Selected Industries

[All figures are estimates based on samples——money amounts are in thousands of dollars]

Item	All industries	Agriculture, forestry, and fishing								
		Total	Farms							
			Total	Field crop	Vegetable and melon	Fruit and tree nut	Beef cattle feedlots	Beef cattle, except feedlots	Hogs, sheep, and goats	Dairy farms

*This estimate should be used with caution because of the small number of sample returns on which it was based

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals

NOTE: "Contractors not allocable," "Wholesale and retail trade not allocable," and "Nature of business not allocable" are not shown separately because of the small number of sample returns on which they were based. However, the data are included in the appropriate totals.

Table 2.3——Receipts, Selected Deductions, and Net Income, by Selected Industries and Size of Business Receipts

[All figures are estimates based on samples——money amounts are in thousands of dollars]

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. Instead, the data for all rows marked ** in this column have been combined. The resulting combined figure is shown in the uppermost cell marked ** .

[1]Total receipts for industries in Finance, insurance, and real estate, and Business receipts for all other industries.

[2]This is the standard deviation of the estimate expressed as a percentage of the estimate. These percentages, when added to and subtracted from the estimates in columns 1, 3, 10, and 12 to which they refer, give the range within which approximately two out of three such estimates from similar samples would be expected to fall.

[3]Less than 0.05 percent.

[4]Less than $500.

Table 2.3——Receipts, Selected Deductions, and Net Income, by Selected Industries and Size of Business Receipts—Continued

[All figures are estimates based on samples——money amounts are in thousands of dollars]

Selected industry, size of business receipts[1]	Number of— * Partnerships	Number of— Partners	Business receipts[1]	Cost of sales and operations	Depreciation	Payroll	Payments to partners	Net income (less deficit)	Net income: Number of partnerships	Net income: Amount	Deficit: Number of partnerships	Deficit: Amount	Coefficient of variation (Percent)[2]: Number of partnerships	Coefficient of variation (Percent)[2]: Business receipts[1]	Coefficient of variation (Percent)[2]: Net income	Coefficient of variation (Percent)[2]: Deficit

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. Instead, the data for all rows marked ** in this column have been combined. The resulting combined figure is shown in the uppermost cell marked **.

[1]Total receipts for industries in Finance, insurance, and real estate, and Business receipts for all other industries.

[2]This is the standard deviation of the estimate expressed as a percentage of the estimate. These percentages, when added to and subtracted from the estimates in columns 1, 3, 10, and 12 to which they refer, give the range within which approximately two out of three such estimates from similar samples would be expected to fall.

[3]Less than 0.05 percent.

[4]Less than $500.

*This estimate should be used with caution because of the small number of sample returns on which it was based

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. Instead, the data for all rows marked ** in this column have been combined. The resulting combined figure is shown in the uppermost cell marked **

[1]Total receipts for industries in Finance, insurance, and real estate, and Business receipts for all other industries

[2]This is the standard deviation of the estimate expressed as a percentage of the estimate. These percentages, when added to and subtracted from the estimates in columns 1, 3, 10, and 12 to which they refer, give the range within which approximately two out of three such estimates from similar samples would be expected to fall

[3]Less than 0.05 percent.

[4]Less than $500

Table 2.3——Receipts, Selected Deductions, and Net Income, by Selected Industries and Size of Business Receipts—Continued

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. Instead, the data for all rows marked ** in this column have been combined. The resulting combined figure is shown in the uppermost call marked ** .

[1]Total receipts for industries in Finance, insurance, and real estate, and Business receipts for all other industries.

[3]This is the standard deviation of the estimate expressed as a percentage of the estimate. These percentages, when added to and subtracted from the estimates in columns 1, 3, 10, and 12 to which they refer, give the range within which approximately two out of three such estimates from similar samples would be expected to fall.

[5]Less than 0.05 percent.

[6]Less than $500.

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. Instead, the data for all rows marked ** in this column have been combined. The resulting combined figure is shown in the uppermost cell marked ** .

[1]Total receipts for industries in Finance, insurance, and real estate, and Business receipts for all other industries.

[2]This is the standard deviation of the estimate expressed as a percentage of the estimate. These percentages, when added to and subtracted from the estimates in columns 1, 3, 10, and 12 to which they refer, give the range within which approximately two out of three such estimates from similar samples would be expected to fall.

[3]Less than 0.05 percent.

[4]Less than $500.

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. Instead, the data for all rows marked ** in this column have been combined. The resulting combined figure is shown in the uppermost cell marked ** .

[1]Total receipts for industries in Finance, insurance, and real estate, and Business receipts for all other industries.

[2]This is the standard deviation of the estimate expressed as a percentage of the estimate. These percentages, when added to and subtracted from the estimates in columns 1, 3, 10, and 12 to which they refer, give the range within which approximately two out of three such estimates from similar samples would be expected to fall.

[3]Less than 0.05 percent.

[4]Less than $500.

Table 2.3——Receipts, Selected Deductions, and Net Income, by Selected Industries and Size of Business Receipts—Continued

[All figures are estimates based on samples——money amounts are in thousands of dollars]

*This estimate should be used with caution because of the small number of sample returns on which it was based

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. Instead, the data for all rows marked ** in this column have been combined. The resulting combined figure is shown in the uppermost cell marked **.

[1]Total receipts for industries in Finance, insurance, and real estate, and Business receipts for all other industries.

[2]This is the standard deviation of the estimate expressed as a percentage of the estimate. These percentages, when added to and subtracted from the estimates in columns 1, 3, 10, and 12 to which they refer, give the range within which approximately two out of three such estimates from similar samples would be expected to fall.

[3]Less than 0.05 percent.

[4]Less than $500.

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. Instead, the data for all rows marked ** in this column have been combined. The resulting combined figure is shown in the uppermost call marked ** .

[1]Total receipts for industries in Finance, insurance, and real estate, and Business receipts for all other industries.

[2]This is the standard deviation of the estimate expressed as a percentage of the estimate. These percentages, when added to and subtracted from the estimates in columns 1, 3, 10, and 12 to which they refer, give the range within which approximately two out of three such estimates from similar samples would be expected to fall.

[3]Less than 0.05 percent.

[4]Less than $500.

Table 2.3——Receipts, Selected Deductions, and Net income, by Selected Industries and Size of Business Receipts—Continued

[All figures are estimates based on samples——money amounts are in thousands of dollars]

Selected industry, size of business receipts[1]	Number of— Partnerships[2]	Number of— Partners	Business receipts[3]	Cost of sales and operations	Depreciation	Payroll	Payments to partners	Net income (less deficit)	Net income: Number of partnerships	Net income: Amount	Deficit: Number of partnerships	Deficit: Amount	Coefficient of variation (Percent)[4]: Number of partnerships	Coefficient of variation (Percent)[4]: Business receipts[1]	Coefficient of variation (Percent)[4]: Net income	Coefficient of variation (Percent)[4]: Deficit

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. Instead, the data for all rows marked ** in this column have been combined. The resulting combined figure is shown in the uppermost cell marked ** .

[1]Total receipts for industries in Finance, insurance, and real estate, and Business receipts for all other industries.

[3]This is the standard deviation of the estimate expressed as a percentage of the estimate. These percentages, when added to and subtracted from the estimates in columns 1, 3, 10, and 12 to which they refer, give the range within which approximately two out of three such estimates from similar samples would be expected to fall.

[4]Less than 0.05 percent.

[5]Less than $500.

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. Instead, the data for all rows marked ** in this column have been combined. The resulting combined figure is shown in the uppermost cell marked **.

[1]Total receipts for industries in Finance, insurance, and real estate, and Business receipts for all other industries.

[2]This is the standard deviation of the estimate expressed as a percentage of the estimate. These percentages, when added to and subtracted from the estimates in columns 1, 3, 10, and 12 to which they refer, give the range within which approximately two out of three such estimates from similar samples would be expected to fall.

[3]Less than 0.05 percent.

[4]Less than $500.

Table 2.3——Receipts, Selected Deductions, and Net Income, by Selected Industries and Size of Business Receipts—Continued

[All figures are estimates based on samples——money amounts are in thousands of dollars]

Selected industry, size of business receipts[1]	Number of— Partnerships	Number of— Partners	Business receipts[1]	Cost of sales and operations	Depreciation	Payroll	Payments to partners	Net income (less deficit)	Net income: Number of partnerships	Net income: Amount	Deficit: Number of partnerships	Deficit: Amount	Coefficient of variation (Percent)[2]: Number of partnerships	Coefficient of variation (Percent)[2]: Business receipts[1]	Coefficient of variation (Percent)[2]: Net income	Coefficient of variation (Percent)[2]: Deficit

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. Instead, the data for all rows marked ** in this column have been combined. The resulting combined figure is shown in the uppermost call marked **.

[1]Total receipts for industries in Finance, insurance, and real estate, and Business receipts for all other industries.

[2]This is the standard deviation of the estimate expressed as a percentage of the estimate. These percentages, when added to and subtracted from the estimates in columns 1, 3, 10, and 12 to which they refer, give the range within which approximately two out of three such estimates from similar samples would be expected to fall.

[3]Less than 0.05 percent.

[4]Less than $500.

Table 2.3——Receipts, Selected Deductions, and Net income, by Selected Industries and Size of Business Receipts—Continued

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. Instead, the data for all rows marked ** in this column have been combined. The resulting combined figure is shown in the uppermost cell marked **.

[1]Total receipts for industries in Finance, insurance, and real estate, and Business receipts for all other industries.

[2]This is the standard deviation of the estimate expressed as a percentage of the estimate. These percentages, when added to and subtracted from the estimates in columns 1, 3, 10, and 12 to which they refer, give the range within which approximately two out of three such estimates from similar samples would be expected to fall.

[3]Less than 0.05 percent.

[4]Less than $500

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. Instead, the data for all rows marked ** in this column have been combined. The resulting combined figure is shown in the uppermost cell marked **.

[1]Total receipts for industries in Finance, insurance, and real estate, and Business receipts for all other industries.

[2]This is the standard deviation of the estimate expressed as a percentage of the estimate. These percentages, when added to and subtracted from the estimates in columns 1, 3, 10, and 12 to which they refer, give the range within which approximately two out of three such estimates from similar samples would be expected to fall.

[3]Less than 0.05 percent.

[4]Less than $500.

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. Instead, the data for all rows marked ** in this column have been combined. The resulting combined figure is shown in the uppermost cell marked **

[1]Total receipts for industries in Finance, insurance, and real estate, and Business receipts for all other industries.

[2]This is the standard deviation of the estimate expressed as a percentage of the estimate. These percentages, when added to and subtracted from the estimates in columns 1, 3, 10, and 12 to which they refer, give the range within which approximately two out of three such estimates from similar samples would be expected to fall.

[3]Less than 0.05 percent.

[4]Less than $500.

*This estimate should be used with caution because of the small number of sample returns on which it was based

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. Instead, the data for all rows marked ** in this column have been combined. The resulting combined figure is shown in the uppermost cell marked **.

[1]Total receipts for industries in Finance, insurance, and real estate, and Business receipts for all other industries

[2]This is the standard deviation of the estimate expressed as a percentage of the estimate. These percentages, when added to and subtracted from the estimates in columns 1, 3, 10, and 12 to which they refer, give the range within which approximately two out of three such estimates from similar samples would be expected to fall.

[3]Less than 0.05 percent.

[4]Less than $500.

NOTE: "Contractors not allocable," "Wholesale and retail trade not allocable," and "Nature of business not allocable" are not shown separately because of the small number of sample returns on which they were based. However, the data are included in the appropriate totals.

Table 2.4——Receipts, Payroll, Depreciation, and Net Income for Selected States and Selected Industries

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals.

[1]Total receipts for industries in Finance, insurance, and real estate, and Business receipts for all other industries.

[5] Includes data from Puerto Rico and foreign returns.

[6]United States totals in this table and in table 2.5 differ slightly from the totals in other tables, due to the use of different weighting factors. Tables 2.4 and 2.5 were computed with a separate set of weights for each IRS district, while all other tables were computed with a single national set of weights.

Table 2.4——Receipts, Payroll, Depreciation, and Net Income for Selected States and Selected Industries—Continued

[All figures are estimates based on samples——money amounts are in thousands of dollars]

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals.

[1]Total receipts for industries in Finance, insurance, and real estate, and Business receipts for all other industries.

[2] Includes data from Puerto Rico and foreign returns.

[3]United States totals in this table and in table 2.5 differ slightly from the totals in other tables, due to the use of different weighting factors. Tables 2.4 and 2.5 were computed with a separate set of weights for each IRS district, while all other tables were computed with a single national set of weights.

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals.

[1]Total receipts for industries in Finance, insurance, and real estate, and Business receipts for all other industries.

[2] Includes data from Puerto Rico and foreign returns.

[3]United States totals in this table and in table 2.5 differ slightly from the totals in other tables, due to the use of different weighting factors. Tables 2.4 and 2.5 were computed with a separate set of weights for each IRS district, while all other tables were computed with a single national set of weights.

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals.

[1]Total receipts for industries in Finance, insurance, and real estate, and Business receipts for all other industries.

[2] Includes data from Puerto Rico and foreign returns.

[3]United States totals in this table and in table 2.5 differ slightly from the totals in other tables, due to the use of different weighting factors. Tables 2.4 and 2.5 were computed with a separate set of weights for each IRS district, while all other tables were computed with a single national set of weights.

Table 2.4——Receipts, Payroll, Depreciation, and Net Income for Selected States and Selected Industries—Continued

*This estimate should be used with caution because of the small number of sample returns on which it was based

**The estimate for this cell is not shown separately because of the small number of sample returns on which it wes based. However, the data are included in the appropriate totals

[1]Total receipts for industries in Finance, insurance, and reel estate, and Business receipts for all other industries.

[2] Includes data from Puerto Rico and foreign returns.

[3]United States totals in this table and in table 2.5 differ slightly from the totals in other tables, due to the usa of different weighting factors. Tables 2 4 and 2 5 were computed with a separate set of weights for each IRS district, while all other tables were computed with a single national set of weights

Table 2.4——Receipts, Payroll, Depreciation, and Net Income for Selected States and Selected Industries—Continued

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals.

[1]Total receipts for industries in Finance, insurance, and real estate, and Business receipts for all other industries.

[2] Includes data from Puerto Rico and foreign returns.

[3]United States totals in this table and in table 2.5 differ slightly from the totals in other tables, due to the use of different weighting factors. Tables 2.4 and 2.5 were computed with a separate set of weights for each IRS district, while all other tables were computed with a single national set of weights.

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals.

[1]Total receipts for industries in Finance, insurance, and real estate, and Business receipts for all other industries.

[2] Includes data from Puerto Rico and foreign returns.

[3]United States totals in this table and in table 2.5 differ slightly from the totals in other tables, due to the use of different weighting factors. Tables 2.4 and 2.5 were computed with a separate set of weights for each IRS district, while all other tables were computed with a single national set of weights.

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals.

[1]Total receipts for industries in Finance, insurance, and real estate, and Business receipts for all other industries.

[2]Includes data from Puerto Rico and foreign returns.

[3]United States totals in this table and in table 2.5 differ slightly from the totals in other tables, due to the use of different weighting factors. Tables 2.4 and 2.5 were computed with a seperate set of weights for each IRS district, while all other tables were computed with a single national set of weights

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals.

[1]Total receipts for industries in Finance, insurance, and real estate, and Business receipts for all other industries.

[2] Includes data from Puerto Rico and foreign returns.

[3]United States totals in this table and in table 2.5 differ slightly from the totals in other tables, due to the use of different weighting factors. Tables 2.4 and 2.5 were computed with a separate set of weights for each IRS district, while all other tables were computed with a single national set of weights.

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals.

[1]Total receipts for industries in Finance, Insurance, and real estate, and Business receipts for all other industries.

[2] Includes data from Puerto Rico and foreign returns.

[3]United States totals in this table and in table 2.5 differ slightly from the totals in other tables, due to the use of different weighting factors. Tables 2.4 and 2.5 were computed with a separate set of weights for each IRS district, while all other tables were computed with a single national set of weights.

Table 2.4——Receipts, Payroll, Depreciation, and Net Income for Selected States and Selected Industries—Continued

[All figures are estimates based on samples——money amounts are in thousands of dollars]

State and industry	Number of—— Partnerships	Number of—— Partners	Business receipt[1]	Payroll: Number of partnerships	Payroll: Amount	Depreciation: Number of partnerships	Depreciation: Amount	Net income (less deficit)

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals.

[3]This is the standard deviation of the estimate expressed as a percentage of the estimate. These percentages, when added to and subtracted from the estimates in columns 1 through 9 to which they refer, give the range within which approximately two out of three such estimates from similar samples would be expected to fall.

[2]Total receipts for industries in Finance, insurance, and real estate, and Business receipts for all other industries.

[2]Includes data from Puerto Rico and foreign returns.

[4]United States totals in this table and in table 2.4 differ slightly from the totals in other tables, due to the use of different weighting factors. Tables 2.4 and 2.5 were computed with a separate set of weights for each IRS district, while all other tables were computed with a single national set of weights.

[5]Less than 0.05 percent.

[6]Less than $500.

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals.

[1]This is the standard deviation of the estimate expressed as a percentage of the estimate. These percentages, when added to and subtracted from the estimates in columns 1 through 9 to which they refer, give the range within which approximately two out of three such estimates from similar samples would be expected to fall.

[2]Total receipts for industries in Finance, insurance, and real estate, and Business receipts for all other industries.

[3]Includes data from Puerto Rico and foreign returns.

[4]United States totals in this table and in table 2.4 differ slightly from the totals in other tables, due to the use of different weighting factors. Tables 2.4 and 2.5 were computed with a separate set of weights for each IRS district, while all other tables were computed with a single national set of weights.

[5]Less than 0.05 percent.

[6]Less than $500.

*This estimate should be used with caution because of the small number of sample returns on which it was based

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals.

[1]This is the standard deviation of the estimate expressed as a percentage of the estimate. These percentages, when added to and subtracted from the estimates in columns 1 through 9 to which they refer, give the range within which approximately two out of three such estimates from similar samples would be expected to fall

[2]Total receipts for industries in Finance, insurance, and real estate, and Business receipts for all other industries.

[3]Includes data from Puerto Rico and foreign returns

[4]United States totals in this table and in table 2.4 differ slightly from the totals in other tables, due to the use of different weighting factors. Tables 2.4 and 2.5 were computed with a separate set of weights for each IRS district, while all other tables were computed with a single national set of weights.

[5]Less than 0 05 percent.

[6]Less than $500.

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals.

[1]This is the standard deviation of the estimate expressed as a percentage of the estimate. These percentages, when added to and subtracted from the estimates in columns 1 through 9 to which they refer, give the range within which approximately two out of three such estimates from similar samples would be expected to fall.

[2]Total receipts for industries in Finance, insurance, and real estate, and Business receipts for all other industries.

[3]Includes data from Puerto Rico and foreign returns.

[4]United States totals in this table and in table 2.4 differ slightly from the totals in other tables, due to the use of different weighting factors. Tables 2.4 and 2.5 were computed with e separate set of weights for each IRS district, while all other tables were computed with a single national set of weights.

[5]Less than 0.05 percent.

[6]Less than $500.

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals.

[1]This is the standard deviation of the estimate expressed as a percentage of the estimate. These percentages, when added to and subtracted from the estimates in columns 1 through 9 to which they refer, give the range within which approximately two out of three such estimates from similar samples would be expected to fall.

[2]Total receipts for industries in Finance, insurance, and real estate, and Business receipts for all other industries.

[3]Includes data from Puerto Rico and foreign returns.

[4]United States totals in this table and in table 2.4 differ slightly from the totals in other tables, due to the use of different weighting factors. Tables 2.4 and 2.5 were computed with a separate set of weights for each IRS district, while all other tables were computed with a single national set of weights.

[5]Less than 0.05 percent.

[6]Less than $500.

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals.

[1]This is the standard deviation of the estimate expressed as a percentage of the estimate. These percentages, when added to and subtracted from the estimates in columns 1 through 9 to which they refer, give the range within which approximately two out of three such estimates from similar samples would be expected to fall.

[2]Total receipts for industries in Finance, insurance, and real estate, and Business receipts for all other industries.

[3]Includes data from Puerto Rico and foreign returns.

[4]United States totals in this table and in table 2.4 differ slightly from the totals in other tables, due to the use of different weighting factors. Tables 2.4 and 2.5 were computed with a separate set of weights for each IRS district, while all other tables were computed with a single national set of weights.

[5]Less than 0.05 percent.

[6]Less than $500.

Table 2.5——Partners, Receipts, and Net Income, by State and Selected Industries—Continued

**The estimate for this call is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals.

[1]This is the standard deviation of the estimate expressed as a percentage of the estimate. These percentages, when added to and subtracted from the estimates in columns 1 through 9 to which they refer, give the range within which approximately two out of three such estimates from similar samples would be expected to fall.

[2]Total receipts for industries in Finance, insurance, and real estate, and Business receipts for all other industries.

[3]Includes data from Puerto Rico and foreign returns.

[4]United States totals in this table and in table 2.4 differ slightly from the totals in other tables, due to the use of different weighting factors. Tables 2.4 and 2.5 were computed with a separate set of weights for each IRS district, while all other tables were computed with a single national set of weights.

[5]Less than 0.05 percent.

[6]Less than $500.

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals.

[1]This is the standard deviation of the estimate expressed as a percentage of the estimate. These percentages, when added to and subtracted from the estimates in columns 1 through 9 to which they refer, give the range within which approximately two out of three such estimates from similar samples would be expected to fall.

[2]Total receipts for industries in Finance, insurance, and real estate, and Business receipts for all other industries.

[3]Includes data from Puerto Rico and foreign returns.

[4]United States totals in this table and in table 2.4 differ slightly from the totals in other tables, due to the use of different weighting factors. Tables 2.4 and 2.5 were computed with a separate set of weights for each IRS district, while all other tables were computed with a single national set of weights.

[5]Less than 0.05 percent.

[6]Less than $500.

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown separately because of the small number of sample returns on which it wes based. However, the data are included in the appropriate totals.

[1]This is the standard deviation of the estimate expressed as a percentage of the estimate. These percentages, when added to and subtracted from the estimates in columns 1 through 9 to which they refer, give the range within which approximately two out of three such estimates from similar samples would be expected to fall.

[2]Total receipts for industries in Finance, insurance, and reel estate, and Business receipts for all other industries.

[3]Includes data from Puerto Rico end foreign returns.

[4]United States totals in this table end in table 2.4 differ slightly from the totals in other tables, due to the use of different weighting factors. Tables 2.4 and 2.5 were computed with a separate set of weights for each IRS district, while all other tables were computed with e single national set of weights.

[5]Less than 0.05 percent.

[6]Less then $500.

*This estimate should be used with caution because of the small number of sample returns on which it was based

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based However, the data are included in the appropriate totals.

[1]This is the standard deviation of the estimate expressed as a percentage of the estimate. These percentages, when added to and subtracted from the estimates in columns 1 through 9 to which they refer, give the range within which approximately two out of three such estimates from similar samples would be expected to fall

[2]Total receipts for industries in Finance, insurance, and real estate, and Business receipts for all other industries.

[3]Includes data from Puerto Rico and foreign returns.

[4]United States totals in this table and in table 2.4 differ slightly from the totals in other tables, due to the use of different weighting factors Tables 2.4 and 2.5 were computed with a separate set of weights for each IRS district, while all other tables were computed with a single national set of weights.

[5]Less than 0.05 percent.

[6]Less than $500.

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals.

[1]This is the standard deviation of the estimate expressed as a percentage of the estimate. These percentages, when added to and subtracted from the estimates in columns 1 through 9 to which they refer, give the range within which approximately two out of three such estimates from similar samples would be expected to fall.

[2]Total receipts for industries in Finance, insurance, and real estate, and Business receipts for all other industries.

[3]Includes data from Puerto Rico and foreign returns.

[4]United States totals in this table and in table 2.4 differ slightly from the totals in other tables, due to the use of different weighting factors. Tables 2.4 and 2.5 were computed with a separate set of weights for each IRS district, while all other tables were computed with a single national set of weights.

[5]Less than 0.05 percent.

[6]Less than $500.

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals.

[1]This is the standard deviation of the estimate expressed as a percentage of the estimate. These percentages, when added to and subtracted from the estimates in columns 1 through 9 to which they refer, give the range within which approximately two out of three such estimates from similar samples would be expected to fall.

[2]Total receipts for industries in Finance, insurance, and real estate, and Business receipts for all other industries.

[3]Includes data from Puerto Rico and foreign returns.

[4]United States totals in this table and in table 2.4 differ slightly from the totals in other tables, due to the use of different weighting factors. Tables 2.4 and 2.5 were computed with a separate set of weights for each IRS district, while all other tables were computed with a single national set of weights.

[5]Less than 0.05 percent.

[6]Less than $500.

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown seperately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals.

[1]This is the standard deviation of the estimate expressed as a percentage of the estimate. These percentages, when added to and subtracted from the estimates in columns 1 through 9 to which they refer, give the range within which approximately two out of three such estimates from similar samples would be expected to fall.

[2]Total receipts for industries in Finance, insurance, and real estate, and Business receipts for all other industries.

[3]Includes data from Puerto Rico and foreign returns.

[4]United States totals in this table and in table 2.4 differ slightly from the totals in other tables, due to the use of different weighting factors. Tables 2.4 and 2.5 were computed with a separate set of weights for each IRS district, while all other tables were computed with a single national set of weights.

[5]Less than 0.05 percent.

[6]Less than $500.

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals.

[1]This is the standard deviation of the estimate expressed as a percentage of the estimate. These percentages, when added to and subtracted from the estimates in columns 1 through 9 to which they refer, give the range within which approximately two out of three such estimates from similar samples would be expected to fall.

[2]Total receipts for industries in Finance, insurance, and real estate, and Business receipts for all other industries.

[3]Includes data from Puerto Rico and foreign returns.

[4]United States totals in this table and in table 2.4 differ slightly from the totals in other tables, due to the use of different weighting factors. Tables 2.4 and 2.5 were computed with a separate set of weights for each IRS district, while all other tables were computed with a single national set of weights.

[5]Less than 0.05 percent.

[6]Less than $500.

*This estimate should be used with caution because of the small number of sample returns on which it was based

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals

[1]This is the standard deviation of the estimate expressed as a percentage of the estimate. These percentages, when added to and subtracted from the estimates in columns 1 through 9 to which they refer, give the range within which approximately two out of three such estimates from similar samples would be expected to fall

[2]Total receipts for industries in Finance, insurance, and real estate, and Business receipts for all other industries

[3]Includes data from Puerto Rico and foreign returns.

[4]United States totals in this table and in table 2.4 differ slightly from the totals in other tables, due to the use of different weighting factors. Tables 2.4 and 2.5 were computed with a separate set of weights for each IRS district, while all other tables were computed with a single national set of weights

[5]Less than 0.05 percent

[6]Less than $500

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals.

[1]This is the standard deviation of the estimate expressed as a percentage of the estimate. These percentages, when added to and subtracted from the estimates in columns 1 through 9 to which they refer, give the range within which approximately two out of three such estimates from similar samples would be expected to fall.

[2]Total receipts for industries in Finance, insurance, and real estate, and Business receipts for all other industries.

[3]Includes data from Puerto Rico and foreign returns.

[4]United States totals in this table and in table 2.4 differ slightly from the totals in other tables, due to the use of different weighting factors. Tables 2.4 and 2.5 were computed with a separate set of weights for each IRS district, while all other tables were computed with a single national set of weights.

[5]Less than 0.05 percent.

[6]Less than $500

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals.

[1]This is the standard deviation of the estimate expressed as a percentage of the estimate. These percentages, when added to and subtracted from the estimates in columns 1 through 9 to which they refer, give the range within which approximately two out of three such estimates from similar samples would be expected to fall.

[2]Total receipts for industries in Finance, insurance, and real estate, and Business receipts for all other industries.

[3]Includes data from Puerto Rico and foreign returns.

[4]United States totals in this table and in table 2.4 differ slightly from the totals in other tables, due to the use of different weighting factors. Tables 2.4 and 2.5 were computed with a seperate set of weights for each IRS district, while all other tables were computed with a single national set of weights.

[5]Less than 0.05 percent.

[6]Less than $500.

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals.

[1]This is the standard deviation of the estimate expressed as a percentage of the estimate. These percentages, when added to and subtracted from the estimates in columns 1 through 9 to which they refer, give the range within which approximately two out of three such estimates from similar samples would be expected to fall.

[2]Total receipts for industries in Finance, insurance, and real estate, and Business receipts for all other industries.

[3]Includes data from Puerto Rico and foreign returns.

[4]United States totals in this table and in table 2.4 differ slightly from the totals in other tables, due to the use of different weighting factors. Tables 2.4 and 2.5 were computed with a separate set of weights for each IRS district, while all other tables were computed with a single national set of weights.

[5]Less than 0.05 percent.

[6]Less than $500.

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals.

[1]This is the standard deviation of the estimate expressed as a percentage of the estimate. These percentages, when added to and subtracted from the estimates in columns 1 through 9 to which they refer, give the range within which approximately two out of three such estimates from similar samples would be expected to fall.

[2]Total receipts for industries in Finance, insurance, and real estate, and Business receipts for all other industries.

[3]Includes data from Puerto Rico and foreign returns.

[4]United States totals in this table and in table 2.4 differ slightly from the totals in other tables, due to the use of different weighting factors. Tables 2.4 and 2.5 were computed with a separate set of weights for each IRS district, while all other tables were computed with a single national set of weights.

[5]Less than 0.05 percent.

[6]Less than $500.

NOTE: "Wholesale and retail trade not allocable" and "Nature of business not allocable" are not shown separately because of the small number of sample returns on which they were based. However, the data are included in the appropriate totals. Data from Puerto Rico and foreign returns are not shown separately because of the small number of sample returns on which they were based. However, the data are included in the appropriate totals.

Table 2.6——Receipts, Selected Deductions, and Net Income, by Number of Partners and Selected Industries

[All figures are estimates based on samples——money amounts are in thousands of dollars]

Industry	All active partnerships											
	Number of—		Business receipts[1]	Salaries and wages		Payments to partners		Interest paid		Depreciation		Net income (less deficit)
	Partnerships	Partners		Number of partnerships	Amount	Number of partnerships	Amount	Number of partnerships	Amount	Number of partnerships	Amount

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown separately because of the small number of sample returns on which it was based. However, the data are included in the appropriate totals.

[1]Total receipts for industries in Finance, insurance, and real estate, and Business receipts for all other industries.

*This estimate should be used with caution because of the small number of sample returns on which it was based.

[1]Total receipts for industries in Finance, insurance, and real estate, and Business receipts for all other industries.

[3]Represents part year returns with accounting periods ending January—June 1977.

NOTE: "Wholesale and retail trade not allocable" and "Nature of business not allocable" are not shown separately because of the small number of sample returns on which they were based. However, the data are included in the appropriate totals.

Table 2.8——Income Statement by Industrial Division and Size of Total Assets

[All figures are estimates based on samples——money amounts are in thousands of dollars]

Industrial division, item	All active partnerships	Partnerships with balance sheets, by size of total assets: Total	Zero assets[1]	$1 under $10,000	$10,000 under $25,000	$25,000 under $50,000	$50,000 under $100,000	$100,000 under $250,000	$250,000 under $500,000	$500,000 under $1,000,000	$1,000,000 under $5,000,000	$5,000,000 or more
	(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)	(11)	(12)

*This estimate should be used with caution because of the small number of sample returns on which it was based.

[1] This column consists of partnerships filing final returns. Assets were distributed to the partners when the partnership closed out its business, leaving no assets for the partnership at the close of the accounting period.

Table 2.8——Income Statement by Industrial Division and Size of Total Assets——Continued

[All figures are estimates based on samples——money amounts are in thousands of dollars]

*This estimate should be used with caution because of the small number of sample returns on which it was based.

[1]This column consists of partnerships filing final returns. Assets were distributed to the partners when the partnership closed out its business, leaving no assets for the partnership at the close of the accounting period

Table 2.8——Income Statement by Industrial Division and Size of Total Assets——Continued

[All figures are estimates based on samples——money amounts are in thousands of dollars]

Industrial division, item	All active partnerships	Partnerships with balance sheets, by size of total assets: Total	Zero assets[1]	$1 under $10,000	$10,000 under $25,000	$25,000 under $50,000	$50,000 under $100,000	$100,000 under $250,000	$250,000 under $500,000	$500,000 under $1,000,000	$1,000,000 under $5,000,000	$5,000,000 or more

*This estimate should be used with caution because of the small number of sample returns on which it was based.

[1]This column consists of partnerships filing final returns. Assets were distributed to the partners when the partnership closed out its business, leaving no assets for the partnership at the close of the accounting period.

Table 2.8——Income Statement by Industrial Division and Size of Total Assets——Continued

[All figures are estimates based on samples——money amounts are in thousands of dollars]

Industrial division, item	All active partnerships	Partnerships with balance sheets, by size of total assets: Total	Zero assets[1]	$1 under $10,000	$10,000 under $25,000	$25,000 under $50,000	$50,000 under $100,000	$100,000 under $250,000	$250,000 under $500,000	$500,000 under $1,000,000	$1,000,000 under $5,000,000	$5,000,000 or more
	(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)	(11)	(12)

*This estimate should be used with caution because of the small number of sample returns on which it was based.

[1]This column consists of partnerships filing final returns. Assets were distributed to the partners when the partnership closed out its business, leaving no assets for the partnership at the close of the accounting period.

NOTE: All balance sheet data are measured as of the end of the partnership accounting period. "Wholesale and retail trade" and "Nature of business not allocable" are not shown separately because of the small number of sample returns on which they were based. However, the data are included in the appropriate totals.

CHANGES IN LAW

The following are provisions of the Tax Reform Act of 1976 which affected the comparability of the statistics in this report with those published in earlier years.

1. Amortization of motion picture production costs.--Prior to the Act, limited partnerships were organized to produce or distribute films, and the cash method of accounting was used to report income and expenses. The use of the cash method often created a mismatching of expenses and income because the expenses of producing or distributing the film were incurred before any income was realized. The Act provided for the capitalization of the costs of producing or distributing a film, sound recording, book, or similar property (including plays) and the deduction of the capitalized costs over the period during which substantially all of the income generated by the asset or activity was expected to be realized. It was effective for amounts paid after December 31, 1975, with respect to the property, the principal production of which began after December 31, 1975. In the statistics, this item is reflected in the amortization deduction.

2. Low-income rental housing amortization.--A 2-year extension (from January 1, 1976, to January 1, 1978) of the special 60-month rapid amortization rule for expenditures that were incurred to rehabilitate low-income rental housing was provided by the Act. Also, the amount of rehabilitation expenditures that could be taken into account in computing the amortization was increased from $15,000 to $20,000 per dwelling unit.

3. Organization and syndication fees.--Deductions were no longer allowed to the partnership or partners after December 31, 1975, for any amounts paid or incurred to organize a partnership or to promote the sale of, or to sell, an interest in the partnership. However, for taxable years beginning after 1976, the partnership could elect to amortize certain organization fees over a period of not less than 60 months beginning with the month the partnership began business. This special amortization provision did not apply to expenditures connected with the issuing and marketing of interests in the partnership, such as commissions, professional fees, and printing costs. In the statistics, organization and syndication fees are included in the amortization deduction.

4. Pollution control facilities.--The election under Code section 169 to amortize the cost of a certified pollution control facility over a period of 60 months was made permanent. The election covered equipment placed in service after 1975, if installed in plans that were in operation before 1976.

5. Gain from disposition of interest in oil or gas property.--If an interest in an oil or gas property was sold or disposed of after December 31, 1975, at a gain, all or part of the gain could have been treated as ordinary income (and reported in Net gain, noncapital assets by the partnership) rather than as partners' capital gain. The amount of gain treated as ordinary income was the lower of:

a. the total amount of expenditures, after December 31, 1975, which were allocable to the interest disposed of and which were deducted as intangible drilling and development costs, reduced by the amount which could have been deductible had those intangible costs been capitalized and deducted through depletion; or
b. the excess of the amount realized over the adjusted basis of the property.

6. Recapture of excess depreciation on residential real estate.--Effective for taxable years beginning after December 31, 1975, the Act provided new rules for treating the gain on the sale of residential real estate and Government-subsidized housing as ordinary income rather than as capital gain, to the extent of the excess of accelerated depreciation over straight-line depreciation taken on these assets as of a certain date prior to their sale. In the case of residential real estate, all post-1975 depreciation in excess of straight-line depreciation was recaptured in the same manner as was excess depreciation taken after 1969 on commercial realty. In the case of Government-subsidized housing, there was a full recapture of post-1975 depreciation for the first 100 months and a phase-out recapture for the second 100 months. There was no recapture if the property was sold after 200 months.

The following law changes did not, in most instances, directly affect the statistics in this report, except in the case of farming syndicates. However, they did impact on the reporting of distributive share items (income or loss or additional first-year depreciation, for example) by partners on their own tax returns. They also affected the number of partnerships created in order to take advantage of prior provisions of law with regard to activities usually referred to as "tax shelters."

7. Tax shelters.--The Act enacted into law many new rules and limitations that applied to activities that were commonly referred to as tax shelters.

"At risk" limitation.--Generally, for amounts paid or incurred in taxable years beginning after December 31, 1975, any loss from one or more of the specified activities enumerated below was allowed only to the extent of the aggregate amount the investor (including an individual, sole proprietor, or partner) had "at risk" (defined below) in the activity at the close of the taxable year.

The "at risk" limitation applied to the following activities: (1) farming; (2) exploring for, or

exploiting, oil and gas resources; (3) the holding, producing, or distributing of motion picture films or television tapes; and (4) equipment leasing.

Generally, the investor was considered "at risk" with respect to an activity to the extent of cash and the adjusted basis of other property contributed to the activity and amounts borrowed with respect to that activity. Amounts borrowed for use in the activity were considered "at risk" if the investor was personally liable for the repayment of the amounts, or if the amounts borrowed were secured by property other than property used in the activity.

If the loss was less than the "at risk" amount, the full amount of the loss was deductible. However, the taxpayer was required to reduce the "at risk" investment by the amount of the loss that had been deducted. The reduced "at risk" investment thereafter determined the extent of deductible losses sustained in future years with respect to the particular activity. If the loss was greater than the amount "at risk," the deductible loss was limited to the amount "at risk" at the end of the year, and the amount "at risk" was reduced to zero. However, the amount of the loss from the activity that was not deductible by reason of this limitation could be carried over and deducted by the activity in the first succeeding taxable year.

Farming syndicates.-- A farming syndicate could be a partnership, a Small Business Corporation electing to be taxed through shareholders under section 1372 of the Code, or any other noncorporate enterprise, engaged in the trade or business of farming if:

a. at any time interests in the partnership or enterprise were offered for sale in any offering required to be registered with any Federal or State agency; or
b. more than 35 percent of the losses during any period were allocable to limited partners or limited entrepreneurs.

Effective generally for taxable years beginning after December 31, 1975, in the case of any farming syndicate, a deduction for amounts paid for feed, seed, or fertilizer, or other similar farm supplies were only allowed for the taxable year in which such items were actually used or consumed. The cost of poultry purchased for use in a trade or business had to be capitalized and deducted as depreciation over the lesser of 12 months or the useful life in the trade or business. The costs of poultry purchased for sale had to be deducted for the taxable year in which poultry was sold or otherwise disposed of. A syndicate that was engaged in planting, cultivating, maintaining, or developing a grove, orchard, or vineyard in which fruit or nuts were grown had to capitalize and depreciate the costs of planting, cultivating, maintaining, or developing a grove, orchard, or vineyard which were incurred in taxable years prior to the first taxable year in which the grove, orchard, vineyard bore a crop or yield in commercial quantities. However, the foregoing did not apply to expenses attributable to a grove, orchard, or vineyard which was replanted after having been lost or damaged by reason of freezing temperatures, disease, drought, pests or casualty.

8. Additional first-year depreciation.--For partnership taxable years beginning after 1975, a partnership could no longer pass through up to $2,000 of additional first-year depreciation to each partner. Instead, the amount that could be passed through by the partnership to its partners was limited to a total of $2,000.

INDUSTRIAL CLASSIFICATION

In the tables in this report, businesses have been classified by the industrial activity from which they derived the largest share of their receipts. Every business return or schedule in the statistical sample was assigned to a single industry class, even though receipts may have been from several different types of activities. The industry groups used were based on the Standard Industrial Classification Manual, authorized by the Office of Federal Statistical Policy and Standards, Department of Commerce, modified where necessary to fit the information available from tax returns for identifying industries.

Returns and schedules in the sample were examined during statistical processing, and each was assigned a code classifying it by industry. In determining the code, the description of the business activity given by the taxpayer (and, for partnerships, the taxpayer-assigned code), the sources of the taxpayer's income, the nature of the expenses, and where necessary, information from various reference books, were considered. A study indicated that the taxpayer-assigned code and the Statistics of Income industry code were in agreement on only two of three partnership returns.

The fact that a reporting entity was in all cases assigned to a single industry group constitutes a limitation of the data. In the case of sole proprietorships, a code to identify type of industrial activity was assigned to each business and farm schedule attached to an individual income tax return. Since individual taxpayers normally filed a separate schedule for each separate business activity, and each such schedule was assigned to its own industry class, the limitation is not serious for sole proprietorships. It was more common, but probably still relatively rare, for partnerships to be extensively engaged in more than one type of business activity; however, it did occur, especially on the returns of larger partnerships, so there are some data in the partnership industry groups that are not really related to the industrial activity under which they are shown.

The Standard Industrial Classification Manual (SIC) for establishments, 1972 edition, served as the basis for the industry classification system in this report. The SIC industry groups were sometimes consolidated or modified because the information available from tax returns for determining industrial activity was limited and because not every industry was well represented in the statistical samples. Some industries are typically better represented by one legal form than another; sole proprietorships and partnerships, for example, are more heavily involved, relatively, than corporations in the trade and service industries. In contrast, the manufacturing industries are better represented by the corporate form. In addition, there was a higher proportion of partnerships concentrated in the Finance, insurance, and real estate industries than were sole proprietorships or corporations. Most industry groups used in this report are equivalent to either the two, three, or four-digit industry level in the SIC system. However, a few groups represent a more detailed classification than the four-digit level of the SIC (for example, the SIC group, "Hotels, motels, and tourist courts" is divided into two groups in this report, "Hotels" and "Motels, motor hotels, and tourist courts").

For equivalent industry groups, the SIC manual gives a detailed description of the content of groups. See also Appendix A at the end of this section which provides a comparison of the SIC groupings and the Statistics of Income industries used in this report.

For 1976, selected Statistics of Income codes were expanded and resulted in changes to the industry classification for sole proprietorships and partnerships from 1975 which are summaried below:

1975 Statistics of Income Industry	1976 Statistics of Income Industry
Fruit, tree nut and vegetable	Vegetable and melon farms Fruit and tree nut farms
Livestock farms	Beef cattle feedlots Beef cattle, except feedlots Hogs, sheep, and goats Dairy farms Poultry and eggs General livestock except animal specialty
Animal services, except veterinary	Livestock breeding Animal services, except livestock breeding and veterinary
Other amusement and recreation services	Professional sports clubs and promotors Racing, including track operation Other amusement and recreation services

EXPLANATION OF TERMS

This section contains brief descriptions of the terms appearing in the tables in this report.

The instructions for the tax forms in Section 5 of this report will provide additional information about many items.

Explanations of terms are designed to aid in understanding the statistical content of this report and should not be construed as interpretations of the Internal Revenue Code or related regulations, procedures, or policies. Code sections cited are those which were in effect during the period covered by this report.

Active Businesses

The statistics in the report are from the returns and schedules of "active" businesses only. An active business was defined as one reporting at least one item of income or deductions. Partnerships had to file returns even if they had no business activity during the year; however, returns having no items of income or deductions were excluded from the basic tables except the sample count table in section 4 and table 2A. Sole proprietorships only filed business or farm schedules or Form 4835 if they had business activity, so there are no inactive sole proprietorships in any table.

Adjusted Gross Income

This amount was the result of reducing gross income from all sources subject to tax by adjustments such as the following:

(1) Ordinary and necessary expenses of operating a trade or business;

(2) Employee business and moving expenses;

(3) Deductions attributable to rents and royalties;

(4) Expenses of outside salesmen attributable to earning a salary, commission, or other compensation;

(5) Depreciation and depletion deductions allowed life tenants and income beneficiaries of property held in trust;

(6) Exclusion of allowable sick pay if the sick pay was included in gross salary;

(7) Deductible losses from sales of capital assets and other property;

(8) Deductible half of the excess of net long-term capital gain over net short-term capital loss;

(9) Excludable portion of qualified dividends (up to $100 per taxpayer);

(10) Business "net operating loss carryover" deduction (because data from amended returns were not used, only amounts carried over from prior years are reflected in the statistics; carrybacks from future years are not);

(11) Contributions to a retirement fund, either a "Keogh Plan" established by self-employed persons or an individual retirement account (IRA) established by employees or self-employed persons;

(12) Exclusion of the ordinary income portion (in contrast to the amount treated as long-term capital gain) of the taxable amount of a lump-sum distribution from a qualified pension or retirement plan when such amounts were taxed separately from other sources of income); and

(13) Deductions for interest forfeited because of premature withdrawals from time savings accounts or deposits.

A deficit in adjusted gross income occured when the allowable deductions or losses exceeded gross income.

ADR Depreciation

See "Depreciation."

Amortization

Amortization was a deduction for recovery of certain capital expenditures over a certain period of time in a manner similar to straight-line depreciation. Typically, the period of time over which the expenditure was written off was much shorter than if depreciation had been used; often, depending on the specific provision of the law, the period of time was only 60 months. The following types of amortization, applicable to the statistics in this report, were specifically mentioned in the Code as allowable deductions:

- .bond premiums (section 171)
- .child care facilities (section 188)
- .coal mine safety equipment (section 187)
- .leasee's improvements to leased property (section 178)
- .low-income rental housing rehabilitation expenditures (section 167)
- .motion picture film or video tape production costs (section 280)
- .organization and syndication fees (section 709)
- .on-the-job training facilities (section 188)
- .pollution control facilities (section 169)
- .railroad rolling stock (section 184)
- .railroad tunnel bores and grading (section 185)
- .research and experimental expenditures (section 174)
- .trademark and trade name expenditures (section 177)

Of these, amortization of leasehold improvements was frequently reportable as depreciation and amortization of bond premiums (as well as of such other financial items as loan or mortgage costs) was often reported as part of "other deductions." Write-offs of patents, copyrights, and other intangibles were usually included in depreciation. None of these amounts involved rapid write-offs of the assets concerned. Therefore, in order to confine the statistics insofar as possible to rapid write-offs, identifiable amounts reported as amortization that related to leasehold improvements, bond premiums (or other financial items), and intangible assets,

were transferred to depreciation or "other deductions," as appropriate. An exception was made for partnership motion picture film and video tape production costs under Code section 280. These amounts were accepted as reported and no attempt was made to transfer them to the depreciation statistics when they were reported as amortization. See also "Depreciation."

For partnerships reporting organization and syndicate fees, these amounts are included in amortization.

The statistics include identifiable amounts transferred for the statistics from schedules in support of the cost of sales and operations.

See also "Changes in Law" in this section.

Bad Debts

Bad debts occurring during the year or a reasonable addition to a reserve for bad debts was allowable as a deduction under section 166 of the Code.

Recoveries of bad debts previously deducted by taxpayers who used the reserve method were netted against the year's bad debt deduction; recoveries by taxpayers deducting actual bad debts were included in "other receipts" of partnerships, "other business income" of nonfarm sole proprietorships, and "income from sales and operations" of farm proprietorships.

Business Receipts

Business receipts were, in general, gross receipts from sales and operations reduced by the cost of returned goods and allowances. They may have included excise and sales taxes which were included in the sales price of the product; some taxpayers reported receipts this way and deducted the taxes as expenses, while others reported their receipts after adjustment for any taxes.

In the finance division for partnerships, business receipts included such banking items as fees, commissions, trust department earnings, exchange collections, discounts, and service charges, when identified in schedules attached to the return.

For sole proprietorships, business receipts represented all income from the operation of the business, including incidental income from such items as sales of scrap or cash rebates that corporations and partnerships generally included in "other receipts." Dividends, interest, rents, royalties, and other investment-type income were generally not included in sole proprietorship receipts, although rents or interest that were actually income from business operations were sometimes included, for example, rents received by real estate operators and interest received by small-loan companies.

In table 1.2, business receipts of sole proprietorships are classified into the two components, "income from sales and operations" and "other business income." "Income from sales and operations" comprises gross receipts or sales from the trade or business. "Other business income," shown for nonfarm businesses only, includes sales of scrap, amounts recovered from bad debts, and interest, as well as other kinds of miscellaneous income incidental to operating a business. For farms, "income from sales and operations" comprises all sources of income relating to the farm operation including patronage dividends from farmers' cooperatives, agricultural program payments, commodity credit loans, credit for Federal excise tax on gasoline, and State gasoline tax refund, on the assumption that all were integral to farming operations.

For partnerships, business receipts were, generally, the income from the company's principal business activities. Rents earned in addition to the company's principal income and interest, royalties, and nonqualifying dividends were, for the most part, reported separately. However, when rent was actually operating income, as, for example, for hotels, real estate operators, or manufacturers who rented rather than sold their products, the rental income was included in business receipts. Incidental income, such as cash discounts or recoveries of taxes or bad debts previously deducted, was usually shown as "other receipts."

Returns filed by partnerships classified in the "Security, commodity brokers, and services" industries (and also in the "Banking and miscellaneous finance" industry) were given special treatment in statistical processing. Sales of securities were netted against the cost of these "goods" and only the net amount was shown as business receipts. Since it was usually not possible to separate sales of securities from other sources of receipts, such as commissions, an arbitrary rule was used for partnerships in the specified industries; if cost of sales and operations was 50 percent or more of business receipts, costs were subtracted from receipts and the difference was used as business receipts. No such adjustments were made for sole proprietorships in these industries, and the receipts and cost of sales and operations were shown in the tables as the taxpayers reported them.

Business receipts from farming were understated for both partnerships and sole proprietorships because they did not include receipts from the sale of livestock held for draft, breeding, dairy, or sporting purposes. Income from the sale of such cattle and horses held for at least 2 years and other livestock (except poultry) held for at least 1 year was reported as gain or loss from the sale or exchange of property, rather than as business receipts. In the case of partnerships, the ordinary gain or loss was reported on the partnership return, Form 1065 and any long-term gain was reported on the Schedule D, "Capital Gains and Losses," filed with the partners' individual income tax return.

See also the discussion of "Farm Proprietorships" in section 1.

Class Life Asset Depreciation Range (CLADR) System

See "Depreciation."

Conservation Expenses

These expenses are included in "other business deductions" in table 1.2. See also section 1, Farm Proprietorships.

Cost of Labor

Cost of labor was a component of cost of sales and operations. For sole proprietorships in nonfarm industries it represented the amount reported on line 3, page 1 of Schedule C-1, Form 1040. For sole proprietors and partnerships engaged in farming and using Schedule F, which did not contain a cost of sales and operations schedule as such, it represented the amount reported in Schedule F, page 1, part II, line 29 "labor hired." For nonfarm partnerships, it was the amount reported in Schedule A, line 29 on page 1 of Form 1065. (See "Payroll.")

Cost of Sales and Operations

If the receipts of the business included income from the sale of goods made or bought, cost of goods sold generally included the direct cost of those goods made or bought. In this sense it included goods purchased for resale (including inventory change) in trade industries, and raw materials, supplies, labor, and other direct costs in agriculture, mining, manufacturing, and

other industries whose principal activity was producing goods. "Cost of operations" related to returns for which inventories were not an income-determining factor.

Partnerships and sole proprietorships which engaged in manufacturing or production operations were required to use the "full absorption" method of valuing items in inventory. Both direct and indirect production costs had to be taken into account in the computation of inventory costs. Indirect costs included repairs, maintenance, utilities, rent, and indirect labor and production supervisory wages.

If the receipts of the business were from the sale of services rather than goods, the corresponding figure for cost of operations was not always comparable for sole proprietorships and partnerships. Cost of operations generally included labor costs, supplies, rental of machinery and equipment, and other direct costs of producing the services. Many partnerships and most sole proprietorships did not report cost of goods sold or cost of operations as completely as did corporations. Instead, they allocated the various "costs" to "deduction" items on the return, such as materials and supplies, rather than to cost of sales and operations.

Conversely, for both sole proprietorships and partnerships, certain deduction items were transferred to their respective deduction categories when identified in cost of goods sold or cost of operations schedules. Transferred were identifiable amounts of depreciation, depletion, amortization, taxes (including sales and excise taxes), and contributions to employee pension and other benefit plans.

Farm costs for sole proprietorships and partnerships presented special problems because the return form schedule used for the statistics did not provide for a separate cost of goods sold or cost of operations computation. The cost of sales and operations statistics presented for unincorporated farms were constructed during statistical processing from deduction items shown on Schedule F for farms that were comparable to those shown on Schedule C for nonfarm sole proprietorships or on Form 1065. See the discussions in this section under "Purchases," "Cost of Labor," "Materials and Supplies," and "Other Costs."

Statistical adjustments to cost of goods sold made for partnership security dealers are explained under "Business Receipts."

Depletion

Depletion, a deduction allowable for the exhaustion of natural deposits or timber, could be based on cost, or, for natural deposits, on a fixed percentage of gross income, less rents and royalties paid, from the depletable property. Generally, for gas and oil wells the gross income was the actual sales price, or representative market or field price if the gas or oil was later converted or manufactured prior to sale. For other natural deposits, gross income was the gross income from mining, defined to include extractive and certain treatment processes. Also included as gross income were exploration expenditures, previously deducted, that were required, under certain provisions of Code section 617, to be recaptured when the mine reached the production stage.

Under elective provisions of the Code, exploration and development expenditures connected with certain domestic natural deposits (except oil and gas), generally, could be deducted currently, treated as deferred expenses, or capitalized. The write-offs of amounts deferred or capitalized were not included as part of depletion.

Percentage depletion, though based on percentages of gross income from the depletable property, was limited. It could not exceed 50 percent of the net income from the property, computed without the depletion deduction. The percentage depletion rates for each type of deposit were listed in Code section 613 and ranged from 5 to 22 percent.

The Tax Reduction Act of 1975 repealed, for the most part, the 22 percent depletion allowance for oil and gas wells. Certain domestic gas and oil production was exempted from provisions of the Act. Independent producers and royalty owners (the "small producers' exemption") could use percentage depletion limited to 65 percent of the net income before the depletion deduction. If the 65 percent limit caused an amount to be disallowed for a taxable year, the taxpayer could carry the disallowed portion to the next year for inclusion in the depletion deduction.

The "small producer exemption" did not apply to any taxpayer engaged in the refining of crude oil and whose refinery runs exceeded 50,000 barrels on any day during the taxable year. The "small producer exemption" was also not available to a taxpayer who sold oil or natural gas through a retail outlet. The "small producer exemption" provided for a 22 percent rate for a maximum daily average of 2,000 barrels for 1975 and was to phase down by 200 barrels each year until 1980. Thereafter, the depletion rate was to be reduced gradually each year until a 15 percent rate applied for 1984 and subsequent years.

The depletion allowance for oil and gas wells was computed separately by each partner and was not allowed to the partnership. The partnership allocated to each partner that partner's proportionate share of the adjusted basis of each oil or gas property of the partnership. This allocation had to be made on the later of the date the partnership acquired the oil or gas property, or January 1, 1975. A partner's proportionate share of the adjusted basis of the partnership's property was determined by the amount of that partner's interest in the partnership's capital or income, and by the terms of the partnership agreement.

The statistics include any identifiable depletion reported as a cost of sales and operations.

Depreciation

The deduction for depreciation permitted a reasonable allowance for the exhaustion, wear and tear, and obsolescence of business property in cases where the estimated useful life of the property exceeded one year. A deduction for depreciation was not allowable on inventories, or land apart from the physical improvements or developments to it.

Several methods of computation could have been used in determining the deduction for the year. The most common method was straight-line, whereby an equal amount is deducted in each year of the useful life of the asset. The declining balance and the sum of the years-digits methods, whereby a larger portion of the asset's cost is written off during the earlier years of its life than during its later years, were also commonly used. Accelerated methods of depreciation were restricted for certain kinds of real property beginning with 1969. In lieu of computing depreciation using separate useful lives for each individual asset, standard lives, based on groupings of assets according to the industrial activities in which they were used, were issued in 1962 as guidelines for establishing the "reasonableness" of the depreciation deduction. Use of them was tied to past retirement and replacement

practices. These "guideline lives" were modified for 1971 under the "class life asset depreciation range" (CLADR) system. Under this system, assets of the same type acquired in the same year were grouped into one or more closed-end "vintage" accounts and the accounts were assigned useful lives chosen from a range of published useful lives. The range of useful lives was generally from 20 percent longer to 20 percent shorter than the industry-grouped "guideline lives" established under the previous rules, but the Treasury Department could modify the guideline lives in the future as necessary. Use of the 1971 rules did not have to be justified based on past retirement and replacement practices. The only allowable depreciation methods under the system were the straight-line, declining balance, and sum of the years-digits methods. Salvage value was not to be taken into account in computing depreciation, but no "vintage" account could be depreciated below a reasonable salvage value. Under the CLADR system, depreciation of assets acquired prior to 1971 could be depreciated under the new rules but no range of useful lives was allowed.

Amounts shown as depreciation include any identifiable depreciation reported as an operating or manufacturing cost. Also included in the statistics are amounts deducted on leasehold improvements, patents, and copyrights. Additional first-year (section 179) depreciation was included in the statistics for proprietorships, but for partnerships it was allocated to the partners for reporting on their own returns.

Employee Benefit Programs

Contributions by employers to employee-benefit plans other than deferred-compensation plans were deductible under Code section 162 for all forms of business organizations. These plans included such things as hospitalization, health and accident insurance, group life insurance, and other employee welfare plans.

Contributions to retirement and other deferred compensation plans deductible under Code section 404 were included in "Retirement Plans."

The statistics for this item include amounts identified in the cost of sales and operations schedules.

Farm Net Profit (or Loss), Partnership Returns

For those partnerships not reporting the detail of income and expenses from farming, farm net profit is shown in the partnership tables as an item of income and farm net loss is shown as a deduction. Since partnerships were required to use the same Schedule F as sole proprietors to report their farm income and expenses, the components reported on this schedule were combined during statistical processing with the equivalent income and deduction items shown on Form 1065. For example, "rent of farm or pasture" was combined with the deduction item, "Rents paid." The detail was reported by most farm partnerships, so the amount shown in the tables is a residual representing only a small portion of partnership farming activity.

Income From Sales and Operations

See "Business Receipts."

Income (or Loss) From Other Partnerships

This was the partnerhip's share of the profits (whether received or not) or losses of another partnership, except the partnership's distributive share of another partnership's capital gains or losses.

The term "partnership" included a limited partnership, syndicate, group, pool, joint venture, or other unincorporated organization through or by which any business, financial operation, or venture was carried on, and which was not within the meaning of the Internal Revenue Code, a corporation, trust, estate, or sole proprietorship.

Income Tax After Credits

See "Total Income Tax."

Industry Groups and Divisions

See "Appendix A."

Interest Paid

Interest paid in connection with business indebtedness was deductible as an ordinary and necessary business expense. Included in the statistics was interest paid on deposits and withdrawable shares by banking and savings institutions. Also included were amounts paid by partnerships to a partner, acting in other than a capacity as a partner, for the use of capital.

Included in the statistics were amounts of interest paid on installment purchases if they were stated in the contract, as well as certain unstated amounts under Code section 483.

Interest Received

This item for partnerships included interest received by the business from all sources except interest wholly tax-exempt and interest on tax-free covenant bonds. Included in this item were amounts received on loans, notes, mortgages, bonds, bank deposits, and corporate bonds less amortizable bond premium. For installment sales, interest received included amounts stated in the contract and certain unstated amounts of interest, as provided in Code section 483.

This item for sole proprietors was not considered business income and was therefore reported elsewhere on the individual income tax return.

Inventories

Based on amounts reported in the cost of goods sold schedule, inventories consisted of goods held for sale or of raw materials and supplies that would become a part of goods held for sale. Taxpayers engaged in manufacturing, trade, or any other business (except farming) where the production, purchase, or sale of merchandise was an income producing factor were required to use inventories in computing the gross income from their businesses. The use of inventories required that direct expenses of production, such as factory labor for a manufacturing concern, be accrued and charged against sales in the year the finished goods were sold. In accounting for the sale of goods, therefore, all such businesses were required to use the accrual method of accounting. Inventories were normally valued at actual cost or at the lower of actual cost or market price.

In order to conform as nearly as possible to the best accounting practices and to clearly reflect income (as required by section 471 of the Internal Revenue Code), both direct and indirect production costs had to be taken into account in the computation of inventoriable costs in accordance with the "full absorption" method of inventory costing. Under the full absorption method of inventory costing, production costs had to be allocable to goods produced during the taxable year, whether sold during the taxable year or in inventory at the close of the taxable year determined in accordance with the business' method of identifying goods in inventory. Thus, the business had to include as inventoriable costs all direct production costs and certain indirect production costs.

Businesses engaged in manufacturing or production that were not using the full absorption method had to change to that method. A special election was available whereby the taxpayer did not have to change to the full absorption method for taxable years prior to the year for which such election was made. The election had to be made during the first 180 days of any taxable year beginning after September 18, 1973. Generally, the latest date for making the election was November 28, 1975. (See also "Cost of Sales and Operations.")

Farmers were required to use inventories only if they elected to use the accrual method of accounting for their profit or loss from the sale of farm products. Farm inventories consisted of livestock, harvested crops held for sale or for future use, and supplies. Growing crops and livestock on which depreciation was taken were not included in inventories. Farm inventories could be valued by special methods in addition to cost and lower of cost or market. Under the unit-livestock-price method, livestock was grouped by kind and age and all animals in each group were valued at the estimated cost of raising such animals. Under the farm-price method, each item of inventory was valued at the estimated market price, less cost of disposition. Valuing inventories by the farm-price method could result in an increase in the value of ending inventories over beginning inventories without any corresponding increase in expenses or costs.

Investment Credit

This tax credit was based on a percentage of the "qualified investment" in certain new and used depreciable assets, chiefly machinery and equipment with a useful life of 3 years or more. The applicable percentage for most property acquired and placed into service or constructed during the period January 22, 1975, through December 31, 1976, was 10 percent of "qualified investment" as provided for by the Tax Reduction Act of 1975. Before January 22, 1975, the credit was, in general, 7 percent. The cost of the property determined the taxpayer's credit base, "qualified investment," an amount that took into account the length of the property's intended life and whether the property was new or used.

There were also limitations on the credit itself, for the most part dependent on the presence or size of income tax (excluding special taxes) reduced by the foreign tax credit and the credit for elderly before the investment credit could be applied. Amounts in excess of these limitations could be carried back 3 years and the remainder carried forward, in general, to the succeeding 7 years, for use in computing the credit for these years. Special rules applied in the case of the carryforward of credit computed under laws in effect prior to 1971.

Land Clearing Expenses

These expenses are included in "other business deductions" in table 1.2. See also section 1, Farm Proprietorships.

Materials and Supplies

The amount of materials and supplies, a component of the cost of goods sold, was secured for sole proprietorships from Schedules C or F. For nonfarms, it was the amount on line 4, page 1 of Schedule C-1. For farms, it was the item "supplies purchased," line 37, part II, page 1 of Schedule F (for both cash and accrual methods of accounting). For nonfarm partnerships, it was the amount reported on line 30, Schedule A, Form 1065.

Net Gain (or Loss), Noncapital Assets

This income for partnerships represented gains and losses from the sale or exchange of property not eligible for beneficial capital gains tax treatment by partners. (Partnerships excluded capital gains and losses from their income statement and allocated any gains and losses directly to the partners.) In contrast, ordinary gains and losses were included in partnership net income. They resulted mostly from the sale or exchange of (1) certain depreciable, depletable, and real property; (2) notes and accounts receivable acquired in the ordinary course of business for services rendered or from the sale of property includable in inventory or ordinarily held for sale; (3) certain copyrights, literary, musical, or artistic compositions or similar properties; (4) securities including governmental obligations and debt obligations sold or exchanged by certain financial institutions; and (5) certain patents, inventions or designs, and secret formulas or processes.

This income item did not include gains and losses under section 1231. For partnerships, section 1231 gains and losses, like capital gains and losses, were reported by the partners on their own returns. In general, section 1231 gains and losses comprised (a) sales of business property (excluding inventories) which were held for more than 6 months and (b) "involuntary conversions" by theft or casualty of business property and of capital assets which were held over 6 months. However, the amount of gain (but not loss) excluded from partnership net income under section 1231 was limited based on adjustments for any accelerated depreciation claimed since 1962, 1964, or 1975 (the date depending on the category of property involved). Categories to which this limitation applied were: (a) sales or exchanges of certain depreciable property (Code sections 1245 and 1250), with additional qualifications prescribed for some of this same property if it was used for farming (Code sections 1251 and 1252), (b) sales of certain depletable property (Code section 617), and (c) sales of oil and gas property (Code section 1254).

Sales or exchanges of noncapital assets were reported by sole proprietors as nonbusiness income.

Net Income (or Deficit)

For sole proprietorships, net income (or deficit) represented the difference between business receipts and the sum of cost of sales and operations and other business deductions. Sole proprietorship net income did not include investment income; and salaries to owners and business-related contributions or gifts were includable elsewhere on the returns of sole proprietors and so are not reflected in sole proprietorship net income or deficit.

For partnerships, net income (or deficit) represented the difference between total taxable receipts and the sum of cost of sales and operations and other business deductions. Total receipts included, in addition to business receipts, investment income attributable to the partnership (except capital gains and losses and gains and losses under Code section 1231 as explained under "Net Gain (or Loss), Noncapital Assets," above). The deductions for partnerships excluded contributions or gifts, additional first-year depreciation and foreign taxes, which were reported on the partners' returns. Moreover, interest on State and local Government obligations and on tax-free covenant bonds was nontaxable and, therefore, is not reflected in net income. (See also Section 2 of this report.)

In this report, the term "net income" is used for both sole

proprietorships and partnerships although it is not strictly comparable for the two forms of business organization. Three differences are: (1) investment income was reflected in partnership net income but not in proprietorship net income; (2) salaries paid to owners were a business deduction for partnerships but not for proprietorships; and (3) additional first-year depreciation was a deduction in the computation of sole proprietorship net income but not in the determination of partnership net income.

Nonqualifying Dividends Received

This investment-type income for partnerships represented certain corporate dividends which were includible in the income of the partnership and for which the individual partners were not entitled the $100 (or $200 on a joint return if both husband and wife received eligible dividends) dividend exclusion on their individual income tax returns when the income was passed through to the partners.

Number of Businesses

Number of business organizations in this report represented the number of active businesses operated as sole proprietorships by individuals and the number of active partnerships. (Inactive partnerships are included only in tables 2A and 4B.)

Number of sole proprietorships was based on the number of Schedules C and F or Forms 4835 filed with the income tax return, Form 1040, of the sole proprietor. When sole proprietors submitted (with their Form 1040) multiple schedules covering the activities of more than one business, each of these schedules was counted separately. (See also "Farm Landlords and Farm Operators" in Section 1 of this report.)

Other Business Deductions

See "Other Deductions."

Other Business Income

See "Business Receipts."

Other Costs

Other costs was a component of cost of sales and operations. For nonfarm businesses, these costs were reported on line 31, Schedule A, Form 1065, or line 5, page 1, of Schedule C-1, Form 1040. For farmers, the amount was computed from Schedule F, for both cash and accrual methods of accounting, as follows: farm expenses (total, part II, on page 1) less the sum of the items, labor hired, repairs and maintenance, interest, rent of farm or pasture, supplies purchased, taxes, insurance, conservation expenses, land clearing expenses, pension and profit-sharing plans, employee benefit programs, amortization, and depletion.

For nonfarm sole proprietorships, other costs included such items as containers and packages that were an integral part of the manufactured product; freight-in, express-in, and cartage-in, on raw materials, supplies used in production, and merchandise purchased for sale; and overhead expenses such as heat, light, power, maintenance labor, and supervision. If inventories, purchases, and the other components of cost of goods sold were not reported, the entire amount was included in other costs for these statistics.

The following items were transferred out of "other costs" during statistical editing: amortization, pension and profit-sharing plans, employee benefit programs, depletion, depreciation, taxes, interest, bad debts, commissions, rent, and insurance.

Other Deductions

Other deductions comprised business expenses which were not allocable to a specific deduction item on the return form, such as administrative, general, and selling expenses; bonuses; delivery, freight, and shipping expenses; truck and automobile expenses (except repairs); utilities; supplies; advertising and promotion; travel and entertainment; dues and subscriptions; postage and stationery; sales discounts; and laundry, uniforms, and cleaning. For partnerships, this item also included unrealized profit on current-year installment sales; reported amounts of negative income; commissions; insurance; and legal and professional fees. For sole proprietorships the last three were shown as specific deductions on the return forms and were tabulated separately.

For farm sole proprietorships this item was comprised of conservation and land clearing expenses.

The estimates for other deductions may also include losses resulting from "involuntary conversions" of business assets by theft or casualty. (See "Net Gain (or Loss), Noncapital Assets.")

Other Income Less Losses and Statutory Adjustments

In effect, this item consisted of sources of income, such as wages and salaries, dividends, interest, partnership income, and sales of capital assets, all components of the taxpayer's total income, which were not derived from the operation of the sole proprietorship business.

Adjusted gross income equalled total income less statutory adjustments to income. Adjustments to income were comprised of sick pay exclusion, moving expense, employee business expense deduction, self-employed retirement deduction, payments to an individual retirement account (IRA), and forfeited interest penalty for premature withdrawal from a time savings account.

Other Receipts

For partnerships, this item included amounts not elsewhere reported in the income statements, such as: income from minor operations; cash discounts; income from claims, license rights, and judgments; net amount earned under operating agreements; profit from commissaries; profit on prior years' collections (installment basis); recoveries of losses and bad debts previously claimed for tax purposes; refunds for cancellation of contracts; and income from sales of scrap, salvage, or waste. For sole proprietorships, these items would usually be reported as "other business income" and as such were also included in the statistics for business receipts.

Payments to Partners

Guaranteed payments which were made for services or for the use of capital where such payments were determined without regard to income of the partnership were allowed as a deduction in the computation of the partnership net income (or deficit).

Payroll

Payroll, shown in this report for sole proprietorships and partnerships, was the sum of cost of labor reported in cost of sales and operations plus salaries and wages reported among the deduction items. Various kinds of contract labor not actually representing payroll, such as janitorial or secretarial services, were also included. Payments to owners or partners were excluded.

Amounts of payroll were frequently included by taxpayers in other items, such as commissions, legal and professional fees, or repairs. Because of the difficulty of identifying such amounts, they were shown in these tables as reported by the taxpayer. Thus the amount shown for payroll is probably understated.

Pension, Profit-sharing, Stock Bonus, and Annuity Plans

See "Retirement Plans."

Purchases

This item was a component of the cost of goods sold. For nonfarm businesses, the sources were: (1) line 2, page 1 of Schedule C-1, Form 1040, and (2) line 28c, Schedule A, of Form 1065. For farms, the sources were on Schedule F, column c, part I, page 1, for farmers using the cash accounting method, and line 69, part V, page 2, for farmers using the accrual accounting method.

Rent Paid

Rent paid on business property was deductible as an ordinary and necessary expense. Identifiable amounts of taxes and other expenses paid by lessees in connection with rent paid were included in their respective deduction headings. Excluded were payments in the form of crops by tenant farmers to landlords under crop-sharing agreements.

Rents Received

Rents received for the use or occupancy of property consisted of the gross amounts. Depreciation, repairs, interest, taxes, and other expenses, which were deductible from gross rents, were included in their respective deduction items. The rental income of partnerships if it constituted the major portion of income was included in "Business Receipts."

Repairs

This deduction included cost of labor and supplies and other costs necessary for incidental repairs to the property. It did not include capital expenditures which added to the property value, improvements which appreciably prolonged its life, or expenditures for restoring or replacing property, which were added to the depreciable basis of the property and recovered through depreciation.

The "class life asset depreciation range" (CLADR) system included a provision for accounting for repairs of property when ambiguity existed as to whether the expenditures were deductible in the year paid or incurred, or had to be capitalized and recovered through depreciation over the life of the property. Taxpayers using the CLADR system as the basis for their depreciation deduction could elect to deduct currently certain expenditures for repairs, maintenance, rehabilitation, or improvement up to a specified amount (repair allowance) for each account, with the excess capitalized and depreciated. (See also "Depreciation".)

Retirement Plans

This deduction item was the employer's contributions to employee pension, profit-sharing, stock bonus, annuity, bond purchase, or other deferred compensation plans that were deductible under Code section 404. The Code imposed limitations on the amounts deductible for the taxable year and provided a carryover feature for certain amounts paid in excess of these limitations. The item did not include any payments by self-employed persons to their own retirement plans, which were reported on individual income tax returns as adjustments used in arriving at adjusted gross income. The statistics include identifiable amounts of this item were transferred out of cost of sales and operations.

Royalties

This income item for partnerships was the gross amount received, generally on an agreed percentage basis, for the use of property rights. Included were amounts received from patents, copyrights, timber, minerals, or oil wells. Expenses related to this income, such as depletion and taxes, were not deducted directly from the income but were reported among the various deductions from total gross income.

Excluded were certain royalties received under a lease agreement on timber, coal deposits, and domestic iron ore deposits, which were allowed special tax treatment. Under elective provisions of Code section 631, the net gain or loss on such royalties was included in the computation of net gain or loss on sales or exchanges of certain business property under section 1231 and as such were reportable by the partners on their own returns and not by the partnership.

Salaries and Wages

This item consists of those salaries and wages not included as a deduction for "cost of labor" in the cost of sales and operations schedule and not included in some other deduction on the income tax return. Salaries to partners and sole proprietors were not included in this amount. (See also "Payroll.")

Size of Business Receipts

Size of business receipts was based on "Business Receipts" (as defined in this section of the report) for all industries except, in the case of partnerships, those in the finance, insurance, and real estate division. For these industries, total receipts, which is the sum of business receipts and investment income, was used as the basis for classification.

Size of Total Assets

Size of total assets was based on the amount reported in the end-of-year balance sheet. Returns with zero assets were used as a classification for returns of liquidating or dissolving partnerships which had disposed of all their assets and whose income tax returns were final returns.

States

See "Industrial Activity by State" in sections 1 and 2.

Taxes Paid

Taxes paid included the amounts reported as an ordinary and necessary business deduction as well as identifiable amounts reported as part of the cost of sales and operations. Included among the deductible taxes were ordinary State and local taxes paid or accrued during the year; social security and payroll taxes; unemployment insurance taxes; import and tariff duties; and business, license, and privilege taxes. Income and profits taxes paid to foreign countries or U.S. possessions were also deductible unless claimed as a credit against income tax. Not deductible were such taxes as Federal income and excess profits taxes, gift taxes, and taxes assessed against local benefits. If a business included in business receipts the sales taxes and excise and related taxes included in the sales price of its products, these taxes also were generally included in the statistics for the deduction for taxes paid.

Foreign taxes were deductible by a sole proprietorship unless the proprietor chose to claim them instead as a foreign tax credit against income tax. These taxes were not deductible by a partnership however; amounts paid by the partnership were allocated directly to the partners for use as a deduction or credit.

Total Assets

Total assets were those reported in the end-of-year balance sheet in the partnerships' books of account. Total assets were net after reduction by accumulated depreciation, amortization, and depletion, and by the reserve for bad debts. When these reserves were reported as liabilities, they were treated as reductions from the asset accounts to which they related and the totals of assets and liabilities were adjusted accordingly.

Total Deductions

Total deductions for sole proprietorships consisted of (1) the deduction for cost of sales and operations and (2) the ordinary and necessary business deductions from gross income. In addition, for partnerships, total deductions also included expenses connected with investment income, and net loss from sales of noncapital assets. Total deductions for partnerships also included farm net loss and the partnership's share of net loss from other partnerships.

Total Income Tax

Total income tax shown in sole proprietorship table 1.6 was the sum of (a) the sole proprietor's income tax liability for the year, after being reduced by any credits, including the investment, retirement income, foreign tax, and work incentive (WIN) credits, plus (b) the additional tax for tax preferences ("minimum tax"). The liability was based on the proprietor's income from all sources and so was not directly related to the income or deficit from the sole proprietorship business. The income tax figure does not include the social security self-employment tax, tax from recomputing prior-year investment or work incentive (WIN) credits, social security tax on tip income, or taxes on premature distributions or excess contributions related to individual retirement savings accounts (IRA's).

The income tax figures in this report are generally the liability as reported on returns at the time of filing. Any adjustments resulting from audit and other events occurring after filing are not reflected.

Total Receipts

For partnerships, total receipts represented the sum of business receipts; investment income such as interest, rents, royalties, nonqualifying dividends, net gain from sale of noncapital assets; income from farms and other partnerships; and, "other" income. For purposes of this report, total receipts did not reflect net losses from sale of noncapital assets, or from farms and other partnerships.

Zero Assets

The final returns of liquidating or dissolving partnerships which had disposed of all assets were represented in this "asset size" category. The liquidating or dissolving partnerships had been active, however, during a portion of the accounting period.

APPENDIX A

COMPARISON OF STANDARD INDUSTRIAL CLASSIFICATION CODES AND STATISTICS OF INCOME INDUSTRIES, 1976

Standard Industrial Classification Codes	Statistics of Income Deacription
	Agriculture, forestry, and fishing
	Farms
0111, 0112, 0115, 0116, 0119, 0131-0134, 0139, 0191	Field crop

4D Partnerships: Coefficient of variation (percent) of the estimated number of returns, by size of buiness receipts, 1976, 428

SAMPLE CRITERIA AND SELECTION OF RETURNS

The data presented in this report are estimates based on stratified systematic samples of Form 1040, Individual Income Tax Returns, and Form 1065, Partnership Returns of Income. The samples were selected before audit. Amended and tentative returns were excluded because another return filed by the same taxpayer was subject to sampling.

The completeness of the samples was monitored closely during the selection process. Minimal followup was required to reconcile differences.

Sole Proprietorships

Individual Income Tax Returns filed and entered into the Internal Revenue Service's Individual Master File System during 1977 were stratified into sample classes by computer based on: presence or absence of a business schedule; size of adjusted gross income (or deficit) or largest of specific income (or loss) items, or size of business and farm receipts; and State from which filed. The returns were then selected at intervals equal to the inverse of the prescribed sampling rates, which ranged from less than 0.04 percent to 100 percent, yielding 84,959 returns from an estimated population of 10,658,563 returns.

The specific income and loss items used in stratification included: salaries and wages, interest income, dividends, business profit or loss, farm profit or loss, net capital gain or loss, and others. When the magnitude of the largest income (or loss) item sufficiently exceeded that of adjusted gross income (or deficit), that item was used as the stratifier instead.

A further requirement was that each State be sufficiently represented in the sample. This was accomplished by dividing the States into five groups based on size of tax return population, each group receiving a separate set of rates.

Table 4A shows the strata limits for financial stratifiers and summarizes the population and sample counts.

Partnerships

Partnership Returns of Income filed for Tax Year 1976 and entered into the Internal Revenue Service Business Master File System were computer-stratified based on size of gross receipts, total income or loss 1/, and total assets. The sample was selected at rates ranging from 1.3 percent to 100 percent, yielding 46,607 returns from a population of 1,153,784 returns.

The sample was obtained using randomly-chosen sets of ending digits of the Employer Identification Number. Duplicate returns, caused by more than one partner filing a return for the same partnership, and inactive partnership returns, showing no income or deduction items, were included in the sample for the computation of weighting factors, but excluded from the tabulations.

Table 4B shows the strata limits, the number of returns in the population and sample, and the prescribed and achieved sampling rates.

METHOD OF ESTIMATION

Weighting factors were obtained by dividing the computer count of returns filed in each sample stratum by the number of sample returns actually selected from each stratum. For partnership returns Internal Revenue district weighting factors were computed to increase the reliability of the estimates for the two State tables in this report. Internal Revenue district boundaries were usually coterminous with those of States, although some of the larger States contained more than one district.

All weighting factors were converted to "integer weighting factors" before they were applied to the sample returns. For example, if a factor of 44.24 were computed for a stratum, 24 percent were systematically assigned an integer weighting factor of 45, and 76 percent a factor of 44.

SAMPLING VARIABILITY

The coefficient of variation (CV) is the standard deviation of the estimate expressed as a percent of the estimate. The standard deviation when added to and subtracted from the estimate provides the computed upper and lower limits within which approximately two out of three estimates derived from similarly selected

1/ Total income or loss was line 12, Form 1065 and represented business receipts less cost of sales and operations (gross profit) plus income from investments (excluding net losses from noncapital assets).

Table 4A.——Number of Form 1040 and Form 1040A Returns in the Population and Sample, 1976

Description of the sample strata		All returns		Business and farm[1]	
		Population	Sample	Estimated population	Sample
		(1)	(2)	(3)	(4)
Grand total		**84,614,549**	**164,234**	**10,858,563**	**84,959**
Nonbusiness and farm (Schedule F only), total		**76,962,622**	**67,195**	**2,806,636**	**7,920**
Adjusted gross income $200,000 or more with no tax after credits and no minimum tax		39	39	8	8
Larger of adjusted gross income or largest specific income item	and **Farm receipts**				
Under $10,000	Under $20,000	40,036,111	16,522	936,139	431
$10,000 under $15,000	Under $50,000	13,228,745	12,691	619,546	642
Under $10,000	$20,000 under $50,000				
$15,000 under $20,000	Under $100,000	10,201,927	11,631	507,032	651
Under $15,000	$50,000 under $100,000				
$20,000 under $50,000	Under $500,000	12,571,670	13,214	646,434	824
Under $20,000	$100,000 under $500,000				
$50,000 under $100,000	Under $750,000	733,053	9,728	71,915	1,149
Under $50,000	$500,000 under $750,000				
$100,000 under $200,000	Under $1,000,000	153,973	9,866	18,932	1,436
Under $100,000	$750,000 under $1,000,000				
$200,000 under $500,000	Under $5,000,000	32,181	8,581	5,663	1,812
Under $200,000	$1,000,000 under $5,000,000				
$500,000 or more	Any amount	4,923	4,923	967	967
Under $500,000	$5,000,000 or more				
Business (Schedules C and F, or C only), total		**7,651,927**	**77,039**	**7,651,927**	**77,039**
Adjusted gross income $200,000 or more with no tax after credits and no minimum tax		30	30	30	30
Larger of adjusted gross income or largest specific income item	and **Business receipts**				
Under $10,000	Under $20,000	2,153,165	12,912	2,153,165	12,912
$10,000 under $15,000	Under $50,000	1,641,057	10,967	1,641,057	10,967
Under $10,000	$20,000 under $50,000				
$15,000 under $20,000	Under $100,000	1,406,504	9,350	1,406,504	9,350
Under $15,000	$50,000 under $100,000				
$20,000 under $30,000	Under $250,000	1,480,361	10,399	1,480,361	10,399
Under $20,000	$100,000 under $250,000				
$30,000 under $50,000	Under $500,000	771,768	8,682	771,768	8,682
Under $30,000	$250,000 under $500,000				
$50,000 under $100,000	Under $750,000	303,046	7,450	303,046	7,450
Under $50,000	$500,000 under $750,000				
$100,000 under $200,000	Under $1,000,000	65,286	6,752	65,286	6,752
Under $100,000	$750,000 under $1,000,000				
$200,000 under $500,000	Under $5,000,000	27,198	6,985	27,198	6,985
Under $200,000	$1,000,000 under $5,000,000				
$500,000 or more	Any amount	3,512	3,512	3,512	3,512
Under $500,000	$5,000,000 or more				

[1]The population of farm returns was estimated by applying appropriate weights to counts of returns in the sample determined to be farm returns

Table 4B.——Partnerships: Number of Form 1065 Returns in the Population and in the Sample, Prescribed and Achieved Sampling Rates, 1976

Sample stratum		Number of returns		Sampling rate	
		Population	Sample	Prescribed	Achieved
		(1)	(2)	(3)	(4)
Total[1]		1,153,784	46,607	—	—
Business receipts and total income/deficit	**and Total assets**				
Both under $200,000	Not reported or under $100,000	810,605	10,507	0.013	0.013
Both under $200,000	$100,000 under $1,000,000	189,148	8,232	0.044	0.044
Both under $1,000,000 and at least one $200,000 under $1,000,000	Not reported or under $1,000,000	90,777	7,242	0.080	0.080
Both under $1,000,000	$1,000,000 under $5,000,000	33,774	6,693	0.200	0.198
Both under $5,000,000 and at least one $1,000,000 under $5,000,000	Under $5,000,000	13,738	5,275	0.390	0.384
Both under $5,000,000	$5,000,000 or more	8,106	8,106	1.000	1.000
At least one $5,000,000 or more	Any amount				

[1]Sampling rates were prescribed for the calendar year in which returns were processed for revenue purposes. Returns for 1976 were, for the most part, revenue processed during 1977 and were therefore sampled according to the plan applicable to calendar year 1977. However, included in the totals but not in the detail are 552 returns for 1976 sampled during 1976 from a population of 7,636 returns under the sample plan applicable to that calendar year. In general, these were returns with accounting periods ended July through October 1976.

Table 4C.——Upper Limit Coefficients of Variation for the Estimated Number of Sole Proprietorship Returns, 1976

Estimated number of returns	Size of adjusted gross income or deficit							
	Under $10,000	$10,000 under $15,000	$15,000 under $20,000	$20,000 under $50,000	$50,000 under $100,000	$100,000 under $200,000	$200,000 under $500,000	$500,000 or more
	(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)
50	[1]	[1]	[1]	[1]	[1]	[1]	31.6	[2]
100	[1]	[1]	[1]	[1]	[1]	[1]	22.3	[2]
200	[1]	[1]	[1]	[1]	[1]	33.9	15.8	[2]
500	[1]	[1]	[1]	[1]	[1]	21.4	10.0	[2]
1,000	[1]	[1]	[1]	[1]	33.0	15.1	7.1	[2]
2,000	[1]	[1]	[1]	[1]	23.3	10.7	5.0	[2]
5,000	[1]	[1]	[1]	[1]	14.8	6.8	3.2	[2]
10,000	[1]	35.3	33.3	[1]	10.4	4.8	2.2	[2]
15,000	[1]	28.8	27.2	29.4	8.5	3.9	1.8	[2]
20,000	[1]	25.0	23.5	25.5	7.4	3.4	1.6	[2]
50,000	24.4	15.8	14.9	16.1	4.7	2.1	1.0	[2]
100,000	17.3	11.2	10.5	11.4	3.3	1.5	[2]	[2]
200,000	12.2	7.9	7.4	8.1	2.3	1.1	[2]	[2]
500,000	7.7	5.0	4.7	5.1	1.5	[2]	[2]	[2]
1,000,000	5.5	3.5	3.3	3.6	1.0	[2]	[2]	[2]
2,000,000	3.9	2.5	2.4	2.5	[2]	[2]	[2]	[2]
5,000,000	2.4	1.6	1.5	1.6	[2]	[2]	[2]	[2]
10,000,000	1.7	1.1	1.1	1.1	[2]	[2]	[2]	[2]
15,000,000	1.4	0.9	[2]	0.9	[2]	[2]	[2]	[2]
20,000,000	1.2	[2]	[2]	[2]	[2]	[2]	[2]	[2]

[1]Sample too small to yield reliable estimate of coefficient of variation.
[2]Coefficient of variation normally zero since all returns were prescribed for inclusion in the sample.
[3]Not applicable since estimated number of returns was greater than population estimates.
NOTE: Use column 1 for estimates not classified by size of adjusted gross income.

samples would be expected to fall. Coefficients of variation based on the sum-of-squares method are shown for selected estimates in each industry class for proprietorships and partnerships in tables 1.1 and 2.1.

Coefficient of variation estimates shown in tables 4C and 4D, applicable to frequency estimates only, are based on a formula derived from the sum-of-squares method. Since the coefficients were computed only for tables 1.1 and 2.1, tables 4C and 4D can be used to obtain measures of variability for estimated frequencies in other tables where the classification is other than by industry.

Estimates of frequencies and money amounts considered unreliable because of small sample size are noted by an asterisk to the left of the data item(s). A dash in place of a frequency or amount indicates that: (1) if returns were sampled at a rate of 100 percent, no returns had the particular characteristic; or (2) if returns were sampled at a rate less than 100 percent, either no returns in the population had the characteristic or the characteristic was so rare that it did not appear on any sample return. In addition, a dash in place of a coefficient of variation indicates either that returns were sampled at the 100 percent rate or that the number of returns sampled at a fractional rate was too small to yield a reliable measure of sampling variability.

SAMPLE MANAGEMENT AND PROCESSING CONTROLS

Sample population counts of income tax returns were made by computer and were normally free from error. Sample counts were verified during statistical processing to minimize loss of data. Incorrect or missing entries were corrected during statistical editing to make them consistent with other entries on the return or accompanying schedules. Data were also adjusted during editing in an attempt to achieve consistent statistical definitions. In transcribing and tabulating the information from the returns in the sample, additional checks were imposed to improve the quality of the resulting estimates.

Quality of the basic data abstracted at the processing centers was controlled there by means of a continuous subsampling verification system. In addition, the Statistics Division in the National Office conducted an independent reprocessing of a small subsample of the returns statistically processed in the field as a further check on processing. Prior to tabulation, numerous computer tests were applied to each return record to assure that proper balance and relationship among return items were maintained.

Finally, prior to publication all statistics and tables were reviewed for accuracy and reasonableness, in light of provisions of tax laws, taxpayer report-variations and limitations, economic conditions, comparability with other statistical series and statistical techniques used in data processing.

However, the controls maintained over the selection of the sample returns, the processing of the source data, and the review of the statistics did not completely eliminate the possibility of error. Also, practical operating considerations necessitated allowance of reasonable tolerances in the statistical processing of the data.

Table 4D.——Partnerships: Coefficient of Variation (Percent) of the Estimated Number of Returns, by Size of Business Receipts, 1976

Estimated number of returns	Size of business receipts: Under $200,000	$200,000 under $5,000,000	$5,000,000 or more
	(1)	(2)	(3)
100	(1)	34.0	
200	(1)	24.0	
500	(1)	15.2	
750	31.9	12.4	
900	29.1	11.3	
1,000	27.6	10.7	
3,000	15.9	6.2	
5,000	12.3	4.8	
7,000	10.4	4.1	
10,000	8.7	3.4	
13,000	7.7	3.0	
15,000	7.1	2.8	(1)
20,000	6.2	2.4	
40,000	4.4	1.7	
50,000	3.9	1.5	
100,000	2.8	1.1	
200,000	2.0	(2)	
300,000	1.6	(2)	
400,000	1.4	(2)	
600,000	1.1	(2)	
800,000	1.0	(2)	
1,000,000	0.9	(2)	

[1]Sample too small to yield reliable estimate of coefficient of variation
[2]Coefficient of variation normally zero since all returns were prescribed for inclusion in the sample
[3]Not applicable since estimated number of returns was greater than population estimates
NOTE: Use column 1 for estimates not classified by size of business receipts.

32a Pensions, annuities, rents, royalties, partnerships, estates or trusts, etc. (attach Schedule E) 32a
b Fully taxable pensions and annuities (not reported on Schedule E—see page 10 of Instructions) 32b
33 Farm income or (loss) (attach Schedule F) 33
34 State income tax refunds (does not apply if refund is for year in which you took the standard deduction—others see page 10 of Instructions) 34
35 Alimony received 35
36 Other (state nature and source—see page 11 of Instructions) ▶ 36
37 Total (add lines 29 through 36). Enter here and on line 12 ▶ 37

Part II Adjustments to Income

38 Moving expense (attach Form 3903) 38
39 Employee business expense (attach Form 2106) 39
40a Payments to an individual retirement arrangement from attached Form 5329, Part III 40a
b Payments to a Keogh (H.R. 10) retirement plan 40b
41 Forfeited interest penalty for premature withdrawal (see page 12 of Instructions) 41
42 Total (add lines 38 through 41). Enter here and on line 14 ▶ 42

Part III Tax Computation

43 Adjusted gross income (from line 15c). If you have unearned income and can be claimed as a dependent on your parent's return, check here ▶ ☐ and see page 9 of Instructions 43
44a If you itemize deductions, check here ▶ ☐, and enter total from Schedule A, line 40, and attach Schedule A
b Standard deduction—If you do not itemize deductions, check here ▶ ☐, and:
If you checked the box on line . . . 2 or 5, enter the greater of $2,100 OR 16% of line 43—but not more than $2,800; 1 or 4, enter the greater of $1,700 OR 16% of line 43—but not more than $2,400; 3, enter the greater of $1,050 OR 16% of line 43—but not more than $1,400 44
45 Subtract line 44 from line 43 and enter difference (but not less than zero) 45
46 Multiply total number of exemptions claimed on line 6f by $750 46
47 Taxable income. Subtract line 46 from line 45 and enter difference (but not less than zero) 47

- If line 47 is $20,000 or less and you did not average your income on Schedule G, or figure your tax on Form 2555S, Exemption of Income Earned Abroad, find your tax in Tax Table. Enter tax on line 16 and check appropriate box.
- If line 47 is more than $20,000, figure your tax on the amount on line 47 by using Tax Rate Schedule X, Y, Z, or if applicable, the alternative tax from Schedule D, income averaging from Schedule G, tax from Form 2555S or maximum tax from Form 4726. Enter tax on line 16 and check appropriate box.

Part IV Credits

48 Credit for the elderly (attach Schedules R & RP) 48
49 Credit for child care expenses (attach Form 2441) 49
50 Investment credit (attach Form 3468) 50
51 Foreign tax credit (attach Form 1116) 51
52 Contributions to candidates for public office credit (see page 12 of Instructions) 52
53 Work Incentive (WIN) Credit (attach Form 4874) 53
54 Total (add lines 48 through 53). Enter here and on line 19 ▶ 54

Part V Other Taxes

55 Tax from recomputing prior-year investment credit (attach Form 4255) 55
56 Minimum tax. Check here ▶ ☐, and attach Form 4625 56
57 Tax on premature distributions from attached Form 5329, Part V 57
58 Self-employment tax (attach Schedule SE) 58
59 Social security tax on tip income not reported to employer (attach Form 4137) 59
60 Uncollected employee social security tax on tips (from Forms W-2) 60
61 Excess contribution tax from attached Form 5329, Part IV 61
62 Total (add lines 55 through 61). Enter here and on line 21 ▶ 62

Part VI Other Payments

63 Excess FICA, RRTA, or FICA/RRTA tax withheld (two or more employers—see page 13 of Instructions) 63
64 Credit for Federal tax on special fuels, nonhighway gasoline and lubricating oil (attach Form 4136) 64
65 Credit from a Regulated Investment Company (attach Form 2439) 65
66 Total (add lines 63 through 65). Enter here and on line 23e ▶ 66

1976

Instructions for Form 1040

AND for Schedules A, B, C, D, E, F, R, RP, and SE, and Form 2441

Caution

There have been numerous substantial changes in the law affecting 1976 returns—Please read carefully and thoroughly.

Department of the Treasury
Internal Revenue Service

From The Commissioner

This instruction pamphlet contains information needed to complete Form 1040 and Schedules A, B, C, D, E, F, R, RP, and SE, and Form 2441. If, however, you decide to use Short Form 1040A, you can get Form 1040A and its instructions from any Internal Revenue Service office and many banks and post offices.

The 1976 Tax Reform Act may affect your taxes substantially. An expanded and simplified credit for the elderly has replaced the old retirement income credit. A credit for child care expenses is available to all eligible taxpayers, whether or not they itemize deductions. On the other hand, the former exclusion for sick pay has been replaced by a more restrictive disability income exclusion.

Completing your return this year could be more difficult. This year all taxpayers, whether or not they itemize their deductions and regardless of the size of their income, will need to compute taxable income (lines 43 through 47). Also, last year's simple credit for personal exemptions has been replaced by a larger, but more complex, general tax credit. However, the former multiple tax tables have been replaced by a single table and have been reduced from more than ten to three pages.

Space restrictions have caused us to remove certain little-used lines from the form—for example, the credit for purchase of a new principal residence and the tax from recomputing a prior-year WIN credit. If any of these items apply to you, you should review the instructions and complete the form carefully.

Please note the Presidential Election Campaign Fund Check-Off on line 8 of your 1040. Without increasing your tax or decreasing your refund, you have the right to earmark $1 (on a joint return $1 each for husband and wife) of your taxes for a general fund to meet expenses of the 1980 Presidential Election.

The instructions have been provided to help you prepare your own return. If you need help, please call us at the number listed for your area on page 34 or visit your nearest Internal Revenue office. If you decide to have someone else help you, be sure to select a qualified person.

You can help yourself and us if you check your return to make sure that it is correct and then file it early. Thanks for your cooperation.

Donald C. Alexander
Commissioner of Internal Revenue

Highlights for 1976

Please note these important reminders and changes that have been made because of revisions in the tax law.

Who Must File.—The income level at which an income tax return must be filed has been increased. If your gross income is less than $5,100, be sure to see page 4.

The Standard Deduction has been increased again. See page 9 and line 44b.

A New General Tax Credit replaces the $30 personal exemption credit. You may claim the greater of (1) $35 per exemption shown on line 6d, or (2) 2% of line 47 but not more than $180 ($90, if married, filing separately). See page 10 and lines 17a, b, and c.

A New Simplified Tax Table has been developed for use by individuals with taxable income (line 47) of $20,000 or less. This table replaces the more complex tables based on the number of exemptions used prior to 1976.

Earned Income Credit Rules Have Been Liberalized.—The dependency requirement for your child who is under 19 or a full-time student has been eliminated. Also, you may be eligible to claim the credit if you have a disabled child 19 or over whom you can claim as a dependent. See page 2.

Credit for the Elderly.—A new expanded and simplified credit for the elderly replaces the more complex retirement income credit. See Schedules R & RP and related instructions.

Child Care.—Certain payments made for child and dependent care are now claimed as a credit against tax, instead of only as an itemized deduction. See pages 12 and 17.

Minimum Tax.—New tax preference items have been added, the $30,000 exemption has been reduced, and the tax rate has been increased from 10% to 15%. See page 12.

Disability Income Exclusion (Sick Pay).—You may be able to exclude up to $100 a week of your pension income, but only if you are under 65 and totally and permanently disabled. See page 9.

Business Use of Home.—Deductions for business use, including office use, of a home are restricted. See pages 11 and 15.

Rental of Vacation Home.—New limitations apply to deductions that may be taken for rental of a vacation home. See Instructions for Schedule E.

Limitation on Deductible Losses.—Losses from certain farming, leasing, motion picture film or video tape, and oil and gas well activities are limited to the total amount you invested plus the amount for which you are personally liable. See Instructions for Schedules C, E, and F. New provisions also limit the amount of losses certain partners may deduct. See Instructions for Schedule E.

Investment Interest.—The amount allowable as a deduction for interest on investment indebtedness has been reduced. See page 14.

Prepaid Interest.—Deductions for interest prepayments must be allocated over the period of the loan. See page 14.

Foreign Income.—The amount of earned income from sources outside the United States that may be excluded has been reduced from $20,000 to $15,000. See page 8.

Preparers' Identifying Numbers are now required. See page 6.

New Depreciation Recapture Rules apply to disposition of depreciable residential real estate. See Instructions for Form 4797.

New Rules Apply for Recapture of Intangible Drilling and Development Costs on oil and gas properties. See Instructions for Form 4797.

You may obtain a copy of **Publication 17, Your Federal Income Tax**, or other publications by using the order blank on the next to the last page. This publication will explain how the 1976 Tax Reform Act will affect your 1976 tax liability.

Forms and Schedules may also be obtained by using the order blank on the next to the last page.

The Foreign Accounts and Foreign Trust Questions must be answered if you are required to complete Part I or Part II of Schedule B: If you had a foreign account or were a grantor of, or a transferor to, a foreign trust, you must answer both questions in Part III of Schedule B, whether or not you are otherwise required to file Schedule B.

Foreign Bank, Securities and Other Financial Accounts, and Grantors, Transferors or Beneficiaries of Foreign Trusts.—You must complete Form 4683 if.—

(1) you had any interest in or signature or other authority over a bank, securities, or other financial account in a foreign country (except in a U.S. military banking facility operated by a U.S. financial institution),

OR

(2) you were the grantor of, or transferor to, a foreign trust, during any taxable year, which foreign trust was in being during the current taxable year, whether or not you have any beneficial interest in such trust.

Please note that this year Form 4683 must be filed by taxpayers having any interest in a foreign trust. In prior years this form was required to report an interest in a trust only if the interest was more than a 50% interest.

Form 1040 General Instructions

Where to Get Forms

In general, we mail forms and schedules directly to you based on what you filed last year. Many people will need only the forms we sent them. The order blank on the next to last page will help you get many of the forms, schedules, and publications referred to in these instructions. Many banks and post offices have the same material. However, if you do not find what you need there, please fill out the order blank and we will send it to you.

Who Must File

(See page 8 for examples of income)

File a return if you are:	And your gross income is at least:
Single (legally separated, divorced, or married living apart from spouse with dependent child) and are under 65 . .	$2,450
Single (legally separated, divorced, or married living apart from spouse with dependent child) and are 65 or older	3,200
A person who can be claimed as a dependent on your parent's return, and has taxable dividends, interest, or other unearned income . .	750
A qualifying widow(er) with dependent child and are under 65	2,850
A qualifying widow(er) with dependent child and are 65 or older	3,600
Married filing jointly, living together at the end of 1976 (or at date of death of spouse), and both are under 65 . . .	3,600
Married filing jointly, living together at the end of 1976 (or at date of death of spouse), and one is 65 or older . .	4,350
Married filing jointly, living together at the end of 1976 (or at date of death of spouse), and both are 65 or older . .	5,100
Married filing separate return or married but not living together at end of 1976 . .	750
A person with income from sources within U.S. possessions	750

Self-employed and your net earnings from self-employment were at least $400.

If income tax was withheld or if you are eligible for the earned income credit, then even though you are not required to file a return, you should file to get a refund. If you are filing solely because of the earned income credit, see Form 1040A Instructions to determine whether you can file Short Form 1040A.

These rules are for all U.S. citizens and resident aliens, including those under 21 years of age. These rules also apply to those nonresident aliens and resident aliens who are married to citizens or residents of the U.S. at the end of 1976 and who elect to file a joint return as discussed on page 7, Filing Status.

Dual-Status Tax Year.—You have a dual-status tax year if you were both a nonresident alien and a resident alien (or U.S. citizen) during the tax year. If you had a dual-status tax year before 1976 and you were either (1) unmarried at the end of 1976, or (2) married to a resident or citizen of the U.S. at the end of 1976 and do not elect to file a joint return as discussed on page 7, Filing Status, either of the following applies to you:

(1) if you were a resident of the U.S. at the end of the year, file your return on Form 1040 and clearly mark at the top left of the return "Dual-Status Return." Attach a separate schedule (Form 1040NR clearly marked "Statement" may be used) to your return to show the income tax computation for that part of the tax year during which you were a nonresident alien;

(2) if you were not a U.S. resident or citizen on the last day of the year, file your return on Form 1040NR and clearly mark at the top left of the return "Dual-Status Return." Attach a separate schedule (Form 1040 clearly marked "Statement" may be used) to show the income tax computation for that part of the year during which you were a U.S. resident or citizen.

In either case, you **MUST** itemize your deductions and you **MAY NOT** claim the standard deduction, use the head of household column of the tax table, or use tax rate schedule Z. For more information and additional restrictions applying to dual-status taxpayers, obtain **Publication 519**, United States Tax Guide for Aliens.

U.S. Citizens Living Abroad.—Generally, foreign source income must be reported on your return. See "What Income to Report" on page 8, and obtain **Publication 54**, Tax Guide for U.S. Citizens Abroad.

Death of Taxpayer.—If a person died in 1976, or in 1977 before filing a return for 1976, the surviving spouse or personal representative of the estate must file a return for the deceased. If a refund is due, attach Form 1310 to the return.

For purposes of these instructions, personal representative means the executor, executrix, administrator or administratrix of the decedent's estate; if no executor, executrix, administrator or administratrix is appointed, qualified and acting within the United States, personal representative means any person in actual or constructive possession of any property of the decedent.

The personal representative can file a joint return for the decedent with the surviving spouse. If a personal representative has not been appointed, the survivor can still file a joint return. The 1976 income of the decedent prior to death and the income of the surviving spouse for the entire year must be included in the joint return.

If you are filing such a joint return, write in the signature area "Filing as surviving spouse." Show the date of death in the name and address space. For more information, obtain **Publication 559**, Federal Tax Guide for Survivors, Executors, and Administrators.

Rounding Off to Whole Dollars.—You may round off cents to the nearest whole dollar on your return and schedules. You can drop amounts under 50 cents—increase amounts from 50 to 99 cents to next dollar. Example. $1.39 becomes $1 and $2.69 becomes $3.

Recordkeeping.—Your records must be retained as long as their contents may be material in the administration of any Internal Revenue law. Records that support an item of income, deduction, or credit appearing on your return should be kept until the statute of limitations expires for that return. Usually this is 3 years from the date the return was due or filed, or 2 years from the date the tax was paid, whichever occurs later. Some records must be kept indefinitely. Records of transactions relating to the basis of property should be retained as long as they are material in determining the basis of the original or replacement property. Copies of your filed tax returns should also be retained as part of your records. Obtain **Publication 552**, Recordkeeping Requirements and A Guide to Tax Publications, for further details.

IRS will figure your tax if your income on line 15c is $20,000 or less, was only from wages, salary and tips, dividends, interest, pensions and annuities, and you want to take the standard deduction.

All you do is:

1. Place your name and address label on your return, or fill in name, address, and social security number. Also fill in occupation. On a joint return, show names, social security numbers and occupations of both you and your spouse. If you are married, give social security numbers of both you and your spouse even though you file separately.

2. Fill in lines 1 through 7.

3. Check appropriate "Yes" or "No" box(es) on line 8 (Presidential Election Campaign Fund).

4. Fill in lines 9 through 15c, lines 19, 21, 23a, b, and e, if necessary, and check the box on line 44b. Also, attach Schedule B and Form 4683 (foreign accounts and trusts), if applicable.

5. On a joint return, show your and your spouse's income separately in the space below your spouse's signature so IRS can figure your tax in the way that will give you the smallest tax.

6. Sign your return. Both you and your spouse must sign a joint return.

7. File on or before April 15, 1977.

We will then figure your tax and send you a refund check if you paid too much or bill you if you did not pay enough.

Note: *If you are eligible to claim the earned income credit (see page 2), we will figure the credit for you if you write EIC on line 23c. Also write the first name of your child who qualifies you for the credit in the space to the left of the line 23c entry space if not shown on line 4 or line 6b. If you have a credit for the elderly, we will figure that also. Just attach* **Schedules R & RP** *after you have checked the applicable box for filing status and age and filled in line 2(a) of Schedule R, or lines 1, 2, and 5 of Schedule RP, whichever schedule is applicable. Then write CFE on line 19 of Form 1040.*

When to File

File as soon as you can after January 1, but not later than April 15, 1977. Late filing may subject you to penalties and interest. See Instructions for Penalties and Interest on page 10.

Amended Return

Use Form 1040X to correct any error in a previously filed income tax return.

Privacy Act Notification

The Privacy Act of 1974 provides that each Federal Agency inform individuals, whom it asks to supply information, of the authority for the solicitation of the information and whether disclosure of such information is mandatory or voluntary; the principal purpose or purposes for which the information is to be used; the routine uses which may be made of the information; and the effects on the individual of not providing the requested information. This notification applies to the U.S. Individual Income Tax Returns, to declarations of estimated tax, to U.S. Gift Tax Returns, and to any other tax return required to be filed by an individual, and to schedules, statements, or other documents related to the returns, and any subsequent inquiries necessary to complete, correct, and process the returns of taxpayers, to determine the correct tax liability and to collect any unpaid tax interest, or penalty.

The Internal Revenue Code requires every person liable for any tax imposed by the Code to make a return or statement according to the forms and regulations prescribed by the Internal Revenue Service (sections 6001 and 6011 and the Regulations pertaining thereto). Individuals required to make returns, statements, or other documents shall include their Social Security Numbers to provide proper identification and to permit processing the returns (section 6109 and the Regulations pertaining thereto).

The principal purpose for soliciting tax return information is to administer the Internal Revenue laws of the United States. This includes the determination and collection of the correct amount of tax. The completion of all appropriate items requested by the return forms and related data is mandatory except for the Presidential Election Campaign Fund designation on the U.S. Individual Income Tax Returns, which is voluntary.

The Code provides penalties for failure to file a return, failure to supply information required by law or regulations, failure to furnish specific information required on return forms or for furnishing fraudulent information. Other effects of not providing all or part of the requested information may include the disallowance of claimed exemptions, exclusions, credits, deductions, or adjustments resulting in increased tax liability, the loss of Social Security credits, loss or delay in issuance of a refund for overpayment, interest and penalty charges on unpaid taxes, and other disadvantages to the taxpayer.

The routine uses which may be made of tax return information include disclosure in accordance with law to the Department of Justice in connection with actual or potential criminal prosecution or civil tax litigation; to other Federal agencies; to States, the District of Columbia, and the Commonwealths or possessions of the United States to assist in the administration of their tax laws; to other persons in accordance with and to the extent permitted by law; and to foreign governments in accordance with treaties.

Further information concerning the requirements for filing returns and furnishing information may be obtained from any Internal Revenue Service office.

This will be the principal notification under the Privacy Act of 1974 concerning the solicitation of information in connection with any tax return or tax liability of an individual. Additional notices may be given (but are not required) with respect to specific information requests during the course of tax administration activities such as audit, investigation or collection of any tax, interest, or penalty. Please retain this notification with your tax records and refer to it any time you are requested to furnish additional information.

Where to File

Use the addressed envelope that came with your return, or use the address for your State. Mail your return to the **Internal Revenue Service Center** for the place where you live.

Guide for Preparing a Return

You may find it helpful in completing your Form 1040 to follow these steps and check them off as you go.

—— Step 1.—Gather up your income records including all Forms W–2, W–2P, and 1099. If your employer does not give you a Form W–2 by January 31, or if the one you have is not correct, contact your employer as soon as possible. Only your employer can issue your W–2 or correct it. If unable to secure Form W–2 from your employer by February 15, contact an Internal Revenue Service office.

—— Step 2.—If you are going to claim any credits or itemize your deductions, collect all necessary information and expense records, such as medical and dental bills, real estate taxes, State income tax, home mortgage interest, and charitable contributions. To make sure you do not forget any items, look on pages 12 through 18 of these instructions. Check the credits and types of expenses you can deduct. Put these records aside until later.

—— Step 3.—Get any forms or schedules you need but did not receive by mail. See the order blank on the next to last page to help you decide which ones you will need.

—— Step 4.—Name and Address. Use the mailing label on the forms we sent you. Correct your name and address if necessary. Also show your apartment number if you have one. If you did not receive forms with a label, print or type your name and address.

—— Step 5.—Social Security Number. If your social security number is wrong on the label or if you did not receive a label, show your correct number on your return. If you are married, give numbers of both you and your spouse whether you file jointly or separately.

If you do not have a social security number, get an application Form SS–5 from a Social Security Administration office, post office, or from IRS. File it with the local office of the Social Security Administration. Do this early enough to make sure you receive a number before April 15. If you do not receive a number by April 15, file your return without it and write "Applied for" in the space for social security number.

Be sure to show occupations in spaces in upper right corner just below social security blocks.

—— Step 6.—Filing Status. Check only one box (lines 1 through 5). Your tax rate and your standard deduction depend on the box you check. So before you decide, see instructions for Filing Status on page 7.

—— Step 7.—Exemptions. Fill in lines 6a, b, c, d, e, and f. See instructions for Exemptions on page 7.

—— Step 8.—Check appropriate "Yes" or "No" box(es) on line 8 (Presidential Election Campaign Fund). If you check the "Yes" box(es), it will not increase your tax or reduce your refund.

—— Step 9.—Fill in the schedules and forms mentioned for lines 10, 11, 15b, 29 through 33, and 38 through 40a if you need to. Enter the totals from your schedules on the correct lines on Form 1040. If you file Schedule E, be sure to answer the questions in Part III and attach Form 4683, if it is required.

If you need more space on forms or schedules, attach separate sheets and use the same arrangement as the printed forms, but show your totals on the printed forms. Be sure to put your name and social security number on these separate sheets.

Fill in lines 9, 12 through 15a, 15c, 34 through 37, and 40b through 42.

—— Step 10.—Now fill in line 43. If you have unearned income and can be claimed as a dependant on your parent's return, be sure to check the box.

—— Step 11.—Decide whether to use the standard deduction or itemize your deductions. The instructions "Should You Use the Standard Deduction or Itemize Your Deductions?" on page 9 will help you decide.

—— Step 12.—If you decided to itemize deductions, fill in Schedule A, enter your total deductions on line 44 of Form 1040, and be sure to check the box on line 44a. Skip step 13.

—— Step 13.—If you decided to take the standard deduction, use the larger of (a) or (b).

(a) *Percentage Standard Deduction.*—You are permitted a deduction of 16% of line 43, subject to a maximum amount.

(b) *Low-Income Allowance.*—You are permitted a deduction of a flat amount to insure that you will not be subject to Federal income tax if your income is below certain levels.

Instructions on page 9 will help you compute your standard deduction. Enter your standard deduction on line 44 and be sure to check the box on line 44b.

—— Step 14.—Fill in lines 45, 46, and 47. If line 47 is $20,000 or less find your tax in the Tax Table, show the tax on line 16, and check the Tax Table box. If line 47 is more than $20,000, use Tax Rate Schedule X, Y, or Z to figure your tax. Show the tax on line 16 and check the Tax Rate Schedule X, Y, or Z box.

—— Step 15.—Figure your general tax credit. Enter on line 17c the amount from line 17a or line 17b, whichever is greater. If you show 6 or more exemptions on line 6d, the amount on line 17a will be greater.

Caution: *Married persons filing separate returns may choose the amount on either line 17a or line 17b. But if one uses line 17b (2% of line 47, limited to $90) both must use it.*

—— Step 16.—Fill in lines 48 through 66 if you have credits, other taxes, or other payments to report. Complete the forms or schedules asked for. Enter the amounts from these lines on the front of Form 1040. Fill in any other amounts needed for lines 18 through 28.

—— Step 17.—If you owe tax, show amount on line 25. Attach check or money order for full amount when you file. Make it out to Internal Revenue Service and be sure to write your social security number on it. If line 25 is under $1, you do not have to pay.

—— Step 18.—If we owe you a refund, show amount on line 26. On line 27 or 28, show whether you want some or all of the money refunded or credited to 1977 estimated tax. If line 26 is under $1, we will send you a refund only on written request.

—— Step 19.—Recheck Your Return. Go over all items and make sure they are right. Also check your arithmetic.

—— Step 20.—Sign and Date Your Return and Make Sure the Preparer (If any) Also Signs. It is not considered a return unless you sign it. Both you and your spouse must sign a joint return.

If the person who prepares your return for pay is not an employee of a firm, corporation or another individual, then that person must sign the return as preparer and enter his or her social security number and address.

If the person who prepares your return for pay is an employee of a firm, corporation or another individual, then that person must sign the return and also enter the employer's name, identification number, and address.

Note: *The law requires such tax return preparers to include their identifying number and to furnish you a copy of the return.*

If prepared by your regular, full-time employee, such as a clerk, secretary, or bookkeeper, your employee does not have to sign.

—— Step 21.—Attachments. Attach Forms W–2, or W–2P (copy B) to front of Form 1040. If you took an adjustment for disability income exclusion on line 15b be sure to attach Form 2440. Attach schedules in alphabetical order and forms other than W–2 or W–2P in numerical order to the back of Form 1040. If you owe tax, be sure to attach your payment to the front of Form 1040.

Note: *If you move after filing your return and you are expecting a refund, you should notify both the post office serving your old address and the service center where you filed your return, of your address change. This will help in forwarding your check to your new address as promptly as possible. Be sure to include your social security number in any correspondence with the IRS.*

Instructions for Page 1 of Form 1040

Filing Status

Decide How You Should File From the Explanations Below

Were You Married or Single?—If you were married on December 31, consider yourself married for the whole year. If you were single, divorced, or legally separated on December 31, consider yourself single for the whole year. If you were a "Married person living apart from your spouse" as described on this page, consider yourself single for the whole year.

If your spouse died during 1976, consider yourself married for the whole year.

Married Persons.—Should you file joint or separate returns?

Joint Return.—In most cases, married couples will pay less tax if they file jointly.

You and your spouse can file a joint return even if you did not live together for the full year. Both you and your spouse are responsible for any tax due on a joint return, so if one of you does not pay, the other may have to.

Special Election for Aliens.—You may elect to file a joint return with your spouse if, at the time of the election, you were a nonresident alien individual married to a citizen or resident of the United States; and you and your spouse agree to be taxed on your combined worldwide income.

If one spouse was a nonresident alien at the beginning of the taxable year and a resident of the United States on the last day of the taxable year and the other spouse was a citizen or resident of the United States at the close of the taxable year, you may elect to file a joint return if you both agree to be taxed on your combined worldwide income.

For more details, obtain **Publication 519, United States Tax Guide for Aliens.**

Things to Remember on a Joint Return.—Use the mailing label sent you with your return if it shows names and social security numbers of both you and your spouse. If it does not, or if you did not receive a label, show first names and middle initials of both. For example: John F. and Mary L. Doe. Enter social security numbers for both. Show all income, exemptions, and deductions of you and your spouse. Both of you must sign the return.

Separate Returns.—You can file separately if both you and your spouse had income or if only one of you had income. Both you and your spouse must figure your tax the same way. This means if one itemizes deductions, the other must itemize. If one takes the percentage standard deduction, the other must take the percentage standard deduction and cannot take the low-income allowance (this is $1,050 for a separate return). You each report only your own income, exemptions, and deductions, and you are responsible only for the tax due on your own return. If you and your spouse live in a community property State and both itemize deductions, those paid from joint funds can be divided equally between you. For more details, obtain **Publication 555, Community Property and the Federal Income Tax.**

Tax Savings.—Before you file a separate return, see if you can reduce your tax by meeting the tests described in "Were You Married and Living Apart From Your Spouse?" If so, use the Single filing status or, if you qualify, Unmarried Head of Household.

Things to Remember on a Separate Return.—Check the box on line 3, "Married filing separately." If both you and your spouse file separate returns, write your spouse's full name in the space provided on line 3 and enter spouse's social security number in the designated space.

If only one files, check the applicable boxes on lines 6a and 6e if you can claim the exemptions for your spouse. See instructions for Exemptions on this page. Only the one who had income should sign the return.

Were You Married and Living Apart from Your Spouse?—Some married people can file as Single or as Unmarried Head of Household and ignore the rules for married people filing separate returns. This means that you may be eligible to claim the earned income credit. It also means that if your spouse itemizes deductions, you do not have to. You can use the standard deduction if you want and your limit is $2,400 instead of the $1,400 allowed married persons filing separately. Both you and your spouse can file this way if both meet the tests.

You can file as a single person, and check the box on line 1 for Single, if you meet all of the following tests:

(1) You file a separate return.

(2) You paid more than half the cost to keep up your home for 1976.

(3) Your spouse did not live in your home at any time during 1976.

(4) For over six months of 1976, your home was the main home of your child or stepchild whom you can claim as a dependant.

You can check the box on line 4 for Unmarried Head of Household if your home in test (4) was the child's main home for all of 1976.

Were You an Unmarried Head of Household?—There are special tax rates for a person who can meet the tests for being an Unmarried Head of Household. See Tax Table and Tax Rate Schedule Z.

You may use unmarried head of household tax rates ONLY IF on December 31, 1976, you were single (including certain married persons living apart) or legally separated, AND met one of the following tests:

(1) You paid more than half the cost of keeping up a home which was the main home of your father or mother whom you can claim as a dependant (you did not have to live with that parent).

(2) You paid more than half the cost of keeping up your home which, except for temporary absences for vacation, school, etc., was lived in all year by one of the following:

(a) Your unmarried child, grandchild, foster child or stepchild. This person did not have to be your dependant.

Note: *If you are claiming the filing status of "Unmarried Head of Household" because of an unmarried child, grandchild, foster child or stepchild who is not your dependant, enter that person's name in the space provided on line 4.*

(b) Any other person listed in (5)(a) under "Lines 6b and 6c—Children and Other Dependents" on page 8, that you can claim as a dependant provided he or she is not your dependant under a multiple support agreement (this is where two or more taxpayers supported the relative and no one gave more than half the support).

Taxpayers married to nonresident aliens can qualify as unmarried head of household under certain circumstances. Consult an IRS office for further information, including information on limited standard deduction and how to figure your tax.

Were You a Qualifying Widow or Widower with a Dependent Child?—If so, you may still be able to use joint return tax rates for 1976. See Tax Table and Tax Rate Schedule Y.

If your spouse died during 1975 or 1974 and you did not remarry before the end of 1976, you can file a return for 1976 showing only your own income, exemptions, and deductions, and figure the tax at joint return rates if you meet all of the following tests:

(1) You could have filed a joint return with your spouse for the year your spouse died. Whether you actually filed jointly does not matter.

(2) You have a child or stepchild you can claim as a dependant.

(3) Your home was the main home of that child during 1976, except for temporary absences for vacation and school.

Check the box on line 5 "Qualifying widow(er) with dependent child" and give year of death in the parentheses. Do not claim an exemption for your spouse. You can claim the exemption only for the year your spouse died.

If your spouse died in 1976 and you did not remarry, read "Were You Married or Single?" on this page. If spouse died before 1974, read "Were You an Unmarried Head of Household?" on this page to determine if you qualify, otherwise you must file as Single.

Exemptions ($750 for Each Exemption You Can Take)

Lines 6a and 6e—You and Your Spouse.—

For You.—You can always take one exemption for yourself. Take two exemptions if you were blind, or are 65 or older. Take three if you were both blind and 65 or older. Be sure to check all the boxes for the exemptions you can take.

Age and blindness are determined as of December 31. However, if your 65th birthday was on January 1, 1977, you can consider yourself 65 on December 31, 1976.

You can take the age and blindness exemptions for you and your spouse if your spouse does not file a separate return. Do not take these exemptions for your children or other dependants.

Proof of Blindness.—If you are completely blind, attach a statement to this effect. In cases of partial blindness, submit with your return each year a statement from an eye physician or registered optometrist that you: (a) cannot see over 20/200 with glasses or (b) your field of view does not exceed 20 degrees. If, however, this eye condition will never improve beyond the standards in (a) or (b), you may submit a certified opinion to this effect from a skilled examining eye physician. You need to attach this certification only once to your return. In subsequent years attach only a statement referring to it.

For Your Spouse.—If you are filing a joint return, you can take an exemption for your spouse. If you file a separate return, you can take an exemption for your spouse only if your spouse had no income and was not the dependant of someone else.

The exemptions for your spouse are like your own—one, if your spouse was neither blind nor 65 or older—two, if blind or 65 or older—three, if both blind and 65 or older.

If your spouse died during 1976, check the boxes for the exemptions you could have taken for your spouse on the date of death.

Nonresident Alien Spouse.—If you did not elect to file a joint return, you may claim your spouse's exemptions only if your spouse had no income from United States sources and is not the dependent of another taxpayer. Use lines 6a and 6e to claim exemptions for a nonresident alien spouse. When claiming your spouse's regular exemption on line 6a, write "NRA" to the right of the line 6a.

Lines 6b and 6c—Children and Other Dependents.—Show on line 6b the first names and the total number of your dependent children who lived with you during 1976.

If you claim other dependents, complete columns (a) through (e) on line 7. Enter on line 6c the total number of dependents shown in line 7.

Each person you claim as a dependent has to meet all of the following tests:

(1) *Income.*—Received less than $750 income. (If your child [1] was under 19 or was a full-time student, ignore this test. See "Student Dependent.")

(2) *Support.*—Received over half his or her support from you or is treated as receiving over half of his or her support from you under rules for "Children of divorced or separated parents" or "Dependent supported by two or more taxpayers" on this page. If you file a joint return, the support can be from either spouse. See "Meaning of Support."

(3) *Married Dependents.*—Did not file a joint return with his or her spouse.

(4) *Citizenship or Residence.*—Was a citizen or resident of the U.S., a resident of Canada, Mexico, the Republic of Panama or Canal Zone, or an alien child adopted by and living with a U.S. citizen in a foreign country.

(5) *Relationship.*—Met one of the following tests:

(a) Was related to you in one of the following ways (If you file jointly, the dependent can be related to either you or your spouse)—

[1] Child	Stepbrother	Daughter-in-law
Stepchild	Stepsister	If related by blood:
Mother	Stepmother	
Father	Stepfather	Uncle
Grand-parent	Mother-in-law	Aunt
	Father-in-law	Nephew
Brother	Brother-in-law	Niece
Sister	Sister-in-law	
Grandchild	Son-in-law	

(b) Was a person who lived in your home as a member of your family for the whole year.

Meaning of Support.—Support includes things like food, a place to live, clothes, medical and dental care, and education.

Generally in figuring support, you use the actual cost of these things. But if you provide a place for the dependent to live, include it at fair rental value.

Support **DOES NOT** include things like purchase of an automobile, furniture or appliances, income and social security taxes, premiums for life insurance or funeral expenses for a deceased dependent.

In figuring who furnished over half of a dependent's support, include the dependent's own money used for his or her support, even if his or her money was not taxable. For example, include social security benefits, but if your child was a student, do not include amounts he or she received as scholarships

[1] Child includes:
Your son, daughter, stepson, stepdaughter.
A child who lived in your home as a member of your family if placed with you by an authorized placement agency for legal adoption.
A foster child who lived in your home as a member of your family for the whole year.

Student Dependent.—Even if your child had income of $750 or more, you can claim him or her as a dependent if he or she was a full-time student and met tests (2), (3), and (4) on this page.

To qualify as a student, your child had to meet one of the following tests:

(1) Was enrolled as a full-time student at an educational institution [2] during any 5 months of 1976, or

(2) took a full-time, on-farm training course during any 5 months of 1976. (The course had to be given by an educational institution [2] or a State, county, or local government agency.)

For more information, obtain **Publication 501**, Your Exemptions and Exemptions for Dependents.

Children of Divorced or Separated Parents.—In most cases, the parent who has custody of the child for the greater part of the year can take the exemption. But there are exceptions. The parent who does NOT have custody (or who has the child for the shorter time), may take the exemption if:

(1) that parent contributed at least $600 toward the child's support during 1976, and the decree of divorce or separate maintenance (or a written agreement between the parents) states he or she can take the exemption, or

(2) that parent contributed $1,200 or more for child support during 1976 (regardless of how many children), and the parent having custody cannot prove that he or she contributed more than the other parent contributed.

Note: *For purpose of determining the amount for child support, the parent who has remarried and has custody may count the support furnished by the new spouse.*

Dependent Supported by Two or More Taxpayers.—If two or more taxpayers supported a person and no one gave more than half the support, obtain **Form 2120.**

Birth or Death of Dependent.—Take a $750 exemption for a dependent who died or was born during 1976 if he or she met the tests for a dependent for the time he or she lived.

Line 8—Presidential Election Campaign Fund.—You may designate $1 of your tax to the fund by checking the "Yes" box on line 8. On a joint return, the election to designate or not designate is available to both spouses. Both may elect to designate $1 each for a total of $2. Both may elect not to designate. One may elect to designate $1 and the other choose not to. If you check the "Yes" box(es), it will not increase your tax or reduce your refund.

Note: *If you check a "Yes" box, you may not change that designation after a return is filed. However, if you check a "No" box but after you file your return you wish to designate $1, you may change your designation to "Yes" by filing an amended return on or before December 31, 1978. You may use Form 1040X, Amended U.S. Individual Income Tax Return.*

[2] Educational institution means a school that has a regular teaching staff, course of study, and body of students in attendance. It includes elementary schools, junior and senior high schools, colleges, universities, technical and mechanical schools. It also includes a night school in which the student is enrolled for the number of hours or classes that is considered full-time attendance at a similar day school. It does not include on-the-job training courses, correspondence schools, etc.

What Income To Report

Examples of Income You Must Report.—

Wages including employer supplemental unemployment benefits, salaries, bonuses, commissions, fees, and tips.
Dividends.
Earned income from sources outside U.S. (See Form 2555 and note below.)
Earnings (interest) from savings and loan associations, mutual savings banks, credit unions, etc.
Interest on tax refunds.
Interest on bank deposits, bonds, notes.
Interest on U.S. Savings Bonds.
Interest on arbitrage bonds issued after Oct. 9, 1969, by State and local governments.
Profits from businesses and professions.
Your share of profits from partnerships and small business corporations.
Pensions, annuities, endowments, including lump-sum distributions.
Supplemental annuities under the Railroad Retirement Act (but not regular Railroad Retirement Act benefits).
Profits from the sale or exchange of real estate, securities, or other property.
Sale of personal residence. (See Instructions for Schedule D.)
Recapture of depreciation on disposition of depreciable residential real estate and other property. (See Instructions for Form 4797.)
Recapture of intangible drilling and development costs of oil and gas properties. (See Instructions for Form 4797.)
Rents and royalties.
Your share of estate or trust income, including accumulation distribution from trusts.
Alimony, separate maintenance or support payments received from and deductible by your spouse or a former spouse.
Prizes and awards (contests, raffles, etc.).
Refunds of State and local taxes (principal amounts) if they were deducted in a prior year and resulted in tax benefits.
Fees received for jury duty and precinct election board duty.
Fees received as an Executor, Administrator, or Director.
Embezzled or other illegal income.

Note: If you were a bona fide resident of a foreign country for an uninterrupted period of one year or more, or were physically present in a foreign country for a total of at least 510 days during any period of 18 consecutive months, you can exclude up to $15,000 of your earned income from foreign sources by filing Form 2555. However, if you elect not to exclude such earned income, attach a statement to your timely filed return stating that you elect not to have the exclusion apply. Once made the election cannot be changed except with consent of the Commissioner.

Examples of Income You Do Not Report.—

Disability retirement payments and other benefits paid by the Veterans Administration.
Dividends on veterans' insurance.
Life insurance sums received at a person's death.
Workmen's compensation, insurance, damages, etc., for injury or sickness.
Interest on certain State and municipal bonds.
Federal social security benefits.
Gifts, money or other property you inherited or that was willed to you.
Insurance repayments that were more than the cost of your normal living expenses if you lost the use of your home because of fire or other casualty. Repayments of the amount you spent for normal living expenses must be reported as income.

Line 9—Wages, Salaries, Tips, etc.—Show the total of all wages, salaries, fees, commissions, tips, bonuses, and other amounts your employers paid you before they took out for taxes, insurance, etc. Include in this total:

(1) The amount shown on Form W-2 in the box "Wages, Tips and Other Compensation" in 1976.

(2) Tips you did not report to your employer (Show any social security tax due on these tips on line 59—instructions for this are on page 12).

(3) Wages you received but do not have a Form W-2 for.

(4) Certain disability retirement income if you are under age 65. (See instructions for Schedule E under "Disability Pension and Annuity Payments.")

(5) Fair market value of meals and living quarters if given by your employer as a matter of your choice and not for your employer's convenience. If your employer provided meals where you worked for your employer's convenience, do not report their value. Do not report the value of living quarters if you had to accept them as a condition of employment.

(6) Strike and lockout benefits paid by a union from union dues, including both cash and the fair market value of goods received, unless the facts clearly show that such benefits were intended as a gift.

Obtain **Publication 525**, Taxable Income and Nontaxable Income, for more information on reporting income received in the form of goods, property, meals, stock options, etc.

If your employer paid you more than you spent for business expenses, see the instructions for Reporting Deductions and Excess Payments on page 11.

Line 10a—Dividends.—For explanation of dividend income, see instructions for Schedule B on page 16. If you received $400 or less in dividends and other distributions, show the amount after subtracting nontaxable distributions and capital gain distributions, on line 10a. You do not need to list them on a separate schedule.

If you received more than $400, fill in Schedule B and list names of all payers and amounts received. The note below tells you whether you need to complete Schedule O. Show on Form 1040, line 10a, the total dividends received (this is gross dividends less capital gain distributions and any nontaxable distributions).

Note: *If you received capital gain distributions and do not need Schedule O to report any other gains or losses or to figure the alternative tax, do not fill in that schedule. Instead, show 50% of your capital gain distributions on Form 1040, line 30b.*

Line 10b—Exclusion.—For explanation of dividends exclusion see instructions on page 16.

Line 11—Interest Income.—For explanation of interest income, see page 16. If you received $400 or less in interest, show the total amount on this line. You do not need to fill in a separate schedule.

If you received over $400, fill in Schedule B and list names of all payers and amounts received. Then show the total amount on Form 1040, line 11.

Line 15b—Disability Income Exclusion (Sick Pay).—Before 1976, an employee was able to take a "sick pay" exclusion when the employee was absent from work on account of sickness or injury. The new "disability income exclusion" applies ONLY IF you are under age 65, have not attained mandatory retirement age at the beginning of your taxable year, and were permanently and totally disabled when you retired (or were permanently and totally disabled on January 1, 1976, if you retired before that date on disability or under circumstances which entitled you to retire on disability). If you qualify, you may be able to exclude up to $100 a week of your pension, or you may elect not to exclude your disability income and treat it as a pension or annuity. Once made, this election cannot be changed.

On a return where one taxpayer is entitled to the disability income exclusion, the maximum exclusion is $5,200. On a joint return where both spouses are entitled to the disability income exclusion, the maximum exclusion is $10,400.

You must reduce the disability income exclusion by the excess of your adjusted gross income before the exclusion (line 15a) over $15,000. On a return where only one taxpayer is entitled to the maximum disability income exclusion, the exclusion would be phased out entirely if the amount on Form 1040, line 15a, is $20,200 or more. On a joint return where both spouses are entitled to the maximum disability income exclusion, the exclusion would be phased out entirely if the amount on Form 1040, line 15a, is $25,400 or more.

For information on how to figure your exclusion or to make the election not to claim your exclusion, obtain **Form 2440** and **Publication 522**, Tax Information on Disability Payments.

Enter the amount of your disability income exclusion on line 15b and attach Form 2440.

Tax—Credits—Payments

Should You Use the Standard Deduction or Itemize Your Deductions?

You must decide whether to take the standard deduction or to itemize your actual deductions for charitable contributions, medical expenses, interest, taxes, etc. Because the standard deduction varies at different income levels, it will generally be helpful to follow these guidelines to help you determine whether to use the standard deduction or itemize.

If you are:

▶ Married filing jointly or a qualifying widow(er) with dependent child, you should itemize deductions if your income on line 43 of Form 1040 is:
- less than $13,125 and your itemized deductions total more than $2,100.
- between $13,125 and $17,500 and your itemized deductions total more than 16% of line 43.
- over $17,500 and your itemized deductions total more than $2,800.

▶ Married filing separately:
- Divide the dollar amounts specified for joint returns in half and be sure to use only the total of your own deductions.

Caution: *If one spouse itemizes deductions to figure tax, both must itemize deductions.*

If you do not itemize deductions, choose either the low-income allowance ($1,050) or percentage standard deduction (16% of line 43 but not more than $1,400). But if one uses the percentage standard deduction, both must use it.

▶ Single or Unmarried Head of Household, you should itemize deductions if your income on line 43 of Form 1040 is:
- less than $10,625 and your itemized deductions total more than $1,700.
- between $10,625 and $15,000 and your itemized deductions total more than 16% of line 43.
- over $15,000 and your itemized deductions total more than $2,400.

▶ Dual-Status Alien, you may have to itemize deductions. See "Dual-Status Tax Year" instructions on page 4.

Line 16—Tax.—

How to Figure Your Tax If You Itemize Deductions

Fill in Schedule A, check the box on line 44a, and enter your total deductions on line 44. Fill in lines 45, 46, and 47.

If line 47 is $20,000 or less, find your tax in Tax Table and enter tax on line 16.

If line 47 is more than $20,000, use Tax Rate Schedule X, Y, or Z to figure your tax and enter tax on line 16.

How to Figure Your Tax if You Take the Standard Deduction

Check the box on line 44b and enter on line 44 the appropriate amount you determined for your filing status

▶ If you checked the box on line 2 or 5 and line 43 is:
- Less than $13,125, enter $2,100.
- $13,125 or more, but less than $17,500, enter 16% of line 43.
- $17,500 or more, enter $2,800.

▶ If you checked the box on line 1 or 4 and line 43 is:
- Less than $10,625, enter $1,700.
- $10,625 or more, but less than $15,000, enter 16% of line 43.
- $15,000 or more, enter $2,400.

▶ If you checked the box on line 3 and line 43 is:
- Less than $6,562.50, enter $1,050.
- $6,562.50 or more, but less than $8,750, enter 16% of line 43.
- $8,750 or more, enter $1,400.

Fill in lines 45, 46, and 47. (If you checked the box on line 43 and did not itemize deductions, see Substitute Instruction below.)

If line 47 is $20,000 or less, find your tax in Tax Table and enter tax on line 16.

If line 47 is more than $20,000, use Tax Rate Schedule X, Y, or Z to figure your tax and enter tax on line 16.

Substitute Instructions if You Checked the Box on Line 43 and Did Not Itemize Deductions

If you can be claimed as a dependent on your parent's return and line 43 includes income other than earned income (see "Earned Income" on this page) and if you do not itemize deductions, substitute the following instructions for line 44b.

Check the box on line 44b and enter on line 44 the larger of (1) or (2):

(1) 16% of that part of line 43 that is attributable to earned income but not more than $2,400 if single, or $1,400 if married filing separately, or

(2) $1,700 if single, or $1,050 if married filing separately, but no more than your earned income included in line 43.

"Earned income" means wages, salaries, professional fees, etc., for personal services rendered. It does not include compensation for your services that was a distribution of earnings and profits other than a reasonable allowance for your work for a corporation. If you were engaged in a business in which both personal services and capital were material income-producing factors, consider as earned income for personal services rendered, an amount not in excess of 30% of your share of net profits of the business.

Line 36—Other.—Use this line to report and tell the source of any income you cannot find a place for on your return or other schedules. Include prizes, awards, and amounts you recovered for bad debts, medical expenses or other items that reduced your tax in a prior year.

Also you must report gross lottery and gambling winnings as income on line 36. Lottery and gambling losses can be taken as an itemized deduction only on Schedule A. However, such losses are limited to the amount of winnings reported.

Generally, self-employment income must be reported on Schedule C (Form 1040) or Schedule F (Form 1040). However, if you received self-employment income such as directors' fees and you did not incur any expenses with respect to this income, you may enter the total amounts received here and on Schedule SE (Form 1040), line 5(a).

Net Operating Loss.—If you lost money in a trade or business in 1976, you can subtract the loss from your 1976 income. (The loss can also be from a personal casualty or theft loss or from selling or disposing of real or depreciable property used in your trade or business.)

If your losses were more than your income, the difference may result in a "net operating loss." Generally, you can use it to reduce your income for the three years before 1976 and the seven years after, **OR YOU MAY ELECT** to use it to reduce your income for the seven following years. If you decide to carry back the loss and are due a refund from the "carryback," you may use Form 1045 to get a quick refund. BUT if you elect to carry the loss forward instead, attach a statement to this effect on a timely filed return (including extensions). If you make such an election for 1976, it cannot be changed later.

If you had a loss in a prior year to carry forward to 1976, enter it as a "minus" figure on line 36. Attach a separate sheet showing how you figured the amount.

PART II.—Adjustments to Income

Line 38—Moving Expense.—Employees, including new employees, and self-employed persons, including partners, can deduct certain moving expenses. The move had to be in connection with your job or business. The expenses you can deduct include the cost of moving your family, furniture and other household goods, and personal belongings. You can also deduct meals and lodging while traveling to your new home.

Up to a certain amount, you can also deduct for: (1) Travel, meals, and lodging for househunting trips you made after getting the job and before you moved. (2) Meals and lodging while in temporary quarters in the general area of your new place of work, for up to 30 days after you got the job. (3) Expenses for selling, buying, or leasing your new or old home.

For more information and special rules applicable to military personnel, obtain **Form 3903** and **Publication 521**, Tax Information on Moving Expenses.

If you find you can deduct moving expenses, fill in Form 3903. Also, include on Form 1040, line 9, all amounts you were paid or repaid for moving expenses. (If you were employed, these amounts should be included on Form 4782 and in total wages, tips and other compensation on the Form W-2 your employer gave you.) Then show your allowable expenses on line 38.

Line 39—Employee Business Expenses (and Employer Payments).—

Deductible Expenses and Excess Payments.—You can deduct the following expenses that were not paid by your employer.

(1) Travel and Transportation.—You can deduct bus, taxi, plane, or train fares or the cost of using your car in your work.

If you use your own car for business reasons, you can deduct what it cost you for business use. Instead of figuring your actual expenses such as gas, oil, repairs, license tags, insurance, and depreciation, you can take a fixed mileage rate.

This is figured at 15 cents a mile for the first 15,000 miles and 10 cents for each mile over 15,000. Add to this amount your parking fees and tolls.

For automobiles that have been or are considered fully depreciated, the standard mileage rate is 10 cents a mile for all business mileage.

You can change methods of figuring your cost from year to year. But you cannot change to the fixed mileage rate if you claimed depreciation and did not use the straight line method, or if you claimed additional first-year depreciation.

(2) Meals and Lodging.—You can deduct these if you were temporarily away on business at least overnight from the general area of your main place of work. You cannot deduct the cost of meals on daily trips where you did not need to sleep or rest.

(3) Outside Salesperson.—In addition to the above, an outside salesperson can generally deduct other expenses necessary in sales work. For example, selling expenses, stationery, and postage. An outside salesperson is one who does all selling away from employer's place of business. If your main duties are service and delivery, such as a milk driver-salesperson, you are not considered an outside salesperson.

(4) Other Business Expenses.—If you itemize deductions on Schedule A, you can also deduct other business expenses under the heading "Miscellaneous deductions." Examples of these expenses are dues to unions and professional organizations and the cost of tools, materials, etc., that your employer did not pay for.

New limitations apply to deductions relating to the use of your home for business purposes. Under these rules, you must use a portion of your home as an office exclusively on a regular basis in connection with your employer's trade or business and for the convenience of your employer to be able to deduct the expenses allocable to that portion.

If you paid part of an expense and your employer paid part, you can deduct the amount you paid. If your employer paid you more than you spent, report the difference as income. (See instructions for Reporting Deductions and Excess Payments on this page.)

If you claim a deduction for business expenses, attach **Form 2106** showing the following: (a) The total of all amounts received from or charged to your employer and nature of your occupation. (b) The amount of your business expenses broken down into broad subjects. (c) The number of days away from home on business.

Even if you do not claim a deduction for your business expenses, you must attach the above information to your return unless you were required to, and did make a satisfactory accounting of them to your employer.

You are considered to have made a satisfactory accounting if:

(a) You received either a daily allowance of no more than $44 instead of actual living expenses or the maximum per diem rate authorized to be paid by the Federal Government in the locality in which the travel is performed, or a mileage allowance of no more than 15 cents a mile. However, an employer may grant an additional allowance for parking fees and tolls attributable to the traveling and transportation expenses as separate items.

(b) Your expenses were necessary to carry out your employer's trade or business, and you gave your employer proof of the time, place, and business reason of the travel.

For more information, obtain **Publication 463**, Travel, Entertainment, and Gift Expenses.

Reporting Deductions and Excess Payments.—Report expenses and payments as follows.

(1) If your employer paid you more than you spent, report the difference on line 36, under "Other."

(2) If you spent more than your employer paid you for travel and transportation, meals and lodging, and outside salesperson expenses, you can deduct the difference on line 39. If you itemize deductions and had other business expenses your employer did not pay for, you can deduct them under "Miscellaneous deductions" on line 32 of Schedule A.

(3) If your expenses equaled the payments you received (or were more than the payments but you do not want to claim a deduction for the difference), write on the bottom margin of page 2, Form 1040, "Employer payments were not more than my business expenses."

Note: *If your Form W-2 includes amounts your employer paid you for business expenses, attach Form 2106. (See instructions for Deductible Expenses and Excess Payments.) Include your total expenses on line 39.*

Lines 40a and 40b—Payments to a Retirement Plan or Arrangement.—To support deductions, file the following applicable forms.

(1) Line 40a—Enter the allowable deduction as shown on Form 5329, Part III. Married persons, both of whom qualify for the deduction, and who file a joint return, should attach a Form 5329 for each spouse and enter the combined deductions on line 40a.

Individuals who have an individual retirement account or annuity, must attach Form 5329 whether or not a contribution was made in the year. Also, attach Form 5498 to Form 5329, except for individual retirement bonds.

Caution: *If you fail to file Form 5329 by the due date, without reasonable cause, you will be subject to a penalty of $10 a day, for each day it is not filed. The penalty cannot exceed $5,000.*

(2) Line 40b—Enter the allowable deduction for contributions to your Keogh (H.R. 10) plan.

Sole proprietors who have Keogh (H.R. 10) plans should file Form 5500 if there are 100 or more participants in the plan, or Form 5500-K if there are fewer than 100 participants in the plan.

Partners are not required to file returns for Keogh plans in which they participate. However, partnerships are required to file Form 5500 if there are 100 or more partici-

Other Ways to Figure Your Tax for Line 16

Schedule G, Income Averaging.—It may be advantageous to use the "averaging method" if after subtracting $3,000 from your 1976 taxable income (line 47), the balance is over 30 percent of the total of your taxable income for the last four years (1972 through 1975). If you use this method, fill in Schedule G. For more information, obtain **Publication 506**, Computing Your Tax Under the Income Averaging Method.

Schedule O. Alternative Tax.—It may be advantageous to use the alternative tax if you have a net long-term capital gain, or if your net long-term capital gain was more than your net short-term capital loss. See Alternative Tax Computation on Schedule D. If you use this method, fill in Schedule D.

Form 4726, Maximum Tax on Earned Income.—The tax on earned taxable income is limited to a maximum rate of 50 percent. Obtain Form 4726 for more information if your earned taxable income was over:

- $38,000 and you are single,
- $52,000 and you are married filing jointly or are a qualifying widow(er) with dependent child, or
- $38,000 and you claim unmarried head of household status.

Form 2555, Exemption of Income Earned Abroad.—If you decided to exclude earned income from sources outside the United States, you must figure your tax on Form 2555.

Additional Taxes to be Included in Line 16

Include in amount on line 16 any partial tax from:

Form 4970, Tax on Accumulation Distribution of Trusts,

Form 4972, Special 10-Year Averaging Method,

Form 5544, Multiple Recipient Special 10-Year Averaging Method, **OR**

Form 5405, Part II, Recapture of Credit for Purchase or Construction of New Principal Residence.

Line 17c—General Tax Credit.—Reduce your tax shown on line 16 by the greater of (1) $35 times the number of exemptions shown on line 6d or (2) 2% of your taxable income (line 47) but not more than $180 ($90, if married, filing separately).

Enter on line 17c the amount from line 17a or line 17b, whichever is greater. **Note:** *If you show 6 or more exemptions on line 6d, the amount on line 17a will be greater.*

Caution: *Married persons filing separate returns may choose the amount on either line 17a or line 17b. But if one uses line 17b (2% of line 47, limited to $90) both must use it.*

Line 23a—Federal Income Tax Withheld.—Enter the total income tax withheld as shown on your Forms W-2 or W-2P.

Line 23b—Estimated Tax Payments.—Enter on this line any payments you made on your estimated Federal income tax for 1976.

If you and your spouse filed a joint declaration of estimated tax for 1976 but decide to file separate income tax returns for 1976, either of you can claim all the estimated tax paid. Or, you can each claim part in whatever amounts you agree to. Be sure to show the social security numbers of both on the separate returns.

If you and your spouse filed separate estimated tax declarations for 1976 but decide to file a joint income tax return for 1976, enter on this line the total of the amounts paid on your separate declarations. Be sure to show both social security numbers on your joint return.

Follow the above instructions even if your spouse died.

If you were divorced during 1976 and you filed a joint Form 1040-ES (Estimated Tax Declaration) with your former spouse, please enter your former spouse's social security number in the spouse's social security box on your return. Also, enter in the upper right corner of the return, near the boxes for the social security numbers, "DIV.". If you were divorced and remarried in 1976, enter your present spouse's social security number in the box and enter "DIV." and your former spouse's social security number in the upper right corner of the return near the boxes.

Line 23d—Extension of Time to File 1976 Return.—If you filed an application to request an automatic 2-month extension of time to file Form 1040 for 1976, enter the amount paid with Form 4868 on this line.

Line 25—Balance Due.—In most cases, people who have income tax withheld from their wages will find that the amount withheld will be fairly close to their tax for the year. Sometimes it is not, and this is more likely to happen if both you and your spouse worked.

If you find that you need more income tax withheld for 1977, you can file a new Form W-4 or Form W-4P. Or you can ask your employer to withhold more money. If you prefer, you can file a Declaration of Estimated Tax on Form 1040-ES and make installment payments. For more information, obtain **Publication 505**, Tax Withholding and Declaration of Estimated Tax.

Penalties and Interest

Avoid penalties and interest by correctly filing and paying tax when due. The law provides a penalty of from 5 percent to 25 percent of the tax for late filing unless you can show reasonable cause for the delay. If you file a return late, send a full explanation with your return.

Penalties are also provided for late payment of tax unless you can show reasonable cause for the delay.

Taxes Not Paid When Due—The penalty for failure to pay taxes when due is ½ of 1 percent of the unpaid amount for each month or part of a month it remains unpaid—up to 25 percent of the unpaid amount. The penalty applies to any unpaid tax shown on a return. It also applies to any portion of additional tax shown on a bill if it is not paid within 10 days from the date of the bill. This penalty is in addition to the applicable interest charge on late payments.

Penalty for Not Paying Enough Tax During the Year.—If you underpaid any installment of your 1976 estimated tax liability by more than 20 percent (33⅓ percent for farmers and fishermen), you may owe a penalty unless you meet one or more of the exceptions explained on Form 2210 (Form 2210F for farmers and fishermen). Attach this form to your return to show how you figured the penalty or which exceptions you believe you meet.

If you attach Form 2210 or 2210F, check the box between lines 25 and 26. If you owe a penalty, show the amount in the bottom margin on page 1 of Form 1040 and write "Penalty—estimated tax." If you owe tax on line 25, include the penalty amount in with your total. Or, if you are due a refund, subtract the penalty amount from overpayment on line 26.

Line 28—Overpayments Credited to 1977 Estimated Tax.—We will apply amounts you want credited to estimated tax to an account under your social security number, unless you attach a request to apply it to your spouse's account. The request should include the social security number of your spouse if it is not shown on the return.

Declaration of Estimated Tax

In general, a declaration is not required to be filed if you expect that your 1977 Form 1040 will show (1) a tax refund, **OR** (2) a tax balance due to be paid to IRS of less than $100.

Citizens of the United States or residents of the United States, Puerto Rico, Virgin Islands, Guam and American Samoa must make a declaration of estimated tax if their total estimated tax is $100 or more and they:

(1) Can reasonably expect to receive more than $500 from sources other than wages subject to withholding; or,

(2) Can reasonably expect gross income to exceed—

- (a) $20,000 for a single individual, a head of a household, or a widow or widower entitled to the special tax rates;
- (b) $20,000 for a married individual entitled to file a joint declaration with spouse, but only if the spouse has not received wages for the taxable year;
- (c) $20,000 for a married individual living apart from spouse as described on page 7;
- (d) $10,000 for a married individual entitled to file a joint declaration with spouse, but only if both spouses received wages for the taxable year;
- (e) $5,000 for a married individual not entitled to file a joint declaration with spouse.

See Form 1040-ES for details.

Instructions for Page 2 of Form 1040

PART I.—Income Other Than Wages, Dividends, and Interest

Line 30b—50% of Capital Gain Distributions.—*If you do not need Schedule D to report any other gains or losses or to figure the alternative tax, do not fill in that schedule. Instead, show 50% of your capital gain distributions on line 30b.*

Line 32b—Fully Taxable Pensions and Annuities.—See Instructions for Schedule E for information on pensions and annuities.

Use this line to report: (1) Pensions and annuities if you paid no part of their cost. (2) Military retirement pay from Form W-2P. (3) Amounts received as annuity under the special rule (see Instructions for Schedule E) if you recovered your entire cost before January 1, 1976.

Line 34—State Income Tax Refunds.—Show only that part of refund of State income tax attributable to itemized deductions taken in a prior year that resulted in a Federal tax benefit. Do not offset this amount against your deduction for current year taxes.

Line 35—Alimony Received.—Show amounts you received as alimony or separate maintenance. For more information, obtain **Publication 504**, Tax Information for Divorced or Separated Individuals.

pants in the plan, Form 5500–C if there are fewer than 100 participants in the plan none of whom is an owner employee, or Form 5500–K if there are fewer than 100 participants in the plan and at least one participant is an owner employee.

Forms 5500, 5500–C and 5500–K with attachments, if any, should be filed on or before the last day of the seventh month following the close of your taxable year. Do not attach any of the 5500 series forms to your Form 1040 or 1065.

Line 41—Forfeited Interest Penalty for Premature Withdrawal.—You can deduct a forfeited interest penalty for premature withdrawal from a time savings account on this line. Enter the amount of forfeiture shown on your Form 1099–INT here. Note: Be sure to include the gross amount of 1976 interest income in line 11.

PART III.—Tax Computation

See instructions for line 16 on page 9

PART IV.—Credits

Line 48—Credit for the Elderly.—A new expanded and simplified credit for the elderly has replaced the former more complex retirement income credit

You may be able to claim this credit and reduce your tax by as much as $375 (if single), or $562 50 (if married filing jointly), if you are:

(1) Age 65 or older, OR
(2) Under age 65 and retired under a public retirement system.

To be eligible for this credit, you no longer have to meet the income requirement of having received over $600 of earned income during each of any 10 years before this year.

For more information, see instructions for Schedules R and RP

Line 49—Credit for Child Care Expenses.—Certain payments made for child and dependent care may now be claimed as a credit against tax instead of as an itemized deduction.

If you maintain a household that included a child under age 15 or a dependent or spouse incapable of self-care, you may be allowed a 20% credit for employment related expenses These expenses must have been paid during the taxable year in order to enable you to work either full or part time.

For detailed information, see the instructions for Form 2441 on page 17

Line 50—Investment Credit.—For conditions under which you can take an investment credit, obtain **Form 3468.**

Line 51—Foreign Tax Credit.—If you paid income tax to a foreign country or U S possession, obtain **Form 1116** to see if you can claim a credit.

Line 52—Credit for Contributions to Candidates for Public Office, etc.—You may claim a tax credit here or an itemized deduction on Schedule A, line 32, but you cannot claim both, for contributions to candidates for public office and political committees and to newsletter funds of candidates and elected public officials. **Publication 585,** Voluntary Tax Methods to Help Finance Political Campaigns, explains the circumstances under which a deduction or credit for a contribution is more advantageous

If you elect to claim a credit, the amount of the credit is one-half of the political contributions paid but not more than $25 ($50 if married and filing a joint return). Do not enter more than the amount on line 18 reduced by the amount of credits on lines 48, 50, and 51. Make a side calculation before you enter the credit here.

Line 53—Credit for Wages Paid or Incurred in Work Incentive (WIN) Program.—Business employers may claim a credit of 20% of the salaries and wages paid or incurred to employees hired under a Work Incentive (WIN) Program. The credit is allowed for salaries and wages paid or incurred in the first 12 months of employment

Employers may also claim a credit of 20% of salaries and wages paid for business or nonbusiness employment of certain Federal welfare recipients. For nonbusiness employers, this credit is limited to $1,000 for each employee See Form 4874.

Credit for Purchase of New Principal Residence.—You may be able to claim a credit of 5% of the purchase price of your new principal residence that was constructed or being constructed before March 26, 1975, which was acquired and occupied after March 12, 1975, and before January 1, 1977, and which was acquired under a binding contract entered into before January 1, 1976. The maximum credit is $2,000. See Form 5405. Include the amount of credit from Form 5405, in your total for line 54. On the dotted line to the left of the line 54 entry space, write "5405 Credit," and show the amount.

PART V.—Other Taxes

Line 55—Tax from Recomputing Prior Year Investment Credit.—Enter the difference between the credit taken in a prior year and the credit you refigured due to disposing of the property early Attach **Form 4255.**

Line 56—Minimum Tax.—More people will be liable for the minimum tax this year because the new law added new tax preference items, increased the minimum tax rate from 10 percent to 15 percent, and reduced the minimum tax exemption from $30,000 ($15,000 if married filing separately) plus the regular income taxes for the year, to the greater of $10,000 ($5,000 if married filing separately) or one-half of the regular income taxes for the year.

The new tax preference items are (1) excess itemized deductions (generally the amount by which your itemized deductions as adjusted exceed 60 percent of your adjusted gross income) and (2) excess intangible drilling and development costs paid or incurred in connection with certain oil and gas wells.

Other tax preference items are accelerated depreciation on real property and leased personal property; amortization of certified pollution control facilities, railroad rolling stock, on the job training facilities and child care facilities; stock options; reserve for losses on bad debts of financial institutions; depletion; and capital gains.

You must attach Form 4625 if you have items of tax preference of more than $10,000 ($5,000 if married filing separately), even if there is no minimum tax, OR if you have any minimum tax liability deferred from a prior taxable year until this year

Line 57—Tax on Premature Distributions from Individual Retirement Arrangements.—Enter any tax due as shown on Form 5329, Part V

Line 58—Self employment Tax.—Enter amount shown on Schedule SE, line 18

Line 59—Social Security Tax on Tip Income Not Reported To Employer.—If you received tips (cash or charge) of $20 or more in any month and you did not report them to your employer, you must pay the social security or railroad retirement tax on those unreported tips with your Form 1040. To determine the amount of social security tax on unreported tips for which you are liable, you must file Form 4137 with your Form 1040. Enter on line 59 (Form 1040) the amount of tax shown on line 10 (Form 4137).

To determine the amount of railroad retirement tax on unreported tips for which you are liable, contact your nearest Railroad Retirement Board office Enter the tax as determined on line 59 and write on the dotted line to the left of the entry space for line 59 "RR tax on tips"

Be sure all your cash and charge tips, regardless of the amount, are included as income on Form 1040, line 9.

Line 60—Uncollected Employee Social Security Tax on Tips.—If you did not have sufficient wages to cover the social security or railroad retirement taxes due on tips you reported to your employer, the amount of tax due will be shown on your Form W–2. Enter that amount on line 60.

Line 61—Excess Contribution Tax on Individual Retirement Arangements.—Enter any tax due as shown on Form 5329, Part IV.

Tax on Undistributed Individual Retirement Accounts and Annuities.—In the year you reach age 70½ and any succeeding year, you may be liable for tax on the undistributed funds in your individual retirement account or annuity if (1) you do **NOT** receive any distribution during the year or (2) you receive distributions which are **NOT** approximately equal payments over certain periods of time. Include the amount of tax from Form 5329, Part VI, in your total for line 62. On the dotted line to the left of the line 62 entry space, write "4974 Tax," and show the amount.

Tax from Recomputing a Prior Year Work Incentive (WIN) Credit.—If a WIN employee is dismissed after October 3, 1976, but within the first 90 days of employment (whether or not consecutive) or before the end of the 90th calendar day after the day in which such employee completes 90 days of employment, you must repay (with certain exceptions) any tax credit previously taken on the salaries and wages paid or incurred to that employee However, if a WIN employee was dismissed before October 4, 1976, substitute "12 months" for the above "90 day" term. See Form 4874.

The tax from recomputing a prior year (WIN) credit may not be offset against the current year's (WIN) credit Include this amount of tax in your total for line 62. On the dotted line to the left of the line 62 entry space, write "WIN Tax," and show the amount.

Tax on Premature or Excess Distributions from a Retirement Plan.—If you are or were an owner-employee and received income resulting from a premature or excessive distribution from a Keogh (H.R 10) plan or trust, you are subject to a 10 percent additional tax Enter any additional tax due above the line 55 entry space and be sure to include it in the total for line 62. Also write "72(m)(5) Tax" to the left of the entry and attach a statement showing computation.

A distribution is premature if received

by an owner-employee before attaining the age of 59½ or becoming disabled. If you received amounts in excess of the benefits provided under the plan formula, the distribution is excessive.

Excess Credits Which May be Used Against Tax on Premature Distributions from Keogh (H.R. 10) Plan.—If Form 1040, line 20 is zero, you may be able to claim the unused portion of a general tax credit, credit for the elderly, credit for child care expenses, contributions to candidates for public office credit, or the purchase of new principal residence credit against this tax. If you apply any unused credit against this tax, reduce the tax (but not below zero) by the amount of such unused credit and identify the credit(s) on a statement.

PART VI.—Other Payments

Line 63—Excess FICA, RRTA, or FICA/RRTA Tax Withheld—More Than One Employer.—

If you had more than one employer in 1976 and together they paid you more than $15,300 in wages, too much social security (FICA) tax, railroad retirement (RRTA) tax, or combined FICA and RRTA tax may have been taken out of your wages. If too much was withheld, you may be able to take credit for it against your income tax. Use the following steps to figure your credit. If you are filing a joint return, you have to figure this separately for you and your spouse. If you are a railroad employee and you claim the credit, attach a statement from your employer showing the amount of employee RRTA compensation and amount of RRTA tax withheld.

Step 1. (a) Add all FICA and RRTA tax withheld by employers from your wages for 1976.* Enter the total here . .	$
(b) Add all uncollected FICA or RRTA tax on tips, if any. Enter the total here . . .	
Step 2. Add (a) and (b)	$
Step 3. Subtract	895.05
Step 4. Enter this amount on Form 1040, line 63	$

*Note: Do not include more than $895.05 for any one employer. If any one employer withheld more than $895.05, ask the employer to refund the excess to you. You cannot take credit for it on your return.

Line 64—Credit for Federal Taxes on Special Fuels, Nonhighway Gasoline and Lubricating Oil.—Enter on this line any tax credit you can take for:

(1) Gasoline used—
  (a) on a farm for farming use.
  (b) in vehicles and machines used off the highway, such as in boats and, generally, in commercial aircraft,
  (c) in vehicles furnishing certain public transportation by land.

(2) Lubricating oil used for any purpose other than in a highway motor vehicle.

(3) Special fuels used—
  (a) on a farm for farming use.
  (b) in vehicles furnishing certain public transportation by land.
  (c) generally, in commercial aviation or under other conditions not subject to tax.

Attach **Form 4136.** For more information, obtain **Publication 225,** Farmer's Tax Guide, or **Publication 378,** Federal Fuel Tax Credit or Refund for Nonhighway and Transit Users.

Line 65—Credit for Taxes Paid by Regulated Investment Companies.—Enter credit here. Attach **Copy B of Form 2439.**

Instructions for Schedule A (Form 1040)

Itemized Deductions

If your itemized deductions are more than 60% of line 15c of Form 1040 the excess may be considered an item of tax preference and you may be subject to the minimum tax. See **Form 4625,** Computation of Minimum Tax.

(See the instruction on page 9, "Should You Use the Standard Deduction or Itemize Your Deductions?")

Medical and Dental Expenses

If you decide to itemize your deductions, you can deduct one-half (up to $150) of the amount you paid for medical care insurance even if you have no other medical expenses.

If you had payments for medicines, doctors, hospitals, etc., follow the step-by-step instructions in lines 1 through 10 on Schedule A. Follow these lines carefully because they show you how much you can deduct. Show the amount you paid for medicine and drugs. Subtract 1 percent of line 15c (Form 1040), (adjusted gross income) from that amount. Add the amounts on lines 4 through 6c. Subtract from the total, 3 percent of line 15c (Form 1040), (adjusted gross income).

The remainder, plus your medical care insurance on line 1, is your medical expense deduction. The one percent and three percent limitations apply in all cases, regardless of your age or the age of your spouse or other dependents.

The medical expenses can be for yourself, your spouse, or any dependent who received over half of his or her support from you, even if the dependent had income of $750 or more.

Include all amounts you paid during 1976, but do not include amounts repaid to you, or paid to anyone else, by hospital, health or accident insurance. And be sure to include on line 5 the rest of the amount you paid for medical care insurance (the amount you could not list on line 1). Some examples of what you can and cannot deduct are given below.

Types of Expenses You Can Deduct.—

Payments for medicines, drugs, vaccines, and vitamins your doctor told you to take, but not vitamins you take on your own just to keep healthy.

Payments to hospitals, physicians (medical doctors and osteopaths), dentists, nurses, chiropractors, podiatrists, physiotherapists, psychiatrists; psychologists and psychoanalysts (medical care only); and eye doctors or others who examine or test eyes. (If you pay someone to do both nursing and housework, you can deduct only the nursing cost.)

Payments for false teeth, eyeglasses, medical and surgical aids, arches, braces, crutches, sacroiliac belts, wheelchairs, batteries for hearing aids, orthopedic shoes, and cost and care of guide dogs, etc.

Payments for ambulance service and other travel costs necessary to get medical care. Instead of figuring amounts you spent for gas, oil, etc., for your car, you may take 7 cents a mile.

Payments for examinations, X-ray services, insulin treatment, whirlpool baths the doctor ordered, meals and lodging if part of cost for care in a hospital or similar place, hospital or medical insurance, including monthly payments for extra medical insurance under Medicare.

Types of Expenses You Cannot Deduct.—

Payments for funerals and cemetery lots, cosmetics, operations or drugs that are against the law, travel your doctor tells you to take for rest or change, life insurance policies, the .009 hospital insurance benefits tax included as part of the social security tax and withheld from wages or paid on self-employment income.

Capital expenditures are not generally deductible. For exceptions and more information obtain **Publication 502,** Deduction for Medical and Dental Expenses.

Taxes

You Can Deduct.—

State and local income taxes.

Real estate taxes.

State and local taxes on gas used in your car, boat, etc. For amount to deduct for gas used in your car, see the State Gasoline Tax Table on page 14.

General sales taxes. For amount to deduct, see the Optional State Sales Tax Tables.

The only sales taxes you can add to the table amount are those paid on the purchase of the following items:

(1) A boat, airplane, home (including mobile or prefabricated) or materials YOU bought to build a new home if:
  (a) the tax rate was the same as the general sales tax rate, and
  (b) the seller stated the tax separately from the price of the item but included it in the total amount you paid,

(2) A car or truck, unless you bought it in the District of Columbia, Vermont or West Virginia. (In these jurisdictions the deduction is limited to the sales tax paid at the general sales tax rate.)

The sales tax tables cover income up to $19,999. (Income is: line 15c of Form 1040 plus any income you received that is not subject to tax, such as social security, veterans' and railroad retirement benefits, workman's compensation, untaxed portion of long-term capital gains, disability income exclusion (sick pay), dividends exclusion, unemployment compensation and public assistance payments.) The steps on the next page and the examples shown explain how to figure your sales tax deduction if your income was over $19,999.

If your income was more than $19,999 but less than $100,000, figure your deduction as follows:

Line 2(a)—Show the following pensions and annuities received during 1976.

(1) Pensions and annuities received under the Social Security Act or Railroad Retirement Acts. For social security pension, show the gross amount before deduction of any amount withheld to pay medicare insurance premiums.

(2) Any other pensions and annuities that are not taxed. Include the total monthly payments you received from a matured U.S. Government life insurance endowment contract that is not attributable to the cost of the contract. (Do not include supplemental annuities under the Railroad Retirement Act, military disability pensions, or any amount treated as a return of your cost.)

Do not include on this line amounts excluded from gross income such as amounts received under accident or health insurance plans or as compensation for injury or sickness.

Line 2(b)—Show earned income received during 1976 on line (i) or (ii), depending on your age. If you or your spouse were 72 or older on January 1, 1977, do not make an entry on this line for him or her.

Earned income is wages, salaries, professional fees or other amounts received as payment for work or services. An annuity or pension is not earned income.

If you or your spouse were in a trade or business in which both personal services and capital were to a great extent income-producing factors, consider a reasonable amount (but not over 30 percent of your net profits) as earned income.

Line 3.—Add lines 2(a) and (b) and enter total on line 3.

Line 4.—Subtract line 3 from line 1 and enter the difference on line 4. (If line 3 is more than line 1, enter zero on line 4.) If the amount you entered on line 4 for column A or B is more than zero, complete the rest of the schedule to figure your credit. If both columns are zero or less on line 4, you cannot take a credit for the elderly so do not complete the rest of the schedule.

Line 5.—If under 65, enter retirement income on line (a). See below for what income to enter.

If 65 or older, enter retirement income on line (b). See below for what income to enter.

What is Retirement Income.—

(a) If under 65 on January 1, 1977, retirement income includes only the amount received during 1976 from a pension or annuity under a public retirement system, which is reported as income on Form 1040. (A public retirement system is one set up by the Federal Government, or a State, county, city, etc.)

If you retired from the Federal, State, etc. Government on disability and are under age 65 at the end of your taxable year, your disability annuity payments are earned income and NOT retirement income unless the payments (1) are for periods after the date on which you attain the minimum retirement age and (2) are ineligible for the disability income exclusion. Such payments are ineligible for the disability income exclusion if you:

(i) receive the payments for a period after you attained mandatory retirement age,

(ii) were not permanently and totally disabled when you retired (or were not permanently and totally disabled on January 1, 1976, if you retired before that date on disability or under circumstances which entitled you to retire on disability), or

(iii) have made a valid irrevocable election not to claim the disability income exclusion.

Generally, minimum retirement age is the age at which you are eligible to receive a pension or annuity without regard to disability. Mandatory retirement age is the age at which it has been the practice of your employer to terminate the services of the class of employees to which you belong because of age.

For information on how to report your disability retirement income, see Instructions for Schedule E.

(b) If 65 or older on January 1, 1977, retirement income includes the amounts received during 1976 from pensions, annuities, interest, rents, dividends, proceeds of retirement bonds, and amounts received from individual retirement accounts and individual retirement annuities which are reported as income on Form 1040. It does not include royalties. (For this purpose, income from rents means the full amount received before subtracting depreciation or any other expenses.)

Lines 6 through 10.—Complete these lines as instructed on the schedule.

If you need more information, obtain Publication 524, Tax Credit for the Elderly. It gives examples of how to figure the credit and also sample filled-in schedules.

Instructions for Schedule C (Form 1040)

If you owned a business or practiced a profession, complete Schedule C. Then enter your net profit or loss on Form 1040, line 29. If you had more than one business, or if you and your spouse had separate businesses, complete a Schedule C for each business. Farmers should use Schedule F.

If some of your expenses are part business and part personal, you can deduct only the business part. For example if only half of your car usage is for business, you can deduct only half of the cost of operating the car.

Sales, exchanges, or involuntary conversions of certain trade or business property are to be reported on Form 4797, Supplemental Schedule of Gains and Losses.

You have to pay the social security self-employment tax on income from any trade or business, unless specifically excluded. See Schedule SE. Generally, if you filed Form 4029 or Form 4361, do not file Schedule SE. Instead write "Exempt—Form 4029" or "Exempt—Form 4361" on Form 1040, line 58.

Limited Deduction for Losses Arising from Certain Activities

If you are engaged in the activity of:

(1) holding, producing, or distributing motion picture films or video tapes,

(2) farming (cultivation of land, or raising or harvesting of any agricultural or horticultural commodity, including the raising, shearing, feeding, caring for, training, and management of animals; however, trees (other than trees bearing fruit or nuts) shall not be treated as an agricultural or horticultural commodity),

(3) leasing personal property, and certain other tangible property other than buildings, an elevator or escalator, or other real property that is or has been subject to an allowance for depreciation or amortization, or

(4) exploring for, or exploiting, oil and gas resources,

as a trade or business or for the production of income, any loss from such activity will be allowed only to the extent of the aggregate amount which you have risked (amount that you personally invested plus any amount for which you are personally liable).

Deductions Allocable to Business Use of a Dwelling Used as a Residence.—The 1976 Tax Reform Act imposed new restrictions on deductions for business use of a dwelling used as a residence.

You may deduct, within certain limits, business use expenses that are allocable to a portion of the dwelling unit ONLY if that portion is exclusively used on a regular basis:

(a) as your principal place of business,

(b) as a place of business used by your patients, clients, or customers in meeting or dealing with you in the normal course of your trade or business, or

(c) in connection with your business if it is a separate structure that is not attached to your dwelling unit.

You may also deduct expenses allocable to space within the dwelling unit that is used on a regular basis as a storage unit for inventory held for use in your trade or business of selling products at retail or wholesale, but only if the dwelling unit is the sole fixed location of your trade or business.

Limitation on Deduction.—Subtract the allowable interest, taxes and casualty losses allocable to business or storage use from the amount of gross income derived from trade or business use and determine the balance. You may deduct so much of your other expenses allocable to business or storage use that do not exceed this balance.

The interest, taxes, or casualty losses not allocable to business or storage use may be taken as itemized deductions on Schedule A (Form 1040). For more information see Publication 587, Business Use of Your Home. See Instructions for Schedule E for information on deductions allowable for rental use of a dwelling used as a residence.

Accounting Methods and Records.—On your return you must use the "cash method" of reporting unless you kept books of account. If you kept such books, you can use either the "cash method," "accrual method," or in certain limited situations the "completed contract" or "percentage of completion" methods. The method or methods used must properly reflect your income.

"Cash method" means you generally show all items of taxable income actually or constructively received during the year (whether in cash, property, or services) and those amounts actually paid during the year for deductible expenses. Income is "constructively" received when it is credited to your account or set aside for you to draw on at any time

"Accrual method" means you report income when earned, even if not received, and deduct expenses when incurred, even if not paid during the taxable year.

Item A—Principal Business Activity and Product.—Give the one business activity that accounted for the largest percentage of gross income included in Schedule C, page 1, line 1. State the broad field of business activity as well as the product or service. For example, "wholesale—drugs," "retail apparel."

Item C—Employer Identification Number.—An employer identification number is not needed unless you were required to file an employment, excise, alcohol, tobacco, or firearms tax return or maintain a Keogh (H.R. 10) plan.

Item D—Business Address.—Do not use your home address as a business address unless you actually conducted the business from your home. Show street address rather than box number.

Item F—Information Returns.—You may be required to file information returns for wages paid to employees, certain payments of fees and other non-employee compensation, interest, rents, royalties, annuities and pensions. For more detailed information, see instructions for Forms W-3 (Transmittal of Wage and Tax Statements) and 1096 (Annual Summary and Transmittal of U.S. Information Returns).

Income

Line 1—Gross receipts or gross sales.—Enter gross receipts or sales from your trade or business, except those items required to be reported on line 4. (See instructions for line 4.)

Returns and allowances.—Enter such items as returned sales, rebates, and allowances from the sale price or service charge.

Installment Sales.—If you use the installment method of reporting income from sales, attach to your return a schedule showing separately for 1976 and the three preceding years:

(1) gross sales,
(2) cost of goods sold,
(3) gross profit,
(4) percentage of gross profits to gross sales,
(5) amounts collected, and
(6) gross profits on amounts collected.

Line 2—Cost of goods sold, Schedule C-1.—If you were engaged in a trade or business in which the production, purchase, or sale of merchandise was an income producing factor, inventories of merchandise must be taken into account at the beginning and end of your taxable year.

The inventories can be valued at:

(1) cost,
(2) cost or market, whichever is lower, or

(3) any other method approved by the Commissioner.

You must continue to use the same valuation method you adopted for the first year you took inventory unless you get permission to change your method by applying to the Commissioner of Internal Revenue, Washington, D.C. 20224. Use Form 3115 to apply for such permission, and file it with the Service within 180 days after the beginning of the taxable year in which you want to use the new method.

Cost of Operations (Where Inventories are Not an Income-determining Factor).—If the amount entered on line 2 includes an amount applicable to cost of operations, complete appropriate lines of Schedule C-1.

Line 4—Other Income.—Include on line 4 finance reserve income, sales of scrap, amounts recovered from bad debts, and interest, as well as other kinds of miscellaneous income from your trade or business.

Deductions

Line 6—Depreciation.—You can deduct a reasonable allowance for the exhaustion, wear and tear, and obsolescence of property used in a trade or business, or property held for the production of income. The allowance is not allowed for stock in trade, inventories, land, and personal assets. See Form 4562 for information on depreciation methods, limitations and special rules.

Class Life (ADR) System and Guideline Class Life System.—If you figure depreciation by using the Class Life (ADR) System for assets put in service after December 31, 1970, or the Guideline Class Life System for assets put in service before January 1, 1971 you must file Form 4832 (Class Life (ADR) System) or Form 5006 (Guideline Class Life System). For more information, obtain Publication 534, Tax Information on Depreciation.

Line 9—Repairs.—You can deduct the cost of incidental repairs, including labor (but not the value of your own labor), supplies, and other items, that do not add to the value or appreciably prolong the life of the property. Amounts spent to restore or replace property are not deductible. They are chargeable to capital accounts or to depreciation reserve, depending on how depreciation is charged on your books. Include on line 9 the total amount of repairs from Form 4832 if the Class Life (ADR) System of depreciation is used.

Line 14—Amortization.—You may elect to amortize expenditures for pollution control facilities and on-the-job training and child care facilities ratably over a 60 month period instead of taking the depreciation deduction. You may also elect to amortize expenditures for research or experimentation or a trade mark or trade name ratably over a period of not less than 60 months. For more information, see Publication 535, Tax Information on Business Expenses.

Treatment of Nonresidential Real Property Construction Period Interest and Taxes.—If you began construction of nonresidential real property (building or other improvement) in 1976, and the property was not ready to be placed in service or held for sale at the end of 1976, you may now deduct only 50 percent of the real property taxes and interest paid or accrued on indebtedness incurred or continued to acquire, construct, or carry the property. One third of the remainder will be allowed as a deduction in 1977 (or, if later, in the year in which the property is ready to be placed in service or is ready to be held for sale) and in the following 2 years.

"Nonresidential real property" means real property that is not or cannot reasonably be expected to be residential rental property, real property held for sale as dwelling units, or low-income housing.

Line 15(a)—Retirement Plans, etc.—Enter the amount you claim as a deduction for contributions to a pension, profit-sharing, or annuity plan, or plans, for the benefit of your employees. If the plan includes you as a self-employed person, enter contributions made as an employer on your behalf (but not voluntary contributions you made as an employee) on Form 1040, line 40b, instead of on Schedule C, line 15(a).

Sole proprietors who have Keogh (H.R. 10) plans should file Form 5500-K or Form 5500 for such plans. Do not attach to your Form 1040.

Partners are not required to file returns for Keogh plans in which they participate. However, partnerships are required to file Form 5500, Form 5500-C, or 5500-K to report on Keogh plans.

Complete a Form 5500-K for each plan with fewer than 100 participants and with at least one owner-employee and file as a separate return. Complete a Form 5500-C for each plan with fewer than 100 participants and no owner-employee participant and file as a separate return. Complete a Form 5500 for each plan with 100 or more participants and file as a separate return. File these forms on or before the last day of the 7th month following the close of your taxable year.

Line 15(b)—Employee Benefit Programs.—Enter the amount of your contributions to employee benefit programs that are not an incidental part of a pension or profit-sharing plan included on line 15(a). Contributions to employee benefit programs that are to be reported on this line include insurance, health, and welfare programs.

Line 16—Interest on Business Indebtedness.—Generally, a cash basis taxpayer, who in 1976 prepaid interest allocable to any period after 1976, can only deduct the amount allocable to 1976. However, if the prepayment is required by a binding contract or written loan commitment that existed on September 16, 1975 (and at all times thereafter), such prepaid interest is deductible if paid in 1976. If the deduction of such interest would not materially distort income. See Publication 17, Your Federal Income Tax, Chapter 22.

Do not include on line 16, interest that your trade or business paid or accrued on debts incurred to purchase or carry property held for investment. You should claim this interest on investment debts on Schedule A (Form 1040). For further information, see Schedule A (Form 1040) instructions.

Line 17—Bad Debts Arising from Sales or Services.—Includes debts, or portions of them, arising from sales or professional services that were included in income and definitely known to be worthless; or a reasonable amount that was added during the taxable year to a reserve for bad debts. A debt which is deducted as bad and which reduces your tax must, if later collected, be included as income for the year in which collected.

Line 18—Depletion.—If a deduction is claimed on account of timber depletion, attach Form T to your return.

Line 19—Other Business Expenses.—Include all ordinary and necessary business expenses. Do not include cost of business equipment or furniture, amounts spent for replacements or permanent improvements to property, or personal living and family expenses.

Automobile Expenses, Special Rule.—See page 11 for optional method of figuring deductible automobile expenses.

Schedule C-4—Expense Account Information.—Expense account allowance means (a) amounts other than compensation, received as advances or reimbursements, and (b) amounts paid by or for you for expenses incurred by or for yourself or your employees, including all amounts charged through any type of credit card, for which a deduction is claimed in this schedule. This term does not include amounts paid for (a) the purchase of goods for resale or use in your business, and (b) incidental expenses, such as the purchase of office supplies or for local transportation in connection with an errand. You should keep records as proof of amounts spent for entertainment.

Instructions for Schedule SE (Form 1040)

IMPORTANT NOTICE: If you are self-employed and Form 1040, line 15c, is less than $8,000, it may be necessary for you to complete lines 1 through 13 of Schedule SE (Form 1040), even though your self-employment income is less than $400. You may be eligible to claim the earned income credit. See page 2. Income exempt from self-employment tax as a result of filing Forms 4029 or 4361, is not earned income for purposes of the earned income credit.

Schedule SE provides the Social Security Administration with information on self-employment income necessary for figuring benefits under the social security program. You have to pay social security self-employment tax regardless of age, and even though you are receiving social security benefits.

To assure proper credit to your account, enter your name and social security number on Schedule SE exactly as they are shown on your social security card.

Fiscal year filers must use the tax rate and earnings base that are applicable at the time in which their fiscal year begins. No proration of the tax or earnings base is required for a fiscal year that overlaps the date of a rate or earnings base change.

Ministers, members of religious orders, and Christian Science practitioners.—Duly ordained, commissioned, or licensed ministers of churches, members of religious orders (who have not taken a vow of poverty) and Christian Science practitioners are subject to social security self-employment tax. But you can, under certain conditions, request to exempt your income from service as a minister, member or practitioner by filing Form 4361. If you filed Form 4361 and you have no other income subject to social security self-employment tax, write "Exempt—Form 4361" on Form 1040, line 58. (Note: If you filed Form 4361 but have $400 or more from other net earnings subject to self-employment tax, you must complete Schedule SE.) You can get forms, schedules, and publications from any Internal Revenue Service office. If you previously filed an effective waiver certificate, Form 2031, to pay social security self-employment tax, you cannot file for an exemption. For more information obtain Publication 517, Social Security for Members of the Clergy and Religious Workers.

Members of certain religious sects.—If you have conscientious objections to social security insurance because of your belief in the teachings of a recognized religious sect of which you are a member, you can file Form 4029 to get exemption from self-employment tax. If you filed Form 4029, do not file Schedule SE. Instead, write "Exempt-Form 4029" on Form 1040, line 58.

Coverage of ministers and members of religious orders who are U.S. citizens serving outside the U.S.—Ministers and members of religious orders who are U.S. citizens serving outside the U.S. (such as missionaries) may compute net earnings from self-employment as if they were serving in the U.S. Ministers or members of a religious order who are serving in a possession of the U.S. or in a foreign country must include their income in computing net earnings from self-employment. This provision applies to ministers who have not elected to be exempt from coverage.

Christian Science practitioners are not included in this provision. The provision applies only to ministers and members of religious orders.

If you are a minister or member of a religious order, you must include in your earnings from self-employment (but not for income tax purposes) the rental value of a home furnished you or an allowance for it. You must also include the value of meals and lodging furnished you for the convenience of your employers.

U.S. citizens employed by foreign governments or international organizations.—You are subject to the social security self-employment tax if you are a U.S. citizen employed in the U.S., Puerto Rico, Guam, American Samoa, or the Virgin Islands by a foreign government, an instrumentality wholly owned by a foreign government, or an international organization organized under the International Organizations Immunities Act. Report income from such employment on Schedule SE, line 5(d).

Self-employment income of certain individuals temporarily living outside the U.S.—U.S. citizens who are self-employed outside the U.S. and who retain their residence in the U.S. must compute their net earnings from self-employment in the same way as those who are self-employed in the U.S. The exclusion of income

Instructions for Schedule F (Form 1040)

Employer Identification Number

An employer identification number is not needed unless you were required to file an employment, excise, alcohol, tobacco, or firearms tax return or maintain a Keogh (H.R. 10) plan

Cash Receipts and Disbursements Method of Reporting

Include the following in income:

(1) Profits received from the sale of live stock and other items bought for resale

(2) Cash and the value of merchandise or other property received from the sale of livestock and produce raised during 1976 or earlier years.

(3) Other farm income.

Your expenses are the amounts you paid during 1976 plus deductions such as depreciation.

Livestock Sold on Account of Drought

You can elect to include livestock sale proceeds in income in the taxable year following the taxable year of a drought, if your principal trade or business is farming, and if you can establish that the sale would not have occurred except for the drought and your area is designated as being eligible for Federal Government assistance.

You can elect to include crop insurance proceeds and certain disaster payments in income in the taxable year following the taxable year of destruction or damage if you can establish that it is your practice to report income from such crops in a following taxable year. For more information, contact any Internal Revenue Service office, or obtain **Publication 225**, Farmer's Tax Guide.

Accrual Method of Reporting

The gross profits are figured as indicated in the summary of income and deductions on page 2 of Schedule F. Farm expenses are the actual expenses incurred during 1976 whether you paid them or not. You can value inventories according to the "farm-price method," which provides for the valuation of inventories at market price less direct cost of disposition, or you can use other methods. Farmers raising livestock can value their inventories of animals according to either the "farm-price method" or the "unit-livestock-price method."

If you use an accrual method of accounting, you must inventory growing crops

Income

Generally, you should report all farm income in Schedule F. However, if you received rental income based on farm production or if you received crop shares based on the renting of all or part of your crop land on a crop share basis, and you did not materially participate in operating the farm, report such income on Form 4835, Farm Rental Income and Expenses and Summary of Gross Income From Farming or Fishing (such income is not subject to self employment tax) and Schedule E. If you materially participated in the operation of a farm, the rental income you received is subject to self-employment tax and should be reported in Schedule F. **Note.**—To determine whether you participated materially in such farm management or production, do not consider the activities of any agent who acted for you.

Under both the cash and the accrual methods of reporting, you should report crop share rentals received in the year in which you convert them to money or its equivalent.

Report sales, exchanges, or involuntary conversions of certain trade or business property on Form 4797, Supplemental Schedule of Gains and Losses.

Anything of value received instead of cash, such as groceries in exchange for produce, must be treated as income to the extent of its market value. The value of farm produce that you and your family used need not be reported as income, but expenses incurred in raising such produce must not be claimed as deductions. Include recoveries from insurance on growing crops. ("Cash method" taxpayers, see Cash Receipts and Disbursements Method of Reporting.)

Cooperative Allocations, Dividends and Advances

Also include in farm income: (1) per-unit retain allocations received from cooperatives in money and qualified per-unit retain certificates (to the extent of stated dollar amounts), and (2) patronage dividends received from cooperatives in money and qualified written notices of allocation (to the extent of stated dollar amount).

Patronage dividends received in property other than written notices of allocation are includible in farm income to the extent of fair market value.

Include in farm income, Schedule F, line 21, nonpatronage distributions received from farmers' cooperatives exempt from tax.

> See **Publication 225** for detailed instructions on how and when to report the receipt and redemption of nonqualified certificates and nonqualified written notices, and the receipt of patronage dividends received on purchase of assets and nonbusiness purchases.

Patronage dividends are excludable from your gross income if directly attributable to: (1) the purchase of personal, living, or family items; or (2) the purchase of capital assets, or depreciable property used in your business, but only where the basis of the items purchased is adjusted downward by the amount of the dividends excluded from income.

Cash advances received from marketing cooperatives you do business with are includible in farm income.

Federal Gasoline Tax Credit

If you use the "cash method," enter in Part I, line 24 any Federal gasoline tax claimed as a credit on Form 1040 for 1975. If you use the "accrual method," enter in Part V, line 63 any Federal gasoline tax you claim as a credit on Form 1040 for 1976.

Agricultural Program Payments

In Cash.—Enter the total amount of price support payments, diversion payments, and cost share payments received in cash (sight drafts).

> ### Limited Deduction for Losses Arising from Certain Activities
>
> If you are engaged in the activity of:
>
> (1) holding, producing, or distributing motion picture films or video tapes,
>
> (2) farming (cultivation of land, or raising or harvesting of any agricultural or horticultural commodity, including the raising, shearing, feeding, caring for, training, and management of animals; however, trees (other than trees bearing fruit or nuts) shall not be treated as an agricultural or horticultural commodity),
>
> (3) leasing personal property, and certain other tangible property other than buildings, an elevator or escalator, or other real property that is or has been subject to an allowance for depreciation or amortization, or
>
> (4) exploring for, or exploiting, oil and gas resources,
>
> as a trade or business or for the production of income,
>
> any loss from such activity will be allowed only to the extent of the aggregate amount which you have risked (amount that you personally invested plus any amount for which you are personally liable).
>
> **Deductions are limited for farming syndicates that had a change in membership or were established in 1976.**—A farming syndicate may be a partnership, or any other noncorporate enterprise, or an electing small business corporation engaged in the trade or business of farming, if (1) at any time interests in the partnership or enterprise have been offered for sale in any offering required to be registered with any Federal or State agency, or (2) more than 35 percent of the losses during any period are allocable to limited partners or limited entrepreneurs.
>
> A "limited entrepreneur" is a person who has an interest in an enterprise other than as a limited partner and who does not actively participate in the management of the enterprise.
>
> In the case of any farming syndicate, a deduction for amounts paid for feed, seed, fertilizer, or other similar farm supplies is only allowed for the taxable year in which such items are actually used or consumed (or, if later, the taxable year for which such amounts are deductible under the syndicate's method of accounting). However, this does not apply to any amount paid for supplies on hand at the end of the taxable year on account of fire, storm, flood, other casualty, disease, or drought, or to any amount required to be capitalized.
>
> The cost of poultry (including egg laying hens and baby chicks) purchased for use in a trade or business (or both for use in a trade or business and for sale) must be capitalized and deducted ratably over the lesser of 12 months or their useful life in the trade or business.
>
> A syndicate that is engaged in planting, cultivating, maintaining, or developing a grove, orchard, or vineyard in which fruit or nuts are grown must capitalize any amount that (1) would otherwise be deductible, (2) is attributable to the planting, cultivation, maintenance, or development of the grove, orchard, or vineyard, and (3) is incurred before the taxable year in which there is a crop or yield in commercial quantities.

In Materials and Services.—If you received benefits in the form of materials, such as fertilizer or lime, or in the form of services, such as grading or the construction of dams, enter the total amount paid by the Department of Agriculture to the vendor or contractor.

Commodity Credit Corporation Loans

If commodities are pledged as security for a loan from the Commodity Credit Corporation, income is not considered received until the commodities are delivered or forfeited to the Corporation, unless an election is made to include the loan in income when received. If you made this election or delivered or forfeited the pledged commodity, enter the amount received on this line. In the case of an election, attach to your return a statement showing details of the loan. You must continue to report similar loans as income until you receive permission from the Commissioner to change your method of accounting.

Commodity Futures.—Purchase or sales contracts entered into solely for protection against price fluctuations are a form of business insurance and are considered hedges. Any profit realized is ordinary income and is entered on Schedule F, line 26. If a loss is sustained from a closed futures contract, it is deductible as an ordinary and necessary business expense, and is shown as a negative figure on Schedule F, line 26. Purchase or sales contracts are not true hedges where they offset losses already sustained. Commodity futures contracts entered into with the hope of making a profit on the contract itself through favorable price fluctuations are considered speculation and these transactions are shown on Schedule D, Form 1040.

Expenses and Other Deductions

Hired Labor.—You can deduct amounts paid for farm labor. Do not deduct the value of your own labor or that of your family. Deduct only that part of the board which is purchased for hired labor. The value of products furnished by the farm and used in the board of hired labor is not deductible. Do not deduct amounts paid to those who did household work except to the extent their services are used in boarding and otherwise caring for farm laborers.

Repairs and Maintenance.—You can deduct amounts paid for repairs and maintenance of farm buildings (except your dwelling), farm machinery and equipment; and the cost of ordinary tools of short life or small cost, such as shovels, rakes, etc. Include in this deduction the total amount of repairs from Form 4832 if the Class Life (ADR) System of depreciation is used.

Interest.—Generally, a cash basis taxpayer, who in 1976 prepaid interest allocable to any period after 1976, can only deduct the amount allocable to 1976. However, if the prepayment is required by a binding contract or written loan commitment that existed on September 16, 1975 (and at all times thereafter), such prepaid interest is deductible if paid in 1976, if the deduction of such interest would not materially distort income. See **Publication 17**, Your Federal Income Tax, Chapter 22.

Rent of Farm, Part of Farm, or Pasture.—You can deduct rent paid in cash. If you are a tenant farmer paying rent to your landlord in the form of crops raised on the farm under a crop share agreement, you cannot deduct as rent the value of the crop, but you can deduct amounts paid in raising the crop.

Taxes.—You can deduct certain State and local taxes. (State income taxes are deductible only on Schedule A (Form 1040). See **Publication 225**.) Do not deduct Federal income taxes; estate, inheritance, legacy, succession, and gift taxes; nor taxes assessed for any improvements or betterment. Do not deduct taxes on your dwelling or household property and other taxes not related to the business of farming.

Conservation Expenses.—You can deduct certain amounts spent (including any amount paid on an assessment levied by a soil or water conservation or drainage district to recover the amount the district spent) for soil or water conservation and the prevention of erosion on land you use.

The allowable deduction for any one year cannot exceed 25 percent of your gross income from farming (excluding certain gains from sales of assets such as farm machinery or from the disposition of land). But any excess can be carried over to the following years with the same limit applying to those years. See **Publication 225**.

Land Clearing.—You can deduct amounts spent for clearing land to make it suitable for farming. This deduction cannot be more than 25 percent of taxable income from farming, or $5,000, whichever is less.

Retirement Plans, etc.

Line 48.—Enter the amount you claim as a deduction for contributions to a pension, profit-sharing or annuity plan, or plans, for the benefit of your employees. If the plan includes you as a self-employed person, enter contributions made as an employer on your behalf (but not voluntary contributions you made as an employee) on Form 1040, line 40b, instead of on Schedule F, line 48.

Sole proprietors who have Keogh (H.R. 10) plans should file Form 5500–K or Form 5500 for such plans. Do not attach to your Form 1040.

Partners are not required to file returns for Keogh plans in which they participate. However, partnerships are required to file Form 5500, Form 5500–C, or 5500–K to report on Keogh plans.

Complete a Form 5500–K for each plan with fewer than 100 participants and with at least one owner-employee and file as a separate return. Complete a Form 5500–C for each plan with fewer than 100 participants and no owner-employee participant and file as a separate return. Complete a Form 5500 for each plan with 100 or more participants and file as a separate return. File these forms on or before the last day of the 7th month following the close of your taxable year.

Line 49.—Enter the amount of your contributions to employee benefit programs that are not an incidental part of a pension or profit-sharing plan included on line 48. Contributions to employee benefit programs that are to be reported on this line include insurance, health, and welfare programs.

Automobile Expenses, Special Rule.—See page 11 for optional method of figuring deductible automobile expenses.

Other Farm Expenses.—Include such items as advertising, stationery, stamps, account books, other office supplies, etc.

Losses of property included in your inventory are taken care of by the reduced amount of the inventory at the end of the year. The loss of a prospective crop by frost, storm, flood, or fire is not deductible. When using the cash method, the value of animals you raised that died is not deductible. For animals you bought that died, the cost less depreciation allowed or allowable is deductible if not compensated by insurance or otherwise. Do not deduct personal losses.

Planting and Developing Citrus and Almond Groves.—Charge to capital account expenses for the planting, cultivation, maintenance, or development of any citrus and almond grove (or part of such grove), incurred before the close of the fourth taxable year beginning with the taxable year in which trees were planted. See **Publication 225**.

Depreciation.—You can deduct an allowance for the depreciation of buildings, improvements, machinery, or other farm equipment of a permanent nature. Similar assets may be grouped together as one item for reporting purposes in the depreciation schedule in Schedule F. In figuring depreciation, do not include the value of land. Do not claim depreciation on livestock or any other property included in your inventory. You can claim depreciation on livestock not included in your inventory of livestock bought or raised for sale if you acquired them for work, breeding, or dairy purposes.

Class Life (ADR) System and Guideline Class Life System.—If you figure depreciation by using the Class Life (ADR) System for assets put in service after December 31, 1970 or the Guideline Class Life System for assets put in service before January 1, 1971, you must file Form 4832 (Class Life (ADR) System) or Form 5006 (Guideline Class Life System). For more information, obtain **Instructions for Form 4832, Form 5006, and Publication 534**, Tax Information on Depreciation.

See Instructions on the back of Form 4562 for more detailed information about methods of computing depreciation, other than the depreciation rules mentioned above.

> Income from farming is subject to self-employment tax. (See Schedule SE.) If you filed Form 4029, do not file Schedule SE. Instead, write "Exempt—Form 4029" on Form 1040, line 58.

Additional Information Available.—You can obtain **Publication 225**, Farmer's Tax Guide, without cost from your county agricultural agent or Internal Revenue Service office.

1976 Tax Rate Schedules

If Form 1040, line 47 is more than $20,000, figure your tax on the amount on Form 1040, line 47, by using the appropriate Tax Rate Schedule on this page. Enter tax on Form 1040, line 16.

SCHEDULE X—Single Taxpayers Not Qualifying for Rates in Schedule Y or Z

Use this schedule if you checked the box on Form 1040, line 1—

If the amount on Form 1040, line 47, is: Over—	But not over—	Enter on Form 1040, line 16:	of the amount over—
$20,000	$22,000	$5,230+38%	$20,000
$22,000	$25,000	$5,990+40%	$22,000
$26,000	$32,000	$7,590+45%	$26,000
$32,000	$38,000	$10,290+50%	$32,000

Farm Rental Income and Expenses and Summary of Gross Income From Farming or Fishing

(Crop and Livestock Shares Received by Nonparticipating Landowner (or Sub-lessor))
(Income not subject to self employment tax) ▶ Attach to Form 1040.

1976

Name(s) as shown on Form 1040 | Social security number

Business name and address
Location of farm(s) and number of acres in each farm

If you filed Form 943, enter employer identification number here

Purpose.—This form is designed to report farm rental income based on crops or livestock produced by the tenant, where the landowner (or sub-lessor) does not materially participate in the operation or management of the farm.

Under both the cash and the accrual methods of reporting, you should report livestock or crop share rentals received in the year in which you convert them to money or its equivalent. Reg. 1.61–4(a) and (b).

Note: *(1) Landowners (or sub-lessors) must not use this form to report cash rent received for pasture, or farm land, where the amount is based on a flat charge. (Report directly on Schedule E (Form 1040).)*

(2) If you report both farm rental income on line 22 of this form and cash rental income from farm property in Schedule E (Form 1040) you need not prorate the farm expenses attributable to this farm rental income. Instead, you may report the total farm rental expenses in Part II of this form.

(3) Tenants must not use this form to report farm income and expenses. (Individuals use Schedule F (Form 1040).)

(4) The instructions for Schedule F (Form 1040) are applicable to the income and deduction items in Part I and Part II.

Part I Gross Farm Rental Income—Based on Production

(Include amount converted to cash or the equivalent)

Kind	Quantity	Amount
1 Cattle		$
2 Calves		
3 Sheep		
4 Swine		
5 Poultry		
6 Dairy products		
7 Eggs		
8 Wool		
9 Cotton		
10 Tobacco		
11 Vegetables		
12 Grain		
13 Fruits and nuts		
14 Other (specify):		
OTHER FARM RENTAL INCOME		
15 Patronage dividends (see Schedule F instructions)		
16 Per unit retains (see Schedule F instructions)		
17 Agricultural program payments: (a) Cash		
(b) Materials and services		
18 Commodity credit loans under election (or forfeited)		
19 Federal gasoline tax credit		
20 State gasoline tax refund		
21 Other (specify):		
22 Gross farm rents (add lines 1 through 21) ▶		$

Part II Deductions—Farm Rental Property

(Exclude personal and living expenses)

Items	Amount
23 Labor hired	$
24 Repairs, maintenance	
25 Interest	
26 Rent of farm, pasture	
27 Feed purchased	
28 Seeds, plants purchased	
29 Fertilizers, lime, and chemicals	
30 Machine hire	
31 Supplies purchased	
32 Breeding fees	
33 Veterinary fees, medicine	
34 Gasoline, fuel, oil	
35 Storage, warehousing	
36 Taxes	
37 Insurance	
38 Utilities	
39 Freight, trucking	
40 Conservation expenses	
41 Land clearing	
42 Pension and profit-sharing plans for employees	
43 Employee benefit programs other than line 42	
44 Other expenses (specify):	
45 Depreciation (from page 2)	
46 Expenses (add lines 23 through 45) ▶	$

47 Net farm rental profit or (loss) (subtract line 46 from 22). Enter here and in Schedule E (Form 1040), Part II, line 9 ▶ $

Part III Gross Income From Farming or Fishing—

WHEN TO USE: Complete this part only if two-thirds of your gross income is from farming or fishing.

To determine your gross farming or fishing income, enter your share from the sources below. If the total is at least two-thirds of your gross income, the penalty for failure to pay estimated tax will not apply if you file your tax return, and pay the tax due, on or before March 1, 1977.

Source(s)	Your share of gross farming or fishing income
1 Partnership(s)	$
2 Estate(s) and trust(s) (enter only the pro rata share of your distributable net taxable income that is from farming or fishing)	
3 Gross farm rents from line 22 above	
4 Sale of livestock held for draft, breeding, sport or dairy purposes (Form 4797)	
5 Fishing (Schedule C, Form 1040)	
6 Farming (Schedule F, Form 1040)	
7 Total (add lines 1 through 6)	$

	Yes	No
G Did the partnership, at any time during the taxable year, have any interest in or signature or other authority over a bank, securities, or other financial account in a foreign country (except in a U.S. military banking facility operated by a U.S. financial institution)? If "Yes," attach Form 4683. (For definitions, see Form 4683.)		
H Was the partnership the grantor of, or transferor to, a foreign trust during any taxable year, which foreign trust was in being during the current taxable year, whether or not the partnership or any partner has any beneficial interest in such trust? If "Yes," attach Form 4683. (For definitions, see Form 4683.)		
I Was the partnership liable for filing Form 1096 for 1976? If "Yes," show where filed ►		
J Is any member of the partnership related by blood or marriage to any other member?		
K Is any member of the partnership a trust for the benefit of any person related by blood or marriage to any other member?		
L Do any of the liabilities reported on Schedule L consist of nonrecourse loans? (See General Instruction S(4).) If "Yes," enter balance of nonrecourse loans as of: (1) Beginning of taxable year ► $ (2) End of taxable year ► $		
M Did the partnership claim a deduction for expenses connected with: (1) Employee or family vacations not reported on Form W-2?		
(2) Entertainment facility (boat, resort, ranch, etc.)?		
(3) Employees' families at conventions or meetings?		
(4) Living accommodations (except employees on business)?		

☆ U.S. GOVERNMENT PRINTING OFFICE: 1976—O-218-397 50-0401110

1976 Department of the Treasury Internal Revenue Service

Instructions for Form 1065 U.S. Partnership Return

The term "partnership" includes a limited partnership, syndicate, group, pool, joint venture, or other unincorporated organization, through or by which any business, financial operation, or venture is carried on, and which is not, within the meaning of the Internal Revenue Code, a corporation, trust, estate, or sole proprietorship. The term "partner" means a member of a partnership.

(Section references are to the Internal Revenue Code unless otherwise specified)

Highlights for 1976

Please note these important changes that have been made because of revisions in the tax law.

Organization Fees.—Amounts paid or incurred to organize a partnership are not deductible as current expenses. See page 2.

Additional First-year Depreciation.—The amount of additional first-year depreciation that the partnership can distribute has been reduced to a maximum of $2,000. See page 4.

Investment Interest.—The information required to be supplied the partners for interest on investment indebtedness has been revised to reflect the new provisions that reduce the amount of such interest allowable as a deduction by the partners. See pages 3 and 7 and Schedule K, line 17.

Prepaid Interest.—Deductions for interest prepayments must be allocated over the period of the loan. See page 3.

Construction Period Interest and Taxes.—New provisions limit the deductions for construction period interest and taxes in the case of nonresidential real property. See page 3.

Distributive Shares.—Under the new, more restrictive provisions, income or (loss) is allocable to a partner only for the portion of the year that person is a member of the partnership. See page 5.

Special Allocations.—New, stricter rules apply for special allocations to be made if the partners' distributive shares are not provided for in the partnership agreement. See page 5.

Limitation on Deductible Losses.—New limitations (based on the amount at which the partner is "at risk") have been placed on losses that can be deducted from certain farming, leasing, motion picture film or video tape, and oil and gas activities. See page 6.

Minimum Tax.—Additional tax preference items for intangible drilling costs and the partners' excess itemized deductions have been added. See page 7 and Schedule K, line 16.

New Depreciation Recapture Rules apply to dispositions of depreciable residential real estate. See Instructions for Form 4797.

New Rules Apply for Recapture of Intangible Drilling and Development Costs on oil and gas properties. See Instructions for Form 4797.

General Instructions

Note: It is important that the partnership's name be shown the same on all tax returns and other documents filed. Use the label provided. If the partnership's name, address or employer identification number is wrong as shown on the label, make the necessary corrections right on the label. If the partnership did not receive a label, show the correct employer identification number in item D on page 1. If the partnership does not have a number, you must apply for one on Form SS-4, available at any Social Security Administration or Internal Revenue Service office.

A. Who must file.—Every partnership (see general instruction L(1) for exceptions) engaged in a trade or business or having income from sources within the United States must file Form 1065. It must do so whether or not its principal place of business is outside the United States or all its members are nonresident aliens. If you file for a syndicate, pool, joint venture, or similar group, attach to the return a copy of the agreement and all amendments, unless you have previously filed a copy.

File only one return for each partnership. Mark "duplicate copy" on each copy you give to an individual partner.

Time and place for filing.—A resident partnership must file Form 1065 on or before the 15th day of the 4th month following the close of the taxable year. A foreign partnership whose partners are nonresident aliens must file its return on or before the 15th day of the 6th month following the close of the taxable year.

If the partnership's principal place of business or principal office or agency is located in	Use the following Internal Revenue Service Center address
New Jersey, New York City and counties of Nassau, Rockland, Suffolk, and Westchester	1040 Waverly Avenue Holtsville, New York 11799
New York (all other counties), Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, Vermont	310 Lowell Street Andover, Mass. 01812
Delaware, District of Columbia, Maryland, Pennsylvania	11601 Roosevelt Boulevard Philadelphia, Pa. 19155
Alabama, Florida, Georgia, Mississippi, South Carolina	4800 Buford Highway Chamblee, Georgia 30006
Michigan, Ohio	Cincinnati, Ohio 45298
Arkansas, Kansas, Louisiana, New Mexico, Oklahoma, Texas	3651 S. Interregional Highway Austin, Texas 78740
Alaska, Arizona, Colorado, Idaho, Minnesota, Montana, Nebraska, Nevada, North Dakota, Oregon, South Dakota, Utah, Washington, Wyoming	1160 West 1200 South St. Ogden, Utah 84201
Illinois, Iowa, Missouri, Wisconsin	2306 East Bannister Road Kansas City, Missouri 64170
California, Hawaii	5045 East Butler Avenue Fresno, California 93888
Indiana, Kentucky, North Carolina, Tennessee, Virginia, West Virginia	3131 Democrat Road Memphis, Tenn. 38110

A partnership without a principal office or agency or principal place of business in the United States must file its return with the Internal Revenue Service Center, 11601 Roosevelt Boulevard, Philadelphia, Pennsylvania 19155.

C. Period covered by return.—File the return for the calendar year 1976 or other taxable year beginning in 1976. A partnership's taxable year shall be determined as though the partnership were a taxpayer.

D. Change in, or adoption of, accounting period.—A change by any partnership from one taxable year to another, or a new partnership's adoption of an initial taxable year, must meet the provisions of section 706(b). A change by a principal partner from one taxable year to another must meet the provisions of sections 706(b) and 442. A principal partner is one who has an interest of 5 percent or more in the partnership profits or capital. For the taxable years of partnerships resulting from a merger or division of other partnerships, see sections 706(b) and 708(b)(2).

E. Signature.—One partner must sign the return. If a receiver, trustee in bankruptcy, or assignee is in control of the organization's property or business, that person must sign the return.

Any person, firm, or corporation preparing a partnership return for compensation must also sign to verify the return. However, a verifying signature is not required if the return is prepared by a regular, full-time partnership employee, such as a clerk, secretary, or bookkeeper. If a firm or corporation prepares the return, it should be signed in the name of the firm or corporation.

F. Penalties.—The law provides severe penalties for willful failure to file a return on time and for willful attempt to evade or defeat payment of any tax due.

G. Accounting methods.—Compute ordinary income by the accounting method regularly used in maintaining the partnership's books and records. The method should clearly reflect income. (See section 446). Unless the law specifically permits, a taxpayer may not change the accounting method used to report income in prior years (for income as a whole or for any material item) without first getting consent on Form 3115, Application for Change in Accounting Method.

Rounding off to whole-dollar amounts.—You may show the money items on your return and accompanying schedules as whole-dollar amounts. To do so eliminate any amount less than 50 cents and increase any amount from 50 cents through 99 cents to the next higher dollar.

H. Recordkeeping.—Your records must be retained as long as their contents may be material in the administration of any Internal Revenue law. Records that support an item of income or a deduction appearing on your return should be kept until the statute of limitations expires for that return. Usually this is 3 years from the date the return was due or filed. Some records must be kept indefinitely. Records of transactions relating to the basis of property should be retained as long as they are material in determining the basis of the original or replacement property. Copies of your filed tax returns should also be retained as part of your records. Obtain Publication 552, Recordkeeping Requirements and A Guide to Tax Publications, for further details.

I. Information returns.—Every partnership shall file information returns if it makes, in the course of its trade or business during the calendar year, payments of interest (other than under the $10 rule), rents, commissions, or other fixed or determinable income totaling $600 or more to any one person.

For example, if the partnership makes interest payments totaling $10 or more on bank deposits and savings and loan association accounts, it must file Form 1099-INT.

Use Form 1096 to summarize and transmit information returns to your Internal Revenue Service Center. For more information about filing information returns and exceptions therefrom, see the instructions for Form 1096.

J. Foreign bank, securities and other financial accounts, and grantors, transferors or beneficiaries of foreign trusts, etc.—Be sure to answer questions G and H on page 4 of Form 1065. If either of the "Yes" blocks is checked, attach Form 4683, U.S. Information Return on Foreign Bank, Securities, and Other Financial Accounts, and Foreign Trusts. Check "Yes," for Question G if the partnership owns more than 50 percent of the stock in any corporation that owns one or more foreign bank accounts.

Please note that this year Form 4683 must be filed by a partnership having any interest in a foreign trust. In prior years this form was required to report an interest in a trust only if the interest was more than a 50-percent interest.

A U.S. partnership that transfers property to a foreign trust may be required to include the income attributable to such property in the partnership's taxable income, if during 1976, such trust had a U.S. beneficiary. (See section 679.)

If the partnership transfers property to a foreign corporation as paid-in surplus or as a contribution to capital, or to a foreign trust or partnership, there is imposed an excise tax as computed under section 1491 (see Form 926, Transferor of Property to a Foreign Corporation, Foreign Trust, or Foreign Partnership). In lieu of this excise tax, the partnership may elect to treat such transfer as a taxable sale or exchange as specified in section 1057.

K. Balance sheets.—The partnership balance sheets must be completed. These balance sheets, Schedule L, should agree with the account books. Any differences should be explained in an attached statement.

If any of the liabilities reflected on Schedule L are nonrecourse loans (as defined in General Instruction 5(4)), be sure to report the amounts in the spaces provided on Form 1065, page 4, question L.

Partnerships reporting to the Interstate Commerce Commission or to any national, State, municipal, or other public officer, may submit, instead of Schedule L, copies of their balance sheets prescribed by the Commission or State or municipal authorities, as of the beginning and end of the taxable year.

L. Elections.—(1) An unincorporated organization qualifying under section 761(a) as an investing partnership or as participating in the joint production, extraction, or use of property under an operating agreement may elect to be excluded from treatment as a partnership under section 1.761-2 of the Regulations. The unincorporated organization may make the election in a statement attached to Form 1065 for the first year for which it wants the exclusion. (See section 1.761-2 of the Regulations.)

(2) Generally, the partnership shall make the elections affecting the computation of taxable income from its operations. Examples of such elections are the accounting method employed, depreciation methods, etc. However, certain elections are made by a partner separately on the partner's individual income tax return rather than by the partnership. These elections are made under section 901 (foreign tax credit), section 617 (deduction and recapture of certain mining exploration expenditures, paid or incurred), section 57(c) (definition of net lease), and section 163(d) (limitation on interest on investment indebtedness).

(3) Section 1033 provides for the nonrecognition of gain where property is compulsorily or involuntarily converted into other property or into money. Section 754 provides rules concerning the election a partnership may file to adjust the basis of its remaining assets in the event assets distributed to a partner have increased or decreased in value and also to adjust the basis of its assets to reflect the purchase price paid by a new partner for the new partner's interest, or as a result of the death of a partner. Information about other elections may be found under the applicable sections of Chapter 1, subchapter K of the Code and the Regulations.

M. Section 702(a) items.—The partners are required by the Code to take into account separately their distributive shares of certain specific items enumerated in the Code as follows: (1) gains and losses from sales and exchanges of capital assets held for not more than six months; (2) gains and losses from sales and exchanges of capital assets held for more than six months; (3) gains and losses from sales and exchanges of property described in section 1231; (4) charitable contributions; (5) qualifying dividends; (6) taxes described in section 901; (7) other items of income, gain, loss, deduction, or credit, to the extent provided by regulations (see instructions for Schedule K); and (8) taxable income or loss (ordinary income) exclusive of items 1 through 7, above.

N. Distribution of unrealized receivables and inventory items.—If a partner receives a distribution of unrealized receivables or substantially appreciated inventory items in exchange for all or part of that partner's interest in other partnership property (including money), treat the transaction as a sale or exchange between the partner and the partnership. Treat the partnership gain or loss as ordinary income or loss. In computing the partners' distributive shares of such ordinary income or loss, allocate it only to partners other than the distributee partner who will take such amount into account separately under section 702(a)(8). See section 751 and related Regulations.

O. Net operating loss deduction.—A partnership is not allowed the deduction for net operating losses. Partners computing their own net operating loss or taxable income for any taxable year for the purposes of the computation required by section 172, must take into account their share of the partnership's income and losses, subject to the limitations in sections 465(a) and 704(b) and (d).

P. Specially allocated items.—Allocate distributive shares of income, gain, loss, deduction, or credit among the partners under the partnership agreement for sharing income or loss generally. If the partners agree, specific items may be allocated among them in a ratio different than that for sharing income or loss generally and such allocations may be recognized under provisions of section 704. For instance, if the net income exclusive of specially allocated items is divided evenly among three partners but some special items are allocated 50 percent to one, 30 percent to another, and 20 percent to the third partner, report the special items on Schedule K, line 15, instead of on the numbered lines on page 1 of the form. (See instructions for Schedules K and K-1.)

Q. Attachments.—If you need more space on forms or schedules, attach separate sheets and use the same arrangement as the printed forms, but show your totals on the printed forms. Be sure to put the partnership's name and employer identification number on these separate sheets.

R. Information regarding Schedule K-1.—Prepare and furnish Schedules K-1 to all partners. Schedule K-1 reflects the amounts on Schedule K that are allocated to each partner.

S. Definitions and Special Rules.—

(1) *General partner.*—A general partner is a member of the organization who, except as provided in section 301.7701-2 (d)(2) of the Regulations, is personally liable for the obligations of the partnership.

(2) *Limited partner.*—A limited partner is one who may not be held responsible for partnership debts, and whose potential personal liability is confined to the amount of money or other property that the partner contributed or is required to contribute to the partnership.

(3) *Limited partnership.*—A limited partnership is one composed of at least one general partner and one or more limited partners, organized under the Uniform Limited Partnership Act or comparable State statute.

(4) *Nonrecourse loans.*—Nonrecourse loans are those liabilities of the partnership for which none of the partners have any liability.

(5) *Organization fees.*—Amounts paid or incurred to organize a partnership or promote the sale of an interest in a partnership are capital expenditures subject to section 263, and as such are not deductible. Include these amounts on Schedule L—Balance Sheets. See the note in specific instruction 14 for the treatment of such amounts paid to a partner. Also see section 709 for further details.

(6) For the special treatment of certain expenditures incurred in the production of films, books, records, or similar property, see section 280.

Specific Instructions

These instructions correspond with line numbers on the first page of the return, and with schedules appearing on its other pages.

1. Gross receipts.—Enter gross receipts or sales from all business operations except those required to be reported on lines 4 through 11.

Installment sales.—If, under section 453, you use the installment method, attach a schedule showing separately the current year and the three preceding years the following: (a) gross sales; (b) cost of goods sold; (c) gross profits; (d) percentage of gross profits to gross sales; (e) amount collected; and (f) gross profit on amount collected.

Farmer's income schedule.—For farm income, attach Schedule F (Form 1040). (See instruction 9.)

2. Cost of goods sold (Schedule A).—If the production, manufacture, purchase, or sale of merchandise is an income-producing factor in the trade or business, inventories of merchandise on hand should be taken at the beginning and end of the taxable year. They may be valued at cost, cost or market, whichever is lower; or any other method approved by the Commissioner. The valuing method you adopt for the first year is controlling, and can be changed only if you obtain permission from the Commissioner.

If the partnership wants to adopt the LIFO inventory method provided in section 472, it must file application to do so on Form 970 or attach a statement that contains all the information required by Form 970.

Items withdrawn from inventory or purchases for the personal use of individual partners should not be included as part of the cost of goods sold. Account for them in Schedules M and K–1.

Cost of operations (where inventories are not an income-determining factor).—If the amount you enter on line 2 includes an amount applicable to the cost of operations, complete Schedule A.

4. Ordinary income (loss) from other partnerships, syndicates, etc.—If one partnership, (partnership A) is a partner in another partnership (partnership B), partnership A will enter on this line its distributive share of ordinary income (loss) from B. If the distributive share is a loss, it must be limited to the amount of the adjusted basis of A's interest in partnership B as of the end of partnership B's year in which the loss occurred. If A's taxable year does not coincide with the annual accounting period of partnership B, include in A's return the distributive share of the ordinary income (loss) for the accounting period of partnership B ending within the period for which A's return is filed.

Partnership A will consider its distributive share of other items (see general instruction M (1) through (7)) from partnership B as if such items were realized directly from the source from which realized by partnership B or incurred in the same manner as incurred by partnership B. For example, partnership A's distributive share of partnership B's capital gains or (losses) should be reported on Schedule D (Form 1065), lines 2 and 5.

5. Nonqualifying dividends.—Nonqualifying dividends are taxable dividends which are included in ordinary income and for which the individual partner is NOT entitled to an exclusion. Such dividends are derived from the following sources:

(a) Corporations which, for their taxable year in which the distribution is made or for their next preceding taxable year, are exempt from tax under section 501 (charitable, etc., organizations) or section 521 (farmers' cooperatives).

(b) Mutual savings banks, cooperative banks, domestic building and loan associations, domestic savings and loan associations, Federal savings and loan associations, on deposits or withdrawable accounts. Report dividends from these organizations as interest.

(c) Regulated investment companies, except to the extent designated by the company to be taken into account as a dividend for these purposes.

(d) Certain real estate investment trusts under sections 856 to 858.

(e) Foreign corporations, including your share from a controlled foreign corporation.

Qualifying dividends are taxable dividends received from domestic corporations not listed above. See instructions for Schedule K, line 3.

6. Interest.—Enter total interest from all sources except (a) interest exempt from tax, (b) interest on tax-free covenant bonds.

7. Rents.—Report in Schedule H the income and expenses attributable to rental property. The partnership may be limited in the amount of expense deductions attributable to the rental of a vacation home if the property is used by a partner for personal purposes. (See section 280A.)

8. Royalties.—Enter net income (loss) shown on the detailed schedule you attach to the return.

9. Net farm profit (loss).—Enter the partnership's net profit (loss) from Schedule F (Form 1040). DO NOT include on this line any amounts reported on Schedule K (Form 1065).

In the case of any farming syndicate, a deduction for amounts paid for feed, seed, fertilizer, or other similar farm supplies shall only be allowed in the taxable year in which such items are actually used or consumed. For definitions, exceptions to the general rule, and special rules for poultry, see section 464. For special rules for grove, orchard and vineyard expenses, see section 278.

If a corporation is a member of a partnership that is engaged in farming, see section 447.

11. Other income.—Enter any other taxable income and explain its nature on an attached schedule, except those items requiring separate computations (see general instruction M (1) through (7)) which are required to be reported on Schedule K. (See instructions for Schedule K.) Include taxable income from annuities and insurance proceeds.

Deductions

13. Salaries and wages.—Enter all salaries and wages not included on line 29, except salaries to partners.

14. Payments to partners—salaries and interest (guaranteed payments).—In computing ordinary income, take a deduction for payments to a partner for services or the use of capital if the payments are determined without regard to partnership income, unless such payments are properly capitalizable. Do not include distributive shares of partnership profits. Report the guaranteed payments to the appropriate partners on Schedule K–1 (Form 1065), line 1(a).

Note: *Although paymants to a partner for services rendered in organizing a partnership may constitute guaranteed payments under section 707, they are not deductible on line 14 since they are capital expenditures. (See general instruction S(5).)*

Any such payments to a partner that are not deductible on line 14 should be reported on Schedule K, line 14, and also included on line 2 of Schedule N, Computation of Nat Earnings (Loss) from Self-Employment.

15. Rent.—Enter rent paid on business property but do not deduct rent for the portion of the dwelling occupied by any partner for personal use.

16. Interest.—Enter interest on all indebtedness incurred for the operation of the trade or business. Payments by a partnership to a partner for the use of capital should be entered on line 14. But interest paid by a partnership to a partner as a result of a transaction in which the partner acts as other than a partner should be entered on this line. (The limitations on deductions for unpaid interest are given in section 267).

Generally, a cash basis partnership is to deduct prepaid interest payments over the period of the loan instead of when actually paid. This allocation applies to amounts paid after December 31, 1975, in taxable years ending after such date. However, no allocation shall apply to amounts paid before January 1, 1977, pursuant to a binding contract or written loan commitment which existed on September 16, 1975 (and at all times thereafter), and which required prepayments of such amounts, if the deduction of such interest would not materially distort income. (See section 461(g).)

For taxable years beginning in 1976 the deduction for construction period interest in the case of nonresidential real property is limited to fifty percent of such costs if the construction period began after December 31, 1975. The amounts disallowed under the above rule shall be charged to a capital account and amortized as required by section 189. (If a corporation is a partner see the instructions for Schedule K, line 14, paragraph (h).)

A partnership generally cannot deduct interest expense it incurred after December 16, 1969, on funds borrowed to purchase or carry property held for investment. See instructions on page 7 for Schedule K, line 17. For further information, see section 163(d), and Form 4952, Investment Interest Expense Deduction.

17. Taxes.—Enter taxes paid on business property or incurred for carrying on business if not reflected in cost of goods sold. Federal import duties and Federal excise and stamp taxes are deductible only if paid or incurred in carrying on a trade or business, or in the production or collection of income, or for the management, conservation, or maintenance of property held for the production of income. Do not deduct taxes assessed against local benefits tending to increase the value of the property assessed, as for paving, etc.; Federal income taxes; estate, inheritance, legacy, succession, and gift taxes; or taxes reported separately on Schedule K.

For taxable years beginning in 1976 the deduction for construction period taxes in the case of nonresidential real property is limited to fifty percent of such costs if the construction period began after December 31, 1975. The amounts disallowed under the above rule shall be charged to a capital account and amortized as required by section 189. (If a corporation is a partner see the instructions for Schedule K, line 14, paragraph (h).)

18. Bad debts.—Deduct bad debts—(a) when they become wholly or partially worthless, or (b) by reasonable addition to a reserve for bad debts. A partnership may select either method on its first return in which a bad debt deduction is taken, but must follow that method for subsequent years unless it received permission to change.

19. Repairs.—Enter the cost of incidental repairs, etc., that do not add to the value or appreciably prolong the life of the repaired property. Expenditures for new buildings, machinery, or for permanent improvements or betterments that increase the value of the property, are chargeable to capital accounts and may be depreciated or amortized.

Include the total amount of repairs from Form 4832 if the Class Life (ADR) System of depreciation is used.

20. Depreciation.—A reasonable allowance for the exhaustion, wear and tear, and obsolescence of property used in the trade or business or of property held by the taxpayer for the production of income is allowable as a depreciation deduction. (Section 167.) The allowance does not apply to inventories or stock-in trade nor to land apart from the improvements or physical developments added to it. Include depreciation on leasehold improvements, patents, and copyrights in Schedule J.

Adjustments to basis of property:

(a) Additional first year depreciation.—If you elect to claim the additional first-year allowance under section 179, adjust the basis of the property for the amount of the deduction claimed. (See paragraph (d) under Depreciation Methods.)

(b) Salvage value.—Salvage value must be taken into account in determining the depreciation deduction, except under the declining balance method, Class Life (ADR) System, or Guidelines Class Life System. In computing the basis on which you may take depreciation for personal property (other than livestock) you need not take into account salvage value that does not exceed 10 percent of the property's cost or other basis. If the salvage value exceeds 10 percent, only the excess need be taken into account. These provisions apply to property acquired after October 16, 1962, having a useful life of three or more years. (See section 167(f).)

Depreciation Methods

The various methods of depreciation you may use are:

(a) Straight line.—To compute the deduction, add the improvement's cost to the property's cost (or other basis) and deduct the total depreciation allowed or allowable in prior years. Divide the result by the number of years of the asset's useful remaining life. The quotient is the depreciation deduction.

(b) Declining balance.—Apply a uniform rate each year to the remaining cost or other basis of property determined at the beginning of such year without adjustment for salvage value. For property acquired before January 1, 1954, or used property whenever acquired, the rate of depreciation under this method may not exceed one and one-half times the applicable straight-line rate.

(c) Special rules for new assets.—You may depreciate the cost or other basis of a new asset under any of the following methods, provided the asset is tangible, has an estimated useful life of three or more years, and its original use began with the partnership.

(i) Declining balance.—This method may be used with a rate not in excess of twice the applicable straight-line rate.

(ii) Sum of the years-digits.—Compute the deduction for each year by multiplying the cost or other basis of the asset by the number of years of useful life remaining (including the year for which the deduction is computed) and dividing the product by the sum of all the digits corresponding to the years of the estimated useful life of the asset. In the case of a five year life, this sum would be 15 (5+4+3+2+1). For the first year, five-fifteenths of the cost would be allowable; for the second year, four fifteenths; etc.

(iii) Other methods.—A partnership may use any consistent method that does not result in accumulated allowances at the end of any year greater than the total of the accumulated allowances which would have resulted from the use of the 200 percent declining balance method. This limitation applies only during the first two thirds of the useful life of the property.

(d) Additional first-year depreciation.—A partnership may elect to write off as additional first year depreciation 20% (not to exceed $2,000) of any portion of the cost (before salvage value) of its personal tangible depreciable property acquired in the taxable year if the asset has a useful life of six years or more from its acquisition date. The additional depreciation is not deductible by the partnership, but the partners will report individually, their pro-rata shares in the year regular depreciation with respect to the property is deducted by the partnership. The basis of the asset for computing regular depreciation is cost of the asset less the additional allowance and any salvage value taken into account, whether or not the partners deduct the additional depreciation.

Show the total additional first-year depreciation on Schedule J, line 1, and Schedule K, line 2 and allocate to each partner on Schedule K–1 (Form 1065), line 2. The partners must determine the maximum deduction allowable for the additional first-year depreciation by combining their individual share of the partnership's additional first-year depreciation and the total of their trade or business additional first-year depreciation. The total deduction for additional first-year depreciation for each partner's own return (including the partner's share of the partnership's additional first-year depreciation) may not exceed $2,000 ($4,000 if married and filing a joint return) in the partner's taxable year.

An individual must enter the portion of the allowable deduction attributable to that individual's share from a partnership as a deduction from income on Schedule E (Form 1040) Part III; and as a deduction in arriving at farm or nonfarm net self employment income on the appropriate line of Schedule SE (Form 1040).

(e) New section 1250 property.—Do not use the double declining balance or sum of the years-digits methods except for (1) new residential rental property (from which at least 80 percent of the gross rental income is derived from rental of residential units), (2) other new real property acquired before July 25, 1969, and (3) new real property acquired after July 24, 1969, if construction, acquisition, or permanent financing arrangements under a binding written contract were entered into before July 25, 1969. You may depreciate other new real property acquired after July 24, 1969, only under the straight-line or 150 percent declining balance methods. (See section 167(j).)

(f) Used section 1250 property.—You may depreciate used residential rental property acquired after July 24, 1969, with a useful life of 20 years or more, under the 125 percent declining balance method. For used real property acquired after July 24, 1969, where construction, acquisition, or permanent financing arrangements under a binding written contract were entered into before July 25, 1969, limit depreciation to the 150 percent declining balance method. Depreciate other used real property acquired after July 24, 1969, only under the straight-line method. (See section 167(j).)

(g) Rehabilitation expenditures for low-income rental housing.—Generally, you may elect to depreciate property attributable to rehabilitation expenditures for low-income rental housing incurred after July 24, 1969 and before January 1, 1978. Claim such depreciation under the straight-line method using a useful life of 60 months. For details see section 167(k).

Class life (ADR) System and Guideline Class Life System.—If you figure depreciation by using the Class Life (ADR) System for assets put in service after December 31, 1970, or the Guideline Class Life System for assets put in service before January 1, 1971, you must file Form 4832 (Class Life (ADR) System) or Form 5006 (Guideline Class Life System). For more information obtain Publication S34, Tax Information on Depreciation.

21. Amortization.—If the partnership elects the deduction for amortization of certain expenditures relating to research and experiment (section 174), trademark and trade name expenditures (section 177), and development (section 616), file a pertinent statement with the return. Do not enter the deduction for amortization of bond premium on this line but include it on line 24.

See section 169 for conditions whereby you may amortize the cost of certified pollution control facilities over a five-year period.

See section 188 for conditions whereby you may amortize the cost of certain expenditures made before January 1, 1977 for on-the-job training and child care facilities over a period of 60 months.

See section 189 for the amortization of real property construction period interest and taxes.

See section 191 for conditions whereby you may amortize the cost of certain rehabilitation expenditures made after June 14, 1976 for certified historic structures over a period of 60 months.

For details you must furnish in statements required by these sections, consult any IRS office.

22. Depletion.—If you claim a deduction for timber depletion, attach Form T. Do not include on line 22 any percentage depletion of those oil and gas wells for which the partners must compute their depletion deduction separately under Section 613A. See instructions for Schedule K, line 14, paragraph (f).

23(a). Retirement plans, etc.—Enter deductible contributions made by the partnership for its common-law employees under a qualified pension, profit-sharing, annuity, or bond purchase plan, and under any other deferred compensation plan. Payments on behalf of any of the partners to the above type of plans should be entered on Schedule K, line 13(a) instead of line 23(a) of Form 1065.

Note: *Every employer who has adopted a pension, profit-sharing, or other funded*

deferred compensation plan, regardless of whether or not the plan is qualified under the Internal Revenue Code or a deduction is claimed for the current taxable year, must file the required forms as described below—

Form 5S00: Complete for each plan with 100 or more participants, whether or not an owner-employee participates.

Form 5S00–C: Complete for each plan with fewer than 100 participants none of whom is an owner-employee.

Form 5500–K: Complete for each plan with fewer than 100 participants and at least one owner-employee participant.

File these forms on or before the last day of the seventh month following the close of your taxable year. Do not attach any of the above forms to your Form 1065.

If the partnership contributes to an Individual Retirement Account, Annuity, or Bond for employees, include such amount in compensation on page 1, line 13 or 29. Contributions to an Individual Retirement Account, Annuity, or Bond on behalf of a partner should be entered on Schedule K, line 13(b). Individuals should attach Form 5329 to their Form 1040 to substantiate their deduction for an Individual Retirement Account, Annuity, or Bond.

23(b). Employee benefit programs.—Enter the partnership's contributions to employee benefit programs for common-law employees that are not an incidental part of retirement plans included on line 23(a). Include contributions for insurance, health, and welfare programs.

24. Other deductions.—Enter any other authorized deductions for which no space is provided elsewhere on page 1 of the return, exclusive of those items requiring separate computation (see general instruction M (1) through (7)) which are required to be reported on Schedule K. Do not deduct losses incurred in transactions which were neither connected with the trade or business nor entered into for profit.

No deduction is allowable for the amount of any item or part of it allocable to a class of exempt income, other than the allowable portion attributable to certain wholly exempt interest income. Items directly attributable to such exempt income shall be allocated to it, and items directly attributable to any class of taxable income shall be allocated to that taxable income. If an item is attributable both to taxable income and exempt income, allocate a reasonable proportion of it to each. (See section 265.)

A partnership receiving any exempt income other than interest, or holding any property or engaging in any activity the income from which is exempt, shall submit as a part of its return an itemized statement showing (a) the amount of each class of exempt income, and (b) the amount of expense items allocated to each such class (the amount allocated by apportionment being shown separately).

Schedule D—Capital gains and losses.—This schedule provides for the reporting of sales or exchanges of capital assets. Report every sale or exchange of property in detail, even though no gain or loss is indicated. Exceptions are specially allocated gains and losses entered on Schedule K, line 15, and shown in a separate schedule attached to Form 1065. (See Schedule K instructions for line 15.)

For reporting sales or exchanges of property other than capital assets including the sale or exchange of property used in trade or business and involuntary conversions (section 1231), see Form 4797 and related instructions.

Basis.—In most cases, the property's basis is its cost to the partnership. The basis of property contributed to the partnership by a partner is the adjusted basis of such property to the contributing partner at the time of the contribution. The partnership may also need to use a basis other than actual cash cost if the property was acquired by gift, inheritance, tax-free exchange, etc. If a basis other than actual cash cost is used, attach an explanation giving full details of the basis used.

"Capital assets" defined.—The term "capital assets" means property held by the partnership (whether or not connected with the trade or business) but does NOT include—

(a) stock in trade or other property of a kind properly includible in the inventory if on hand at the close of the taxable year;

(b) property held by the partnership primarily for sale to customers in the ordinary course of the trade or business;

(c) property used in the trade or business of a character subject to the depreciation allowance provided in section 167;

(d) real property used in the partnership trade or business;

(e) certain Government obligations issued at a discount, payable without interest, and maturing at a fixed date not exceeding 1 year from issue date;

(f) certain copyrights, literary, musical, or artistic compositions, letters or memorandums, or similar property;

(g) certain publications of the U.S. Government (including the Congressional Record); or

(h) accounts and notes receivable acquired in the ordinary course of trade or business for services rendered or from the sale of property referred to in (a) or (b), above.

As to (b), above, the law allows dealers in securities capital gain or loss treatment on certain securities which were clearly identified as being held for investment. Also, certain real property subdivided for sale may be treated as a capital asset. (See sections 1236 and 1237.)

Transfer of appreciated property to a political organization.—If you transfer property to a political organization end at the time of transfer the fair market value of the property exceeds the partnership's adjusted basis, you must treat this transaction as a sale of property on the date of transfer. Ordinary income or capital gains provisions will apply as if a sale had actually occurred. (See section 84.)

Exchange of "Like Kind" property.—Although no gain or loss is recognized when property held for productive use in trade or business or for investment is exchanged solely for property of a "like kind" to be held either for productive use in trade or business or for investment, you must report the transaction on Schedule D (Form 1065) or Form 4797, whichever is applicable. (This does not include property that is stock in trade or other property held primarily for sale, nor stocks, bonds, notes, choses in action, certificates of trust or beneficial interest, or other securities or evidences of indebtedness or interest.)

If Schedule D (Form 1065) is used, identify the property disposed of in column a. Enter the date of acquisition in column b and the date of exchange in column c. Write "like kind exchange" in column d and enter the adjusted basis in column e. Enter zero in column f. (See section 1031.)

Capital gain distributions.—Report on line 6 as long-term capital gain any amount a regulated investment company advises you, as a shareholder, is (a) a capital gain dividend, or (b) the partnership's share of the company's undistributed capital gain. (See Schedule K instructions for line 12.)

Losses on worthless securities.—If any securities which are capital assets become worthless during the taxable year, the loss shall be considered a loss from the sale or exchange of capital assets as of the last day of that taxable year.

Collapsible corporations.—Gain from the sale or exchange of stock in a collapsible corporation is not a capital gain. (See section 341.)

"Wash sales" losses.—Losses from the sale or other disposition of stock or securities are not deductible (unless sustained in connection with the partnership trade or business) if, within 30 days before or after the date of sale or other disposition, the partnership has acquired (by purchase or by an exchange upon which the entire amount of gain or loss was recognized by law) or has entered into a contract or option to acquire, substantially identical stock or securities.

Installment sales.—If you sold personal property for more than $1,000 or real property regardless of amount, you may be eligible to report any gain under the installment method if there are no payments in the sale year or the payments in the sale year do not exceed 30% of the selling price. (See section 453.) Such sales must provide for 1 or more payments in each of 2 or more taxable years.

For treatment of a portion of payments as "unstated interest" on deferred payment sales, see section 483.

Schedule K and Schedule K–1—Partner's shares of income, credits, deductions, etc.—Show on Schedule K complete information for all members of the partnership, syndicate, etc., during any portion of the taxable year. Although the partnership is not subject to income tax, the members are liable for income tax in their separate capacities and are taxable upon their distributive shares of the partnership income, whether distributed or not, and are required to include their share in their returns.

Advise each partner, on Schedule K–1 (Form 1065) of that partner's share of the income, deductions, credits, etc., shown in Schedule K.

Partner's Distributive Share.—Income or (loss) will be allocable to a partner only for the portion of the year that person is a member of the partnership. In determining the income, loss or special item allocable to an incoming partner, the partnership will either allocate on a daily basis or separate the partnership year into two (or more) segments and allocate income, loss or special items in each segment among the persons who were partners during that segment. (See section 706(c)(2) for additional information and for the termination of a partner's interest.)

Special Allocations.—If the partnership agreement does not provide for the partner's distributive share of income, gain, loss, deduction, or credit, or if the allocation under the agreement does not have substantial economic effect; the partner's distributive share will be determined in accordance with the partner's interest in the partnership. (See section 704(b).)

Enter on Schedule K–1 the names, addresses and identifying numbers of the partner and partnership. Be sure to answer all the questions on the schedule including the appropriate partner's percentages, adjusted basis, etc. Also complete the Reconciliation of Partner's Capital Account on the back of the schedule.

The line references below are the same for Schedule K and Schedule K–1 unless otherwise noted in the instructions.

Line 1, Schedule K.—Combine the ordinary income (loss) on line 26 with the payments on line 14 that were made to partners for salary and interest for use of capital.

Line 1(a), Schedule K–1.—Enter the partner's share of salary and interest reported on Form 1065, line 14.

Line 1(b), Schedule K–1.—Enter the partner's share of the ordinary income or (loss) reported on Form 1065, line 26. If Form 1065, line 26 is a loss, enter the partner's full distributive share of such loss, without reference to the adjusted basis of the partner's interest in the partnership or the partner's "at risk" factor.

In determining the total ordinary income or (loss) to be reported on the partner's return, the partner must take into account any ordinary income or expense items reported on Schedule K–1 which are not included in the partner's distributive share of the partnership's total income on Schedule K–1, line 1(b). Such amounts include guaranteed payments to the partner included on line 14 and investment interest expense reported on line 17(a)(1) and (2).

Although line 1(b) will generally reflect the partner's full distributive share of the partnership ordinary income or (loss), in determining the amount to be reported on the partner's own tax return a partner may not claim his or her distributive share of a partnership loss that is in excess of the adjusted basis of the partner's interest in the partnership at the end of the partnership's taxable year. However, the partner may claim this excess in later years to the extent his or her basis increases above zero. (The amount of a partner's distributive share of a partnership loss that the partner is allowed to deduct in the current taxable year may also be limited by the "at risk" provisions discussed below.)

Effective for taxable years beginning after December 31, 1975, special "at risk" rules apply in the case of a partnership engaged in the activity of—

(a) holding, producing, or distributing motion picture films or video tapes,

(b) farming (as defined in section 464(e)),

(c) leasing any section 1245 property, or

(d) exploring for, or exploiting, oil and gas resources,

as a trade or business or for the production of income.

A partner's share of any loss from such activity for the taxable year shall be allowed only to the extent of the aggregate amount with respect to which the partner is "at risk" with respect to the activity at the close of the partnership's taxable year.

A partner is generally considered "at risk" with respect to an activity to the extent of the cash and the adjusted basis of other property the partner contributed to the activity, as well as any amounts borrowed for use in the activity for which the partner is either personally liable or has pledged personally-owned property as security (other than property used in the activity).

Under the provisions of section 465, a partner is not considered "at risk" with respect to the proceeds from the partner's share of any nonrecourse loan used to finance the activity or the acquisition of property used in the activity. However, a partner is generally considered "at risk" to the extent of the net fair market value of the partner's personal assets which secure nonrecourse loans, the proceeds of which are used in the activity.

Amounts borrowed shall not be considered to be "at risk" with respect to an activity if such amounts are borrowed from any person who has an interest (other than an interest as a creditor) in the activity, or if the lender is related to the partner within the meaning of section 267(b). A partner is not "at risk" for any amount to the extent that the partner or the partnership is protected against loss by a guarantee, stop-loss order or other similar arrangement.

"A partner's interest in the partnership is treated as a single activity to the extent that the partnership is engaged in activities described in any one of the items (a) through (d). For example, if the partnership is engaged in the operation of two separate farms (within the provisions of section 464(e)), the two operations are considered a single activity for purposes of determining the amount at which the partner is "at risk". However, if the partnership is engaged in two (or more) different types of "at risk" activities, the partner is considered engaged in two (or more) separate activities and the partner must determine the amount at which he or she is "at risk" for each of the separate types of activities.

If the partnership is engaged in two different types of "at risk" activities or any combination of "at risk" activities and activities other than "at risk", line 1(b) should reflect the total ordinary income or (loss) from all operations. Identify the income or (loss) from each "at risk" activity separately on line 14 or a separate statement. Also, report separately for each "at risk" activity, a partner's share of partnership liability at the end of the partnership's taxable year for which the partner is personally liable.

Any loss from a section 465 activity not allowed under this section for the taxable year shall be treated as a deduction allocable to such activity in the first succeeding taxable year.

See section 465 for additional details. Special transitional rules relating to movies, video tapes, and leasing activities can be found in section 204(c)(2) and (3) of the Tax Reform Act of 1976.

In applying the "at risk" provisions to activities which were begun in taxable years beginning before January 1, 1976 (and not exempted by the above transition rules), amounts paid or incurred in taxable years beginning prior to that date and deducted in such taxable years will generally be treated as reducing first that portion of the taxpayer's basis which is attributable to amounts not at risk. Withdrawals made in taxable years beginning before January 1, 1976, will be treated as reducing the amount which the taxpayer is "at risk".

In the case of certain liabilities incurred after December 31, 1976, the adjusted basis of any partner's interest in the partnership (for determining limitation on losses) generally shall not include any portion of any partnership liability with respect to which the partner has no personal liability. (See section 704(d) for exceptions.)

Line 3.—Enter the dividends received from domestic corporations, for which the partner is entitled to an exclusion (section 116) on the individual income tax return filed by the partner. (See Specific Instruction 5.)

Line 9.—Enter contributions paid by the partnership within its taxable year. (You must also submit an itemized list of the partnership's charitable contributions.)

Line 10.—Expense account allowance.—Expense account allowance means (a) amounts other than compensation received as advances or reimbursements, and (b) amounts paid by or for the partnership for expenses incurred by or on behalf of a partner, including all amounts charged through any type of credit card.

It does not include amounts paid for (i) the purchase of goods for resale or use in the business, and (ii) incidental expenses, such as the purchase of office supplies for the partnership, or local transportation in connection with an errand. The partnership should maintain records to substantiate travel and entertainment expenditures. See section 274(h) for the treatment of expenses incurred for attending a convention outside of the United States, its possessions, and the Trust Territory of the Pacific.

Complete Schedule K–1 (Form 1065), line 10, for the 6 highest paid partners, including limited partners. To determine the partners for whom the information is required, all allowances including such expense account allowances and the partner's share of ordinary income must be added to each partner's compensation. You need not complete Schedule K–1 (Form 1065), line 10, for any partner for whom the combined amount is less than $25,000.

Line 11.—Enter taxes described in section 901 paid or accrued by the partnership to foreign countries or U.S. possessions.

Any partnership, or a partner in a partnership, or a partnership which is a United States shareholder of a foreign corporation, which has operations in, or related to, a country (or with the government, a company, or a national of a country) which requires participation in or cooperation with an international boycott as a condition of doing business within such country or with the government, company, or national of such country, may be required to file Form 5713 (see section 999(a)).

Further, if that partnership, partner, or United States shareholder, participates in or cooperates with an international boycott (as defined in section 999(b)(3)) during the taxable year, a portion of the foreign tax credit will be denied the partners. Any partnership or partner subject to the reporting requirements of section 999(a), as outlined above, is required to file Form 5713 in duplicate. The original copy is to be filed with the Internal Revenue Service Center, 11601 Roosevelt Blvd., Philadelphia, Pennsylvania 19155. The duplicate copy of Form 5713 is to be attached to the partnership's return of income.

Line 12.—Enter taxes paid on undistributed capital gains by a regulated investment company. The partnership as a shareholder of a regulated investment company will receive notice on Form 2439 that the company paid tax on undistributed capital gains.

Line 14.—Enter on Schedule K the partnership's total for each of the applicable items in paragraphs (*a*) through (*h*). If you need more space, see general instruction Q. Enter each partner's distributive share of these items on Schedule K–1 (Form 1065).

(a) The totals of income or gain and deduction or credit of the following items: recoveries of bad debts, prior taxes and delinquency amounts (section 111); gains and losses from wagering transactions (section 165(d)); soil and water conservation expenditures (section 175); intangible drilling and development costs (section 263(c)); deduction and recapture of certain mining exploration expenditures paid or incurred (section 617); and any income, gain, or loss to the partnership under section 751(b).

(b) The partnership's gains from disposition of farm property recapture (Form 4797), and other items applicable to sections 1251 and 1252.

(c) For the taxable year, the number of gallons of (*i*) gasoline used (A) on a farm for farming purposes, (B) other than as fuel in a highway vehicle, and (C) in vehicles while engaged in furnishing certain public passenger land transportation service; (*ii*) lubricating oil used other than in a highway motor vehicle; and (*iii*) special fuels used (A) on a farm for farming purposes, (B) in vehicles while engaged in furnishing certain public passenger land transportation service, and (C) for nontaxable uses.

The partners should attach Form 4136 to their income tax return to claim a credit for Federal tax on such gasoline, special fuels, and lubricating oil.

(d) Enter the wages paid or incurred by the partnership under a Work Incentive (WIN) Program. Attach to Form 1065 a separate schedule showing each WIN program employee's name, social security number, date employment began, and the qualified salaries and wages paid or incurred. Give all partners a copy of this schedule and their allocation with respect to each WIN program employee so they can claim a credit for WIN program salaries and wages on Form 4874. The credit is allowed for the salaries and wages paid or incurred for the first 12 months of employment. If a WIN program employee is dismissed before completing a certain period of employment each partner must repay (with certain exceptions) any tax credit previously taken on the salaries and wages paid or incurred by the partnership to that employee. For additional information on claiming this credit and for recomputing a prior year credit, see Form 4874.

(e) The gross profit from the partnership's farm and nonfarm business income that is used under the optional method to determine self-employment income.

(f) On Schedule K–1, supply each partner with information (such as the partner's share of gross income from the property, share of production for the taxable year, etc.) necessary to determine the partner's depletion deduction for those oil and gas wells for which the partners must compute their depletion deductions separately under section 613A. Enter the totals of such amounts on Schedule K.

(g) Payments to a partner for services rendered in organizing a partnership. (See the note in specific instruction 14 on page 3.)

(h) Corporations (other than electing small business corporations or personal holding companies) are not subject to the limitations under section 189 for construction period interest and taxes. If such interest and taxes are included in the amounts on Form 1065, page 1, lines 16 and 17, and a corporation is a partner, the following computation is required.

Determine the partnership's total of such construction period interest and taxes without reduction for the section 189 limitation. Subtract from that figure the construction period interest and taxes actually deducted under section 189 (computed as if there were no corporate partners) including any amortization of such interest and taxes reported on page 1, line 21. Enter on line 14 of Schedules K and K–1, the corporate partner's distributive share of the difference determined above. For 1976 this amount will thus decrease a corporate partner's distributive share of partnership income or increase the distributive share of any loss. No adjustment is required for partners other than corporations.

Line 15.—Enter any items of income, gain, loss, deduction, or credit subject to a special allocation under the partnership agreement which differ from the allocation of partnership income or loss. Partners must take any specially allocated items into consideration in determining the limitations on losses discussed on page 6.

A partnership that is a partner must include its distributive share of specially allocated ordinary gains or losses from another partnership on Form 4797, line B.

Line 16.—Enter items of income and deductions which enter into the computation of tax preference items.

Report amounts paid by the partnership that would constitute an itemized deduction on any of the partner's income tax returns. (See Form 4625 for details.)

Do not include on this line any percentage depletion on those oil and gas wells for which the partners must compute their depletion deductions separately under section 613A.

For any partner that is a corporation, enter on line 14 of Schedules K and K–1, any income reported that is allocable to such partner(s) that constitutes "timber preference income" within the meaning of section 57(e).

An individual partner with tax preference items may be required to file Form 4625. See that form for definitions of tax preference items, filing requirements, and tax computation. (Other taxpayers see Form 4626.)

Line 17.—Enter the interest on investment indebtedness and applicable items of investment income, expenses, and gains and losses from the sale or exchange of such investment property. Such investment interest expense must be allocated to the period in which the indebtedness was incurred. Indebtedness is considered incurred prior to September 11, 1975 if it is attributable to a specific item or property; is for a specific term; and was incurred before September 11, 1975 or after September 10, 1975, pursuant to a written contract or commitment which on September 11, 1975, and at all times thereafter (before incurring such indebtedness) is binding on the partnership. Notify the partners of any portion of the investment interest expense that consists of nonbusiness interest. After determining any limitation on Form 4952, individual partners should deduct their allowable nonbusiness investment interest on Schedule A (Form 1040).

For further information and the special provisions that apply to "out of pocket" expenses and rental income attributable to property subject to net lease, see section 163(d) and Publication 550, Tax Information on Investment Income and Expenses (Individuals, estates and trusts, also see Form 4952.)

Line 18.—Enter the partnership's investment in certain depreciable property by new and used categories and life years. Partners are allowed a tax credit based on their pro rata shares of such investment by filing Form 3468. (For information on whether property qualifies for the credit and for other information, see Form 3468 and related instructions.)

Line 19.—(Schedule K–1 only). When investment credit property is disposed of prior to the "life years category" assigned, notify each partner on line 19 of Schedule K–1. The partners must recompute their investment credit using as the useful life the period the property was actually held. In recomputing the credit, the partners must use the life years categories of 0–3 years; 3–5; 5–7; and 7 or more. If the credit taken (including carrybacks and carryovers) exceeds the recomputed credit, the tax for the year of disposition must be increased by the excess. For additional information, see Form 4255.

Schedule M—Reconciliation of Partners' Capital Accounts.—Show on this schedule what caused the changes in the partners' capital accounts during the taxable year. The amount in column a should agree with the amount in Schedule L, column (B), line 19; and the amount in column g should agree with the amount in Schedule L, column (D), line 19. If such amounts do not agree attach an adequate explanation of any difference.

Schedule N—Computation of Net Earnings (Loss) from Self-Employment.—In determining the amount of net earnings (loss) from self-employment, exclude income and deductions from the following sources:

Interest.—Interest on bonds, debentures, notes, certificates, or other evidences of indebtedness, issued with interest coupons or in registered form by a corporation, government, or political subdivision, unless received in the course of a trade or business as a dealer in stocks or securities.

Real estate rentals.—Rentals from real estate, except rentals received in the course of a trade or business as a real estate dealer.

The following do not constitute rentals from real estate: receipts for the use or occupancy of rooms or other space where services are also rendered to the occupant, such as rooms in hotels; boarding-houses; apartment houses furnishing hotel services; tourist camps; tourist homes; or space in parking lots, warehouses, or storage garages. Include them in determining net earnings (loss) from self-employment.

Include in the amount on line 2, any guaranteed payments to partners reported on Schedule K, line 14. (See the note in specific instruction 14 on page 3.) Also include other ordinary income and expense items reported on Schedule K.

Codes for Principal Business Activity and Principal Product or Service

These industry titles and definitions, for use on Form 1065 partnership returns, are based on the 1972 revised Standard Industrial Classification system developed by the Office of Management and Budget, Executive Office of the President, to classify enterprises and establishments by type of activity in which engaged.

Using the list below, enter on page 1, under E, the code for the specific industry group from which the largest percentage of "total receipts" is derived. "Total receipts" means gross receipts (line 1a, page 1), plus all other income (lines 4 through 11, page 1). On page 1, under A, state the principal business activity and under B, state the principal product or service which accounts for the largest percentage of total receipts. For example, if the principal business activity is "Retail food store," the principal product or service may be "dairy products."

AGRICULTURE, FORESTRY, AND FISHING

Code

Farms:
0120 Field crop.
0160 Vegetable and melon farms
0170 Fruit and tree nut farms
0180 Horticultural specialty.
0211 Beef cattle feedlots
0212 Beef cattle, except feedlots
0215 Hogs, sheep, and goats.
0240 Dairy farms.
0250 Poultry and eggs
0270 Animal specialty

Agricultural services and forestry:
0740 Veterinary services
0753 Livestock breeding
0754 Animal services, except livestock breeding and veterinary
0780 Landscape and horticultural services.
0790 Other agricultural services.
0800 Forestry

Fishing, hunting, and trapping:
0930 Commercial fishing, hatcheries and preserves
0970 Hunting trapping, and game propagation.

MINING

1000 Metal mining
1150 Coal mining
1300 Oil and gas extraction.
1400 Nonmetallic minerals except fuel.

CONSTRUCTION

General building contractors and operative builders:
1510 General building contractors.
1531 Operative builders

Heavy construction contractors:
1611 Highway and street construction.
1620 Heavy construction, except highway

Special trade contractors:
1711 Plumbing, heating, and air conditioning.
1721 Painting, paper hanging, and decorating.
1731 Electrical work
1740 Masonry, stonework, and plastering.
1750 Carpentering and flooring
1761 Roofing and sheet metal work
1771 Concrete work
1781 Water well drilling.
1790 Miscellaneous special trade contractors.

MANUFACTURING

2000 Food and kindred products.
2200 Textile mill products
2300 Apparel and other textile products
2400 Lumber and wood products, except furniture
2500 Furniture and fixtures
2700 Printing, publishing, and allied industries.
2800 Chemicals and allied products.
3100 Leather and leather products
3200 Stone, clay, and glass products.
3300 Primary metal industries.
3400 Fabricated metal products
3500 Machinery, except electrical.
3600 Electrical and electronic equipment.
3700 Transportation equipment.
3970 Other manufacturing industries.

TRANSPORTATION, COMMUNICATION, ELECTRIC, GAS AND SANITARY SERVICES

Local and interurban passenger transit:
4121 Taxicabs
4189 Other passenger transportation.

Trucking and warehousing:
4210 Trucking, local and long distance.
4289 Public warehousing and trucking terminals.

Other transportation including transportation services:
4400 Water transportation.
4500 Transportation by air.
4722 Passenger transportation arrangement.
4723 Freight transportation arrangement.
4799 Other transportation services.

4800 Communication.

4900 Electric and gas services.

4950 Sanitary services.

WHOLESALE TRADE

Durable:
5010 Motor vehicles and automotive equipment.
5030 Lumber and construction materials.
5060 Electrical goods.
5070 Hardware, plumbing, and heating equipment
5083 Farm machinery and equipment.
5089 Other machinery, equipment, and supplies.
5095 Other durable goods.

Nondurable:
5129 Drugs, chemicals, and allied products.
5130 Apparel, piece goods, and notions.
5140 Groceries and related products.
5150 Farm-product raw materials.
5180 Alcoholic beverages.
5195 Other nondurable goods.

RETAIL TRADE

Building materials, hardware, garden supply, and mobile home dealers:
5220 Building materials dealers.
5251 Hardware stores.
5261 Retail nurseries and garden stores
5271 Mobile home dealers

General merchandise:
5331 Variety stores.
5398 Other general merchandise stores.

Food stores:
5411 Grocery stores
5420 Meat and fish markets and freezer provisioners
5431 Fruit stores and vegetable markets.
5441 Candy, nut, and confectionery stores.
5450 Retail bakeries.
5480 Other food stores.

Automotive dealers and service stations:
5511 New and used car dealers
5521 Used car dealers.
5531 Auto and home supply stores.
5541 Gasoline service stations
5580 Boat, aircraft, and other automotive dealers

Apparel and accessory stores:
5611 Men's and boy's clothing and furnishings
5621 Women's ready-to-wear stores
5631 Women's accessory and specialty stores.
5651 Family clothing stores.
5661 Shoe stores.
5681 Furriers and fur shops
5698 Other apparel and accessory stores

Furniture, home furnishing, and equipment stores:
5712 Furniture stores.
5718 Home furnishings, except appliances.
5722 Household appliance stores.
5730 Radio, television, and music stores.

Eating and drinking places:
5812 Eating places
5813 Drinking places

Miscellaneous retail stores:
5912 Drug stores and proprietary stores.
5921 Liquor stores
5931 Used merchandise stores.
5941 Sporting goods stores and bicycle shops.
5942 Book stores
5943 Stationery stores.
5944 Jewelry stores.
5945 Hobby, toy, and game shops
5946 Camera and photographic supply stores.
5947 Gift, novelty, and souvenir shops
5948 Luggage and leather goods stores.
5949 Sewing, needlework, and piece goods stores.
5961 Mail order houses.
5962 Merchandising machine operators.
5963 Direct selling organizations.
5980 Fuel and ice dealers.
5992 Florists.
5993 Cigar stores and stands.
5996 Other miscellaneous retail stores.

FINANCE, INSURANCE, AND REAL ESTATE

6000 Banking.

6100 Credit agencies other than banks.

Security, commodity brokers, dealers, exchanges and services:
6212 Security underwriting syndicates.
6216 Security brokers and dealers, except underwriting syndicates.
6299 Commodity contracts brokers and dealers; security and commodity exchanges; and allied services.

Real estate:
6411 Insurance agents brokers, and services
6511 Real estate operators (except developers) and lessors of buildings
6520 Lessors of real property other than buildings
6531 Real estate agents, brokers, and managers.
6541 Title abstract offices.
6552 Subdividers and developers, except cemeteries
6553 Cemetery subdividers and developers.
6611 Combined real estate, insurance, loans, law offices.

Holding and other investment companies:
6746 Investment clubs.
6747 Common trust funds
6748 Other holding and investment companies.

SERVICES

Hotels and other lodging places:
7012 Hotels.
7013 Motels, motor hotels, and tourist courts.
7032 Sporting and recreational camps.
7033 Trailer parks and camp sites.
7089 Other lodging places.

Personal services:
7215 Coin-operated laundries and dry cleaning
7219 Other laundry, cleaning, and garment services
7221 Photographic studios, portrait.
7231 Beauty shops.
7241 Barber shops.
7251 Shoe repair and hat cleaning shops.
7261 Funeral services and crematories.
7299 Miscellaneous personal services.

Business services:
7310 Advertising.
7340 Services to buildings.
7370 Computer and data processing services
7392 Management, consulting, and public relations services.
7394 Equipment rental and leasing
7398 Other business services.

Automotive repair and services:
7510 Automotive rentals and leasing, without drivers.
7520 Automobile parking
7531 Automobile top and body repair shops.
7538 General automobile repair shops.
7539 Other automotive repair shops.
7540 Automotive services, except repair.

Miscellaneous repair services:
7622 Radio and TV repair shops
7628 Electrical repair shops, except radio and TV
7641 Reupholstery and furniture repair.
7680 Other miscellaneous repair shops.

Motion pictures:
7812 Motion picture and video tape production, distribution, and services.
7830 Motion picture theaters.

Amusement and recreation services:
7920 Producers, orchestras, and entertainers.
7932 Billiard and pool establishments.
7933 Bowling alleys.
7941 Professional sports clubs and promoters.
7948 Racing, including track operation.
7980 Other amusement and recreation services.

Medical and health services:
8011 Offices of physicians.
8021 Offices of dentists.
8031 Offices of osteopathic physicians.
8041 Offices of chiropractors.
8042 Offices of optometrists
8049 Registered and practical nurses.
8050 Nursing and personal care facilities.
8060 Hospitals.
8071 Medical laboratories.
8072 Dental laboratories.
8098 Other medical and health services.

Other services:
8111 Legal services.
8200 Educational services.
8911 Engineering and architectural services.
8932 Certified public accountants.
8933 Other accounting, auditing, and bookkeeping services.
8999 Other services, not elsewhere classified.

Form **4832**
Department of the Treasury
Internal Revenue Service

Class Life (ADR) System

▶ Attach this form to your return. ▶ See separate instructions.

1976

Name(s) as shown on return (If consolidated return, indicate name and identifying number of electing company) | Identifying number

NOTE: By filing this form you elect, consent, and agree to apply the provisions of section 1.167(a)–11 of the regulations.

Part I Election Questions

	Yes	No
A. Did you exclude under the special 10 percent used property rule property first placed in service this taxable year?		
B. Did you exclude any other eligible property for which an election was not required or permitted? (See instruction 1)		
C. Did you allocate the unadjusted basis of a special vintage account in this taxable year? If Yes, attach a statement showing the computation and allotted basis amount.		
D. Did you change the depreciation method for any vintage account this taxable year? If Yes, attach a statement showing the account and the computation of allowable depreciation under the new method.		
E. Did you elect to compute depreciation on a composite guideline class basis in accordance with Revenue Procedure 64–21 for electric or gas utility property under section 1.167(a)–11(b)(4)(iii)? If Yes, attach a statement showing the computation.		

F. Check first-year convention adopted this taxable year: ☐ Half-year ☐ Modified half-year

Part II Asset Guideline Class Summary (See instruction 2)

a. Asset guideline class	b. Unadjusted basis at end of year	c. Asset depreciation range depreciation this year	d. Reserve for depreciation at end of year (Do not include first-year depreciation under section 179)	e. Excess of reserves for section 1245 accounts includable in income under section 1.167(a)–11(d)(3)(ix) (1) Section 1245 gain	(2) Other gain
Totals ▶ Enter totals from columns b and c on appropriate lines of depreciation schedule of your tax return. ▶ Enter totals from columns e(1) and e(2) on appropriate lines of Form 4797.					

Total additional first-year depreciation from Part III, column c. Enter here and include on additional first-year depreciation line of depreciation schedule in tax return

Instructions for Form 4832

Class Life (ADR) System

In General.—The Class Life (ADR) System is an optional method you may elect for determining a reasonable depreciation allowance for designated classes of assets you first placed in service after December 31, 1970.

To make such an election, file Form 4832 with your return for the taxable year in which you first place eligible property in service. You may not revoke your election or modify it later for any property included in it.

You must establish "vintage accounts" for all eligible property included in your election. Determine the allowance for depreciation of property included in a vintage account for the first and all subsequent taxable years on the basis of the asset depreciation period and the first-year convention specified in your election for the first taxable year.

There are special provisions for treatment of salvage value, retirements, and the cost of the repair, maintenance, rehabilitation and improvement of property. If you elect the Class Life (ADR) System, you must apply all its provisions, including the information filing requirements established by the income tax regulations, as reflected on Form 4832

1. Eligible Property and Exclusions.—As a general rule, you must include in your election all eligible property you first placed in service during the taxable year. However, there are exceptions that permit exclusion of some property. For example, under certain circumstances you may exclude used property, property subject to amortization, as well as certain other types of property. (See section 1.167(a)–11 of the Income Tax Regulations.)

2. Part II—Asset Guideline Class Summary.—Complete this part to furnish a cumulative summary of all eligible property for which you have made or are making an election. Complete columns a through e to provide a summary by asset guideline class, including all vintage accounts, for which you have made an election in a prior year or the current year.

3. Part III — Depreciation. — Complete this part to show the eligible property for which you are electing the Class Life (ADR) System for the current year. List in column a the asset guideline class for each asset account you established during the taxable year for assets included in your current year election. If you use item accounts for similar assets in the same asset guideline class which have the same asset depreciation period and method, you may group them by asset guideline class in Part III. However, you must nevertheless apply the provisions of section 1.167(a)–11 to the separate accounts and maintain records to show you have done so.

4. Part IV—Repairs.—In general, you may elect to apply the "asset guideline class repair allowance" percentages set forth in Revenue Procedure 72–10, as supplemented and revised, to repair allowance property in any taxable year ending after December 31, 1970, for which you elect the Class Life (ADR) System. You may apply your election to repair allowance property in one asset guideline class and not in another, but you may not do so unless you have elected to use the Class Life (ADR) System for eligible property placed in service that year. "Repair allowance property" means all eligible property, determined without regard to whether you first placed it in service before or after December 31, 1970, in an asset guideline class for which a repair allowance percentage is in effect for the taxable year.

Enter the information for Part IV, columns (A) through (C), according to each asset guideline class for which you elect the repair allowance.

5. Part V—Asset Retirements.—Enter information requested in columns a through f by asset guideline class. Combine all accounts of the same vintage within the same asset guideline class as one line item. Continue to report each such vintage as part of the total for that asset guideline class until you retire the last asset of that vintage and class. If there is no retirement of a vintage asset guideline class during the year, enter zero in column c.
